1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1.** In Colorado Revised Statutes, **add with amended**
 3 **and relocated provisions** part 2 to article 1 of title 35 as follows:

4 **PART 2**

5 **COLORADO FOOD SYSTEMS ADVISORY COUNCIL**

6 **35-1-201. [Formerly 24-37.3-101] Legislative declaration.**

7 (1) The general assembly hereby finds and declares that:

8 (a) In September 2009, the federal centers for disease control and
 9 prevention reported that no state in the United States was meeting
 10 national goals for the amount of fruits and vegetables that Americans

1 should be eating. As a result, the centers for disease control and
2 prevention identified the creation of food policy councils, consisting of
3 multi-stakeholder organizations, as an effective way to support system
4 changes to improve local, regional, and state food economies.

5 (b) Food councils formed in other states have been effective in
6 bringing together a broad array of food-related government and
7 nongovernment constituencies to employ a food systems approach that
8 facilitates evaluation and program development at every stage of the food
9 process from farm to table;

10 (c) Formation of a state food advisory council is intended to
11 benefit Colorado agriculturists and others involved in all aspects of
12 agricultural production;

13 (d) Creation of a state food advisory council will provide
14 increased focus on the economic development opportunities of Colorado's
15 food system along with improvements to agricultural production,
16 community well-being, and public health; AND

17 (e) Nothing in this ~~article~~ PART 2 is intended to impede, cause
18 harm to, or limit conventionally produced agricultural products or the
19 persons who produce them.

20 (2) The general assembly further finds that building local,
21 regional, and state food economies will create jobs, stimulate statewide
22 economic development, and circulate money from local food sales within
23 local communities. The general assembly finds that building robust,
24 resilient, and long-term local food economies in Colorado will preserve
25 and protect the natural environment, increase consumer access to fresh,
26 healthy, and safe foods, and provide greater food security for all
27 Coloradans.
