CONCERNING THE CREATION OF THE COLORADO IMAGINATION LIBRARY PROGRAM.

*Be it enacted by the General Assembly of the State of Colorado:*

**SECTION 1. Legislative declaration.** (1) The general assembly finds and declares that:

(a) A child's early years play a pivotal role in the child's literacy abilities. Literacy skills learned between birth and age 5 often predict literacy in later years. Children who struggle with literacy in kindergarten through third grade are unlikely to catch up to their peers, and the

proficiency gap widens as students grow older.

(b) In 2019, the National Assessment of Educational Progress (NAEP) indicated that just 40% of Colorado students in fourth grade could read proficiently;

(c) NAEP results also demonstrate that Colorado has not made progress in improving literacy among historically underserved students. Similar to NAEP results in 1998, in 2019, Colorado's African American and Hispanic and Latino fourth graders saw average reading scores that were 24 and 27 points lower, respectively, than the average score of their Caucasian peers. Also similar to results in 1998, in 2019, Colorado children from low-income families saw an average reading score that was 30 points lower than higher income students.

(d) Access to printed reading materials is a key component in ensuring literacy among young children. Children with more exposure to printed reading materials excel in comprehension, technical reading, and spelling.

(e) Children in many of Colorado's small rural school districts on the eastern side of the state do not have access to a public library and therefore see zero per-student circulation of child reading materials through a library;

(f) Some larger rural school districts with larger percentages of children living in poverty and children of color have only one public library to serve their student populations and therefore see low circulation of reading materials; and

(g) Reading proficiently by the end of third grade is essential to mastering other academic subjects. Students who struggle with literacy are 4 times more likely to eventually drop out of school without earning their high school diploma.

(2) Therefore, the general assembly finds that it is imperative for children from birth to 5 years old have access to high-quality, age-appropriate books on a monthly basis at no cost to families.

**SECTION 2.** In Colorado Revised Statutes, add 24-90-120 as follows:

**24-90-120. Colorado imagination library program - creation - request for proposal - state librarian duties - report - definitions.**
