Summary of Legislation

This bill replaces the term “lease-purchase agreement” with “financed purchase of an asset or certificate of participation agreement,” and makes other similar and related changes in Colorado Revised Statutes, to conform to current requirements established by the Governmental Accounting Standards Board (GASB).

Background

GASB, which sets government accounting reporting requirements, recently made changes to lease reporting requirements. According to the new requirements, state and local public contracts that transfer ownership of an asset to a lessee at the end of the contract must now be accounted for and reported as a financed purchase or sale of an asset. The requirement is effective for federal fiscal year 2022.

Assessment of No Fiscal Impact

The bill modifies statutory accounting definitions for certain public contract transactions to conform to GASB accounting and reporting standards. It will not affect state or local revenue and expenditures; therefore, this bill is assessed as having no fiscal impact.

Effective Date

The bill was signed into law by the Governor on June 24, 2021, and took effect on July 1, 2021.
