applications for essential state public assistance programs such as the supplemental nutrition assistance program (SNAP), medicaid, and Colorado works.

The bill integrates eligibility and enrollment for SNAP with eligibility criteria for the Colorado low-income energy assistance program to increase access.

The bill creates a community food access program (food program) in the department of agriculture (department). The purpose of the food program is to improve access to and lower prices for healthy foods in low-income and underserved areas of the state by supporting small grocery retailers. The small food business recovery and resilience grant program (grant program) is established, to be overseen by the food program. An advisory committee is established to assist the department with the grant program. One-time grants not to exceed \$25,000 will be provided to small grocery retailers to help support infrastructure and other necessary items to make fresh, healthy food more accessible to low-income and underserved communities. The department is granted authority to promulgate rules as necessary to implement the food program.

The food program is repealed, effective September 1, 2027.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Colorado is ranked as one of the most expensive states to live
5 in. On a scale of one to fifty, with fifty meaning highest costs, Colorado
6 ranks forty-eighth for housing affordability and thirty-sixth for cost of
7 living.

8 (b) Nutrition insecurity rates are at record highs in Colorado, and
9 the rising cost of food exacerbates this. Today, thirty-three percent of
10 Coloradans report some degree of food insecurity, up from just less than
11 ten percent before the COVID-19 pandemic began.

12 (c) Housing affordability and accessibility are at crisis levels in
13 Colorado; when a family becomes burdened by rent costs, the family
14 often begins to spend less on other items, such as healthy food;

1 (d) Long-standing disparities in access to healthy food have
2 increased dramatically as a result of the COVID-19 pandemic; forty-three
3 percent of non-White and Latino Coloradans now struggle to put food on
4 the table, compared with twenty-nine percent of White Coloradans;

5 (e) More than two hundred fifty thousand Colorado households
6 receive supplemental nutrition assistance program (SNAP) benefits;

7 (f) More than sixty percent of food retailers in Colorado that
8 accept SNAP benefits are small, corner, or convenience stores. These
9 stores often struggle to provide a balanced and healthy selection of food.

10 (g) In response to the COVID-19 public health emergency,
11 obstacles that small food retailers face in providing healthy, affordable
12 food to local communities include a lack of financial resources for
13 capacity-building, such as updating technology, paying for pallet fees, and
14 technical assistance with negotiating and contracting;

15 (h) To help bring down the cost of essential, fresh, and perishable
16 food for lower-income households and to maximize the amount and
17 quality of food they can purchase, it is essential to assist small food
18 retailers;

19 (i) Small food retailers tend to have higher prices for fresh and
20 perishable foods compared to large food retailers. Small food retailers
21 face pallet break fees charged by distributors because they cannot meet
22 minimum purchase quotas; small food retailers also lack cold storage or
23 other storage space to store higher quantities of perishable foods; and

24 (j) Therefore, the general assembly declares that it is in the best
25 interest of Coloradans to establish a community food access program to
26 improve access to and lower prices for healthy foods in low-income and
27 underserved areas of the state by supporting small food retailers with

1 technical assistance, subsidies for pallet, pallet break, distribution,
2 delivery, and other fees, and one-time grants to strengthen infrastructure.

3 (2) The general assembly further finds that:

4 (a) A high-quality work management system will have further
5 interoperability to interface with the Colorado benefits management
6 system (CBMS) and other human services technology systems used to
7 process and approve applications for essential programs like SNAP,
8 medicaid, and Colorado works;

9 (b) Work management systems are tools that help county offices
10 triage and manage caseloads, which allows for more time to provide
11 critical services;

12 (c) Currently, work management systems are not standardized
13 across the state, with many rural and frontier counties lacking access to
14 fully optimized tools to better manage workload; and

15 (d) Investing in a universal high-quality work management system
16 will reduce administrative costs and streamline the application process for
17 programs like SNAP, medicaid, and Colorado works; and allow for better
18 case management and improved access to program services that help
19 low-income households purchase healthy food, pay for medical expenses,
20 and achieve economic stability.

21 (3) (a) The general assembly further declares that the federal
22 government enacted the "American Rescue Plan Act of 2021", Pub.L.
23 117-2, as amended, to help state, local, and tribal governments respond
24 to the impact and effects of the COVID-19 public health emergency on
25 their communities, residents, and businesses. Under the federal act, the
26 state of Colorado has received over three billion dollars to be used for the
27 purposes identified in the federal act.

1 (b) The general assembly further determines that establishing a
2 community food program, a high-quality work management system, and
3 a database connection to issue payments to recipients' electronic benefits
4 transfer cards, as funded by this act, are appropriate uses of the money
5 transferred to Colorado under the federal act and constitute critical
6 government services.

7 **SECTION 2.** In Colorado Revised Statutes, **add** 26-2-141 as
8 follows:

9 **26-2-141. High-quality work management system -**
