person that is the subject of the complaint alleging a fraudulent filing; and

- Mark a business record with a notice that an entity is unauthorized or fraudulent without referring a complaint about the entity to the attorney general if the secretary receives a notice from the attorney general that the entity being listed as the registered agent was created or registered without authorization or for fraudulent purposes.

The bill prohibits using a fraudulent entity as a registered agent in a business entity filing.

Current law provides an administrative process for determining if an entity filing is made fraudulently or otherwise violates the law when a complaint is made. If such a determination is made, the entity filings may be canceled and the filers penalized. The procedures require the attorney general to notify the entity's registered agent. If the entity does not reply within 21 days after the notification, another notice is mailed, and if the entity does not reply to that notice within 21 days, the complaint is deemed to be conceded. The bill:

- Authorizes the attorney general to provide written notice to any other point of contact that the attorney general determines through investigation to be a means to reach the entity, if the address of the registered agent is the same as the address of the complainant;
- Repeals the second 21-day notice period; and
- Authorizes a person that is injured by such a violation to bring an action to dissolve the entity.

Under current law, actions to dissolve an entity must be brought in the district court for the county where the entity's principal office is located; if the entity has no principal office in this state, where the registered agent is located; or, if the entity has no registered agent, in Denver. The bill authorizes the action to be brought in Denver when the dissolution is based on a fraudulent filing.
