A BILL FOR AN ACT

101 **CONCERNING KNOWING BEHAVIOR THAT LURES BEARS.**

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)

Under current law, a person is guilty of a crime for placing food or edible waste in the open with the intention of luring a wild bear. The law requires a person to be given a warning for the first violation.

The bill:

- Lowers the mental state requirement from intention to criminal negligence;
- Repeals the requirement that a first offense be given a warning; and

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.
Capital letters or bold & italic numbers indicate new material to be added to existing law.
Dashes through the words or numbers indicate deletions from existing law.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) The black bear, whose scientific name is *Ursus americanus*, is
5 a species native to Colorado;

6 (b) Black bears are culturally and ecologically significant to the
7 state;

8 (c) There are an estimated 17,000 to 20,000 black bears in
9 Colorado;

10 (d) As the state's population, development, and tourism continues
11 to grow, constraints on wild habitat and food sources, including natural
12 food failures driven by drought and other climatic conditions, are likely
13 to increase, resulting in more human-black bear interactions and conflicts;

14 (e) In 2024, the division of parks and wildlife received over 5,000
15 reports of sightings and conflicts with black bears, which is 14.8% higher
16 than the previous 5 years;

17 (f) In 2024, the division of parks and wildlife spent nearly 6,000
18 hours of staff time responding to human-black bear conflicts and spent
19 nearly \$800,000 in supplies, grants, and salaries related to human-black
20 bear conflicts;

21 (g) The majority of incident reports related to black bears involve
22 black bears attempting to access human food sources, with over 50% of
23 reported sightings and conflicts in 2024 linked to trash and food waste;

24 (h) Human-black bear conflicts pose safety and health issues for
25 both humans and black bears; and

1 (i) In 2024, 68 black bears needed to be relocated and 98 were
2 euthanized because of incidents with humans, many of which were the
3 result of human negligence.

4 (2) In order to avoid unsafe situations between black bears and
5 humans, it is imperative, therefore, that Coloradans and visitors to the
6 state properly manage attractants that might lure black bears into
7 situations of human conflict.
