definition of "issue" with respect to an order, permit, determination, or notice issued by the division, to remove certified mail and add electronic mail as options to issue such order, permit, determination, or notice.

**Section 5** clarifies that the statutory fee caps for fees collected by the air quality enterprise apply only to the annual stationary source emission fees. The statutory fee caps are \$1 million for state fiscal year 2021-22, \$3 million for state fiscal year 2022-23, \$4 million for state fiscal year 2023-24, and \$5 million on and after July 1, 2024.

**Section 6** removes the requirement that the division make the forms on which a person provides details necessary for filing an air pollution emission notice available at all of the air pollution control authority offices.

**Section 7** extends the time within which the commission must grant or deny a request for a hearing from within 15 days after the request was made to within 30 days after the request was made.

Existing law authorizes the commission to submit any additions or changes to the state implementation plan (SIP) to the administrator of the federal environmental protection agency (administrator) for conditional or temporary approval pending legislative council review of the additions or changes. **Section 8** authorizes the commission to submit the changes or additions to the administrator as a provisional submission, pending possible introduction and enactment of a bill to modify or delete all or a portion of the commission's additions or changes to the SIP.
