CONCERNING A STATEWIDE PLAN FOR AWARDED COLLEGE CREDIT FOR WORK-RELATED EXPERIENCE.

Be it enacted by the General Assembly of the State of Colorado:

additional rights for their work-related experience to be evaluated fairly for application toward a postsecondary credential;

(b) To ensure the economic vitality of Colorado, every industry needs access to a skilled workforce, every Coloradan needs access to meaningful employment, and institutions of higher education must maintain the ability to enroll qualified students and produce high-quality credentials of value;

(c) During the 2016-17 and 2017-18 academic years, high school students earned nine thousand industry credentials related to high-demand jobs and industries in Colorado. These industry credentials should be evaluated for potential application toward a postsecondary credential with transferability among two-year and four-year institutions.

(d) The commission on higher education, in collaboration with representatives from institutions of higher education, must develop a plan to align work-related experience with academic credit that counts toward a student's postsecondary education credential;

(e) The plan must be open, transparent, and credible so students can progress more efficiently along pathways into postsecondary education and the workforce;

(f) Industry members, especially from high workforce demand and growing industries with critical occupations and top jobs that are identified in the Colorado talent pipeline report, are important stakeholders in this process to ensure Colorado's higher education system is responsive to students and to the changing economy; and

(g) Through this work, the general assembly ensures additional pathways to career and financial success for Colorado students and workers and reduced costs to students through less time required to earn a degree.
