Bill Number

House Bill 16-1014

Sponsors

Representative Williams
Senator Tate

Short Title

Secretary of State Business
Intelligence Center

Research Analyst

Luisa Altmann (x3518)

Status

This research note reflects the final version of the bill, which became effective on August 10, 2016.

Summary

The Secretary of State's Office currently operates a Business Intelligence Center (BIC) under its Business and Licensing Division to streamline access to public data and provide resources to make the data more useful. This bill formally creates the BIC in statute and authorizes the department's operation of the program. This bill also establishes the BIC Advisory Board to assist in the operation of the program, with a scheduled repeal date of September 1, 2026.

Background

The BIC was established in FY 2013-14 to collect, standardize, publish, and maintain datasets of high value to the business community from across state agencies to improve access to public information. To date, the BIC has published a total of 154 datasets on the Colorado Information Marketplace and plans to add an additional 32 datasets by the end of FY 2015-16. The BIC also hosts the Go Code Colorado statewide application challenge event, where teams of software developers and members of the Colorado business community are charged with developing apps that utilize the data gathered and maintained by BIC to solve business-related problems.
