1     *Be it enacted by the General Assembly of the State of Colorado:*

2           **SECTION 1. Legislative declaration.** (1) The general assembly  
3     finds that Coloradans deserve access to personal care products that are  
4     safe, advertised transparently, and free from hidden health risks.

5           (2) The general assembly further finds that certain hair products,  
6     including hair relaxers and synthetic hairpieces, are disproportionately

8     elevated exposure to harmful chemicals and related health disparities.

9           (3) The general assembly therefore determines that it is essential  
10    to promote informed consumer choice, advance public health, and  
11    encourage safer product formulation by ensuring clear disclosure when  
12    hair relaxer products and synthetic hairpiece products contain chemicals  
13    known to cause cancer or reproductive harm.
