10		Colorado Boulder may be incorporated into resident tuition rates, with no resulting effective combined tuition and mandatory fee increase to any student, and					
11		any incorporated fees shall never be reestablished as a student fee. These amounts are also calculated based on the assumption that each governing board will					
12		increase tuition rates for graduate and nonresident students based on its assessment of market conditions, except that the calculation for any institution at which					
13		the state contributes a share of nonresident tuition is based on the assumption that no student with nonresident classification will pay more tuition in FY					
14		2025-26 than three and five-tenths percent over what a student would have paid in FY 2024-25 for the same credit hours and course of study. The General					
15		Assembly intends to adjust the amounts in these line items through supplemental action during FY 2025-26 based on updated enrollment estimates and tuition					
16		rate information.
