Revised Fiscal Note

(replaces fiscal note dated March 26, 2021)

Drafting Number:	LLS 21-0412	Date:	May 11, 2021
Prime Sponsors:	Rep. Titone; Soper Sen. Bridges; Coram	Bill Status:	Senate Appropriations
		Fiscal Analyst:	Erin Reynolds 303-866-4146 Erin.Reynolds@state.co.us

Bill Topic: BROADBAND BOARD CHANGES TO EXPAND BROADBAND SERVICE

Summary of Fiscal Impact:	<input type="checkbox"/> State Revenue	<input type="checkbox"/> TABOR Refund
	<input checked="" type="checkbox"/> State Expenditure	<input checked="" type="checkbox"/> Local Government
	<input type="checkbox"/> State Transfer	<input type="checkbox"/> Statutory Public Entity

This bill moves the Broadband Deployment Board from the Department of Regulatory Agencies to the Office of Information Technology, and modifies the membership and duties of the Broadband Deployment Board. Beginning in FY 2021-22, the bill creates a one-time state transfer, shifts state expenditures, and conditionally increases local government expenditures

Appropriation Summary: For FY 2021-22, the bill requires an appropriation of \$202,504 to the Office of Information Technology.

Fiscal Note Status: The revised fiscal note reflects the reengrossed bill, as amended by the Senate Business, Labor, and Technology Committee.

**Table 1
State Fiscal Impacts Under HB 21-1109**

		Current Year FY 2021-22	Out Year FY 2022-23
Revenue		-	-
Expenditures	Cash Funds (DORA)	(\$202,504)	(\$202,504)
	Cash Funds (OIT)	\$202,504	\$202,504
	Total Expenditures	\$0	\$0
	Total FTE	0 FTE	0 FTE
Transfers		-	-
TABOR Refund		-	-

Summary of Legislation

This bill moves the Broadband Deployment Board from the Department of Regulatory Agencies to the Office of Information Technology, and modifies the membership and duties of the board.

Board to Office of Information Technology. Upon signature of the Governor, the board and the Broadband Administrative Fund are moved from the Department of Regulatory Agencies to the Office of Information Technology.

Board membership. Effective September 1, 2021, the bill reduces membership on the Broadband Deployment Board from 16 to 11 members to include: one member from the Office of Information Technology (OIT); three members representing local entities; five members representing the broadband industry; and two members representing the public. On that date, of the board's membership, at least three must be registered as Republican, at least three registered as Democrats, and at least three registered as Unaffiliated.

Broadband grants to critically unserved areas. The bill directs the Broadband Deployment Board to establish an annual Request for Proposals (RFP) process to address critically unserved areas of the state, as identified by the OIT, and to award up to 60 percent of grant funding to proposals serving these areas. Federal funding must also be distributed through the RFP process if it meets federal requirements for the use of the funds. Any funding not awarded through the RFP process remains available for distribution through the existing grant application process. The RFP requirement is repealed September 1, 2024.

"Critically unserved" is defined as a household or area that lacks access to at least one non-satellite provider of broadband service delivered at measurable speeds of either at least ten megabits per second downstream and one megabit per second upstream or at measurable speeds at least equal to one-half of the minimum measurable speeds that qualify as broadband under the FCC definition and rounded up to the nearest whole number, whichever is faster.

The bill also directs the board to:

- require applicants to submit either written certification from a local entity that an area is unserved or a statistically representative number of speed tests;
- give additional consideration to proposals that provide discounts for low-income households;
- contractually require annual reporting from grant recipients on speeds, rates, and service areas;
- require grant recipients to provide third-party certification that the project meets the speeds, rates, and services set forth in the original application;
- require applicants to submit certain granular mapping data, which the bill makes exempt from the Colorado Open Records Act; and
- allow for less matching funds from an applicant if they meet all the requirements and have the highest amount of proposed matching funds among competing proposals for that area.

Background

Broadband Deployment Board. House Bill 14-1328 created the Broadband Deployment Board to award and administer grants from the Broadband Administrative Fund, which receives funding from the High Cost Support Mechanism (HCSM) pursuant to Senate Bill 18-002. The HCSM is administered by the Public Utilities Commission via third-party contract. Members of the board are appointed by the Governor and legislative leadership. The board received \$12.8 million from the HCSM in CY 2020. Additionally, up to nearly \$50 million may be awarded to broadband projects as part of the Governor's stimulus proposal, if approved, and additional federal stimulus funding for broadband deployment may become available.

Colorado Broadband Map. The OIT updates the Colorado Broadband Map twice annually. See <https://broadband.co.gov/understanding-the-broadband-map> for more information.

State Expenditures

In FY 2021-22, the bill will shift \$202,504 and 2.0 FTE in cash fund expenditures from the Broadband Administrative Fund from the Department of Regulatory Agencies to the Office of Information Technology. As shown in Table 2 and discussed below, this will result in no net change in state expenditures.

**Table 2
 Expenditures Under HB 21-1109¹**

Cost Components	FY 2021-22	FY 2022-23
Department of Regulatory Agencies		
Personal Services	(\$202,504)	(\$202,504)
FTE – Personal Services	(2.0 FTE)	(2.0 FTE)
DORA Subtotal	(\$202,504)	(\$202,504)
Office of Information Technology		
Personal Services	\$202,504	\$202,504
FTE – Personal Services	2.0 FTE	2.0 FTE
OIT Subtotal	\$202,504	\$202,504
Total	\$0	\$0
Total FTE	0 FTE	0 FTE

¹ Expenditures reflect amounts included in the Long Appropriations Bill for FY 2021-22.

Relocation of board. Costs of \$202,504 and 2.0 FTE from the Broadband Administrative Fund will be shifted from DORA to OIT. It is assumed that capital outlay for this staff will be absorbed within existing OIT resources.

Broadband Deployment Board. The bill's provisions primarily streamline the broadband grant cycle, allowing the additional considerations for the board contained in the bill to be accomplished within the normal course of business. Reducing the number of board members will minimally reduce expenditures for per diem and necessary expense reimbursements.

Broadband mapping. The OIT will continue to incorporate data received from broadband providers into its broadband map. No change in appropriations is required.

Local Government

Changing the criteria for Broadband Deployment Board grants may result in additional revenue to local government internet providers in unserved areas that apply for and receive grants.

Effective Date

The bill takes effect upon signature of the Governor, or upon becoming law without his signature, and applies to grant applications filed on or after this date.

State Appropriations

For FY 2021-22, the bill requires an increased appropriation of \$202,504 and 2.0 FTE from the Broadband Administrative Fund to the Office of Information Technology and a corresponding decrease in appropriations to the Department of Regulatory Agencies.
