1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly  
3 finds that Coloradans deserve access to personal care products that are  
4 safe, advertised transparently, and free from hidden health risks.

5 (2) The general assembly further finds that certain hair products,  
6 including hair relaxers and \_\_\_\_\_ hairpieces, are disproportionately  
7 marketed to and used by communities that have historically faced  
8 elevated exposure to harmful chemicals and related health disparities.

9 (3) The general assembly further finds that consistency in warning  
10 label requirements for similar products benefits both consumers and  
11 manufacturers by promoting clarity and reducing unnecessary burdens. In  
12 developing these requirements, it is the intent of the general assembly that  
13 Colorado establish its own requirements that:

14 (a) Meet or exceed comparable consumer protection standards;  
15 and

16 (b) Align with applicable federal law and guidance, including new  
17 or updated classifications of the International Agency for Research on  
18 Cancer established by the World Health Organization, the secretary of the  
19 federal department of health and human services, the United States  
20 environmental protection agency, and other applicable agencies.

21 (4) The general assembly therefore determines that it is essential  
22 to promote informed consumer choice, advance public health, and

1 encourage safer product formulation by ensuring clear and consistent  
2 disclosure when hair relaxer products and \_\_\_ hairpiece products contain  
3 chemicals known to cause cancer or reproductive harm.

4 **SECTION 2.** In Colorado Revised Statutes, **add** 25-5-429 as  
5 follows:

6 **25-5-429. Chemicals used in hair relaxers and \_\_\_ hair pieces**  
7 **- warning labels - deceptive trade practice - short title - definitions.**
