SENATE
Amended 2nd Reading
May 7, 2021

The bill requires the department of human services' office of behavioral health to contract with the collaborative to hire and train specialized personnel. The bill also requires the office of behavioral health to collaborate with the collaborative to engage in targeted marketing and outreach, and to ensure the marketing and outreach are targeted to traditionally underserved communities, such as immigrant, low-income, and communities of color.

The bill also requires the collaborative to coordinate with the department of labor and employment (department) to target, conduct outreach, and market to individuals who are unemployed, regardless of whether they receive benefits, and may need referrals for behavioral health services and other resources. The department is required to update its unemployment application web page and specified websites to include contact information for the collaborative.

The bill makes an appropriation.
