Summary of Legislation

Under current law, citizens may refer a ballot measure to determine if a local government must allow firefighters to engage in collective bargaining. The bill permits these measures to appear on the ballot in any general election, including regular elections and coordinated elections.

Local Government

The bill potentially impacts local governments that provide fire protection services. For example, special districts that offer fire protection pay the county clerk and recorder for participation in a coordinated election. Since participation in a coordinated general election in any year is less expensive than a special election, providing an additional election option to voters of local governments may result in a small cost savings in those instances when citizens initiate a collective bargaining ballot measure for firefighters.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
