SENATE
Amended 2nd Reading
April 1, 2022

The bill requires the general assembly to appropriate from the behavioral and mental health cash fund:

- \$4.6 million to CoPPCAP;
- \$5 million to the behavioral health care professional matching grant program to expand access to behavioral health-care services for children and families; and
- \$1.5 million to the school-based health center grant program.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds that:

4 (a) During the COVID-19 pandemic, children have been faced
5 with unprecedented challenges, including how they attend school, interact
6 with friends, and receive health care;

7 (b) During this unprecedented time, children and their families
8 may have lost access to behavioral and mental health care, social services,
9 income, food, or housing;

10 (c) Since the COVID-19 pandemic began, rates of psychological
11 distress among young people have increased, including symptoms of
12 anxiety, depression, and other behavioral and mental health disorders;

13 (d) The Colorado pediatric psychiatry consultation and access
14 program (CoPPCAP) will provide peer-to-peer consultations, education,
15 and support to pediatric primary care providers in order to identify and
16 treat mild to moderate behavioral health concerns presenting in primary
17 care;

18 (e) The behavioral health care professional matching grant
19 program provides funding to education providers to increase the presence
20 of school health professionals to provide behavioral health care to
21 students who have mental health, substance use or misuse, or other

1 behavioral health needs;

2 (f) The school-based health center grant program provides access
3 to school-based primary health care for children and adolescents, serving
4 primarily low-income schools. The majority of students who attend
5 schools with on-site health centers are from low-income families, are
6 medically uninsured or underinsured, and qualify for free or reduced-cost
7 school lunch pursuant to the federal "Richard B. Russell National School
8 Lunch Act", 42 U.S.C. sec. 1751 et seq.

9 (g) The federal government enacted the "American Rescue Plan
10 Act of 2021", Pub.L. 117-2, to provide support to state, local, and tribal
11 governments in responding to the impacts of the COVID-19 pandemic;
12 and

13 (h) Regulations construing the federal act promulgated by the
14 United States treasury identify a nonexclusive list of uses for the
15 COVID-19 pandemic and its negative public health impacts.

16 (2)(a) Therefore, the general assembly declares that children have
17 been disproportionately impacted by the COVID-19 pandemic and its
18 negative public health impacts during this public health emergency. The
19 programs and services described in this legislative declaration are
20 appropriate uses of the money transferred to Colorado under the federal
21 act. This money will expand access to evidence-based treatment for
22 behavioral health services that CoPPCAP, the school-based health center
23 grant program, and the behavioral health care professional matching grant
24 program provide to children and families.

25 (b) The general assembly further declares that CoPPCAP, the
26 behavioral health care professional matching grant program, and the
27 school-based health center grant program are important government

1 services.
