REVISED FISCAL NOTE

(replaces fiscal note dated April 3, 2018)

Drafting Number: LLS 18-0631 Date: May 8, 2018
Prime Sponsors: Rep. Danielson; Landgraf Bill Status: Senate Second Reading
Sen. Crowder; Williams A. Fiscal Analyst: Louis Pino | 303-866-3556
louis.pino@state.co.us

Bill Topic: INCOME TAX DEDUCTION FOR MILITARY RETIREMENT BENEFITS

Summary of Fiscal Impact: State Revenue, State Expenditure, State Transfer, TABOR Refund, Local Government, Statutory Public Entity

This bill allows an income tax deduction for military retirement benefits received by individuals under age 55. The maximum deduction amount is capped in each tax year the deduction is available. This bill will result in an annual decrease in state revenue beginning in FY 2018-19 through FY 2022-23. One-time expenditures of \$35,000 result in FY 2019-20.

Appropriation Summary: No appropriation is required.

Fiscal Note Status: This revised fiscal note reflects the reengrossed bill, as amended by the Senate Appropriations Committee.

Table 1 State Fiscal Impacts Under HB 18-1060

Table with 8 columns: Category, Fund, FY 18-19, FY 19-20, FY 20-21, FY 21-22, FY 22-23, FY 23-24. Rows include Revenue, Expenditures, and TABOR Refund.

Summary of Legislation

This bill allows an income tax deduction for military retirement benefits received by individuals under age 55. The deduction is available for tax years 2019 through 2023, and the maximum amount a qualified individual may deduct on their state income taxes in each tax year is summarized in Table 2.

Table 2
Maximum Military Retirement Income Tax Deduction under HB 18-1060

| Tax Year | 2019 | 2020 | 2021 | 2022 | 2023 |
|-----------------|---------------|---------------|----------------|----------------|----------------|
| Deduction Cap | up to \$4,500 | up to \$7,500 | up to \$10,000 | up to \$15,000 | up to \$15,000 |

Background

Under current law, qualifying taxpayers aged 55 to 64 may deduct up to \$20,000 in retirement income from their taxable income each year and qualifying taxpayers aged 65 and older may deduct up to \$24,000 each year. The deduction is allowable for both military and non-military sources of retirement income, including but not limited to Social Security income, pensions, and 401(k) retirement plan distributions.

State Revenue

This bill is estimated to reduce General Fund revenue by \$1.1 million in FY 2018-19, \$2.9 million in FY 2019-20, \$4.4 million in FY 2020-21, \$6.5 million in FY 2021-22, \$7.8 million in FY 2022-23, and \$3.9 million in FY 2023-24, the final fiscal year the deduction is available. FY 2018-19 and FY 2023-24 are half-year impacts.

Assumptions. Based on data from the Department of Defense's Office of the Actuary, the number of retirees in Colorado under the age of 55 receiving non-disabled military benefits was approximately 11,000 in 2017. On average, these retirees received an annual benefit payment of \$27,000.

This fiscal note assumes that the majority of these taxpayers will have a Colorado income tax liability large enough to claim the full savings allowed under this bill because many military retirees under age 55 pursue a second career thus increasing their total taxable income. On average, taxpayers with a total adjusted gross income between \$35,000 to \$50,000 had a state income tax liability of \$992 in 2013, the year for which the latest data are available. This average tax liability and that of higher income taxpayers exceeds the maximum savings under the bill. To the extent that qualifying taxpayers do not have an income tax liability large enough to experience the full savings from this bill, state revenue reductions estimated in this fiscal note will be lower. Table 3 summarizes the maximum taxpayer savings from the deduction under HB 18-1060.

Table 3
Maximum Taxpayer Savings from the Income Tax Deduction under HB 18-1060

| Tax Year | 2019 | 2020 | 2021 | 2022 | 2023 |
|-----------------|-------------|-------------|-------------|-------------|-------------|
| Max Tax Savings | \$208 | \$347 | \$463 | \$695 | \$695 |

To the extent that this bill induces nonresidents who receive military retirement benefits to move to Colorado who otherwise would not have moved, or induces current residents receiving such benefits to remain in Colorado who otherwise would have moved, the state and local governments may receive additional revenue through taxes and fees that may partially offset the revenue impact of this bill.

TABOR Refund

This bill reduces state revenue from the General Fund, which will reduce the amount of money required to be refunded under TABOR for FY 2018-19 and FY 2019-20. Since the bill reduces revenue to the General Fund and the refund obligation by equal amounts, there is no net impact on the amount of money available in the General Fund for the budget. However, the bill will reduce money for the General Fund budget in the future during years when the state does not collect revenue above the TABOR limit. State revenue subject to TABOR is not estimated for years beyond FY 2019-20.

State Expenditures

This bill will increase General Fund expenditures for the Department of Revenue by \$35,038 in FY 2019-20 only. Costs include programming, testing, and form change costs, as summarized in Table 4.

**Table 4
 Expenditures Under HB 18-1060**

| Cost Components | FY 2018-19 | FY 2019-20 |
|------------------------------|-------------------|-------------------|
| Department of Revenue | - | - |
| GenTax Programming | - | \$30,000 |
| GenTax Testing | - | \$3,838 |
| Form Change Costs | - | \$1,200 |
| Total | - | \$35,038 |

Department of Revenue. This bill requires changes to the Department of Revenue's GenTax software system, which is programmed by a contractor at a rate of \$250 per hour. These changes are expected to increase General Fund expenditures by \$30,000, representing 120 hours of programming. All GenTax programming changes are tested by department staff, requiring expenditures for contract personnel totaling \$3,838, representing 160 hours of testing at a rate of \$24 per hour. Individual income tax form updates and programming changes typically begin in the last quarter of the first year the tax deduction is available. Retirement income is reported on federal income tax returns, requiring minimal verification workload demands that can be accommodated within existing appropriations.

Department of Personnel and Administration. This bill requires programming and reconfiguring of the document imaging system to insert an additional line to capture the deduction value on individual income tax form 104CR. This will require one-time programming costs of \$1,200 in FY 2019-20 which will be reappropriated from the Department of Revenue to the Department of Personnel and Administration.

Effective Date

The bill takes effect August 8, 2018, if the General Assembly adjourns on May 9, 2018, as scheduled, and no referendum petition is filed.
