Summary of Legislation

The bill changes the timing of departmental presentations to legislative joint committees of reference under the State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act. The hearings currently take place between November 1 and the commencement of the legislative session; the bill moves the hearings to within the first two weeks of the legislative session, starting in the 2020 legislative session. The bill eliminates a requirement that appointments to committees of reference take place by December 1 preceding the convening of the legislature.

Background

SMART Act hearings were established by House Bill 10-1119. The bill created performance-based budgeting requirements for state agencies and an oversight role for legislative committees over assigned state agencies within their subject matter jurisdiction. At these hearings, agencies present their performance plan, regulatory agenda, budget request, and legislative agenda.

State Expenditures

The bill reduces General Fund expenditures in the Legislative Department by \$39,293 in FY 2019-20 and future years. Legislators are eligible for per diem and expense reimbursement for attending committee meetings, including SMART Act hearings, that take place when the legislature is not in session. These costs average \$198 per member per meeting. The fiscal note assumes a reduction of 9 joint committees meeting once per year and averaging 21 legislators in attendance. Holding SMART Act hearings during the regular legislative session eliminates the per diem and reimbursement expenditures required to hold these hearings during the interim. These impacts are shown on Table 2.

Table 2
Reduced Expenditures Under SB 19-252

Legislative Department	
Number of Joint Committees of Reference	9
Number of Meetings	1
Legislators per Meeting	21
Per Diem and Reimbursement per Member per Meeting	\$198
Annual Cost Savings	\$37,422

Centrally appropriated costs. Pursuant to a Joint Budget Committee policy, certain costs associated with this bill are addressed through the annual budget process and centrally appropriated in the Long Bill or supplemental appropriations bills, rather than in this bill. Supplemental employee retirement payments associated with legislator per diem are estimated to decrease by \$1,871 per year starting in FY 2019-20.

Effective Date

The bill was signed into law by the Governor on May 23, 2019, and takes effect August 2, 2019, assuming no referendum petition is filed.

State Appropriations

For FY 2019-20, the bill requires a decrease in General Fund appropriations to the General Assembly of \$37,422.
