HB17-1226

FISCAL NOTE

**FISCAL IMPACT:**  State  Local  Statutory Public Entity  Conditional  No Fiscal Impact

Drafting Number: LLS 17-0998  
Prime Sponsor(s): Rep. Pabon; Covarrubias

Date: March 9, 2017  
Bill Status: House Agriculture  
Fiscal Analyst: Ryan Long (303-866-2066)

**BILL TOPIC:** MAKE DAYLIGHT SAVING TIME YEAR-ROUND STANDARD TIME

Fiscal Impact Summary	FY 2017-2018	FY 2018-2019
<b>State Revenue</b>		
<b>State Expenditures</b>	See State Expenditures section.	
Cash Funds		
<b>Appropriation Required:</b>	None.	
<b>Future Year Impacts:</b>	None.	

### Summary of Legislation

The bill makes daylight saving time the year-round standard time within the state. It only goes into effect if:

- it is approved by Colorado voters in the November 2018 general election; and
- all other states wholly or partially in the Mountain Time Zone also adopt permanent daylight saving time for any areas they have in the Mountain Time Zone.

### State Expenditures

Adopting daylight saving time as the year-round standard time will have no impact on the expenditures or revenue of any state agency or local government. As Office of Information Technology applications are typically linked to servers not housed in the affected state agencies, system modifications will not be required. However, there are election costs associated with this bill, which are described below.

***Election expenditure impact (existing appropriations).*** This bill includes a referred measure that will appear before voters at the November 2018 general election. Although no additional appropriation is required in this bill, certain election costs are incurred by the state when ballot measures are referred to voters. These costs, paid using existing appropriations, are in two areas. First, current law requires the state to reimburse counties for costs incurred conducting a ballot measure election, paid from the Department of State Cash Fund in the Secretary of State's Office. Second, the text and title of the measure must be published in one legal newspaper per county and an analysis of the measure must be included in the Ballot Information Booklet (Blue Book) mailed to all registered voter households, paid from the Ballot Analysis Revolving Fund in

the Legislative Department. Table 1 estimates the costs for a single ballot measure in 2018. These costs will increase by approximately \$100,000 per measure beyond this base amount for any additional referred or initiated measures placed on the ballot.

<b>Table 1. Projected Costs of a Single Statewide Ballot Measure Election in 2018</b>	
County Reimbursement for Statewide Ballot Measures	\$2,700,000
Ballot Information Booklet (Blue Book) and Newspaper Publication	700,000
<b>TOTAL</b>	<b>\$3,400,000</b>

### **Effective Date**

This act takes effect on the first Saturday of November in the year that every state wholly or partially in the Mountain Time Zone receives approval from the secretary of the United States Department of Transportation to observe year-round daylight saving time in the areas of those states located in the Mountain Time Zone.
