5 permanent fund, is inviolate and the interest and income derived from the
6 public school fund must only be used on the maintenance of public
7 schools;

8 (b) Revenue deposited into the public school fund from public
9 school lands has been high in recent years: \$117.1 million in state fiscal

11 million in state fiscal year 2024-25;

13 the public school fund from public school lands will exceed \$100 million
14 in state fiscal years 2025-26 and 2026-27;

15 (d) Diverting revenue from public school lands to the state public
16 school fund instead of the public school fund has occurred on a one-time
17 basis in the past, most notably, in state fiscal year 2020-21 in response to
18 the economic impacts of the COVID-19 pandemic; and

19 (e) Diverting of a portion of this public school land revenue to the
20 state public school fund must occur on a one-time basis only so that the
21 value of the state's school lands and the public school fund, which are for
22 the intergenerational support of public schools, are not significantly
23 diminished.
