Summary of Legislation

This bill makes daylight saving time the year-round standard time. Specifically, it specifies that the standard time year-round in Colorado is United States Mountain Standard Time, as defined in federal law, plus one hour.

Background

Under federal law, there are two ways for a state to change time zones: by an act of Congress, or by regulation issued by the Secretary of Transportation.

Assessment of No Fiscal Impact

Changing the state's standard time will have no impact to the revenue, expenditures, or workload to any state or local government; therefore, the bill is assessed as having no fiscal impact.

Effective Date

This bill was postponed indefinitely by the Senate State, Veterans, and Military Affairs Committee on February 19, 2020.
