Summary of Legislation

This bill continues until September 1, 2023, the Food Systems Advisory Council in the Department of Agriculture, which is scheduled to repeal on September 1, 2018.

Background

The Food Systems Advisory Council was created by Senate Bill 10-106 and continued by Senate Bill 13-174. Its mission is to foster a healthy food supply, enhance the state's agricultural and natural resources, encourage economic growth, expand the viability of agriculture, and improve the health of Colorado communities and residents by making recommendations to state agencies and the General Assembly. During the most recent sunset review period, the council did not seek or receive any gifts, grants, or donations, but received administrative support from Colorado State University and website support from LiveWell Colorado.

Continuing Program Impacts

To the extent that the council seeks and receives gifts, grants, or donations, it will have an increase in revenue and expenditures beginning in FY 2018-19. The advisory council is not included in an agency budget and does not receive an appropriation. If the bill is not enacted, the council will repeal in FY 2018-19 and potential increases in state revenue and expenditures will cease. Revenue received from gifts, grants, or donations is not subject to TABOR.

Effective Date

The bill was signed into law by the Governor on May 30, 2018, and takes effect August 8, 2018, assuming no referendum petition is filed.
