## Summary of Legislation

The bill transfers \$15.0 million from the General Fund to the Colorado Water Conservation Board (CWCB) Construction Fund and appropriates the money for watershed restoration and flood mitigation grants. Grants must support work to restore, mitigate, and protect streams and riparian areas susceptible to flooding and erosion following a wildfire, including installation or repair of water and debris control structures. The department must report on the spending in its annual SMART Act hearing.

The money is allocated as follows:

- up to \$500,000 to conduct a statewide watershed analysis to investigate the susceptibility of water supplies to wildfire impacts by December 31, 2022;
- up to \$1.5 million to assist grantees with technical engineering services and overall program management;
- up to \$750,000 to administer the grant program; and
- the remaining money for grants, at least \$10.0 million of which must be awarded by July 1, 2022, with the remaining money awarded by December 31, 2022.

## State Transfers

The bill transfers \$15.0 million from the General Fund to the CWCB Construction Fund within three days of the bill's effective date, which is assumed to fall in FY 2020-21.

## State Expenditures

The bill increases expenditures in the Department of Natural Resources by \$15.0 million from the CWCB Construction Fund. Grant awards and watershed analysis expenditures will take place by FY 2022-23; grant administration costs and technical services have no associated deadlines and are available to the department until fully expended.
