care of a child in a physically unrestricted setting for no more than 5 days, pending a return to the child's home or placement in an alternate setting. Receiving temporary care in emergency temporary shelter is voluntary, and a child may leave emergency temporary shelter at any time.

A county department may contract with any of the following facilities to provide emergency temporary shelter in the county: Group care facilities and homes or a foster care home, homeless youth shelter, residential child care facility, respite child care center, specialized group facility, or any other licensed or certified 24-hour nonsecure care and treatment facility away from the child's parent or guardian. A county can enter into agreements with more than one facility, and 2 or more counties may jointly enter into an agreement with a facility.

The bill requires the general assembly to appropriate money to the state department of human services (state department) for emergency temporary shelter services. The state department allocates the money to a county after approving the county's emergency temporary shelter plan.
