providers, community-based organizations, and nonprofit organizations to fund programs and strategies that prevent people with behavioral health needs from becoming involved with the criminal justice system or that redirect individuals in the criminal justice system with behavioral health needs from the system to appropriate services. Local law enforcement agencies are eligible for a grant only for the purpose of developing or expanding a co-responder community response program.

The BHA administers the grant program in consultation with the department of public safety. Each grant recipient must report to the BHA information about the use of the grant. The bill requires the general assembly to appropriate \$51.5 million from the behavioral and mental health cash fund to the department of human services for the grant program.

The bill requires the general assembly to appropriate \$3 million from the behavioral and mental health cash fund to the department of corrections (department) to provide medication-assisted treatment to individuals who are placed in the custody of the department. The department shall use the money for upgrades necessary to store medications at department facilities, for providing continuity of care for inmates with opioid use disorder between institutional settings and community-based treatment, and for facilitating long-term treatment and recovery of individuals upon release.

The bill requires the general assembly to appropriate \$4 million from the behavioral and mental health cash fund to the judicial department for allocation to district attorneys for pretrial diversion programs.

The bill creates the behavioral health information and data sharing program to award grants to counties to integrate the county jails' data systems with the Colorado integrated criminal justice information system. The division of criminal justice (division) within the department of public safety administers the program. The division is required to enter into an agreement with a third-party vendor to oversee the implementation of any data-sharing systems or software necessary for the program. The bill requires the general assembly to appropriate \$3.5 million from the behavioral and mental health cash fund for the program.

The bill requires the state department of health care policy and financing (HCPF) to evaluate and determine whether the state should seek additional federal authority to provide screening, brief intervention, and care coordination services through the medical assistance program to persons immediately prior to release from jail or a department of corrections facility and to improve processes for determining and redetermining individuals for medical assistance eligibility. If HCPF determines that the state should request federal authority, HCPF must make the request. If HCPF determines that the state should not request

federal authority, HCPF must submit a report to the joint budget committee of the general assembly that includes an alternate plan to ensure continuity of care for individuals being released from jail or prison.

The bill requires HCPF to determine whether federal authority is necessary to provide benefit coverage under the medical assistance program to people who are on work release from jail.

The bill requires each county jail to report quarterly about the number of inmates whose medicaid is suspended while incarcerated and the number of incarcerated inmates who are enrolled in, or whose medicaid is reinstated, prior to release. The bill requires a county jail to provide medicaid enrollment or re-enrollment paperwork to a person who is incarcerated in the jail and is eligible for medicaid benefits when the person enters the county jail.

The bill requires an administrator of a community corrections program to partner with a county department of human or social services to facilitate enrolling each offender participating in the program into medicaid.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) In Colorado, a person with serious mental illness is more likely
5 to be in jail than in a care facility, resulting in jails and prisons acting as
6 the biggest providers of mental health care in our state;

7 (b) People with the most serious mental illnesses often cycle in
8 and out of short-term crisis hospital care and jail, exacerbating their
9 mental health challenges;

10 (c) Cycling in and out of short-term care and jail is more
11 expensive than preventive harm reduction and public safety investments
12 that keep people healthy and in their communities; and

13 (d) Diversion away from the criminal justice system begins with
14 robust community resources.

1 (2) The general assembly further finds and declares that:

2 (a) The federal government enacted the "American Rescue Plan
3 Act of 2021" (ARPA), Pub.L. 117-2, pursuant to which Colorado
4 received \$3,828,761,790 to mitigate the fiscal effects stemming from the
5 COVID-19 public health emergency;

6 (b) Government recipients of ARPA funds may use the funds to
7 provide resources for governments to meet the public health and
8 economic needs of those impacted by the pandemic in their communities.
9 Pursuant to ARPA and related federal regulations, when providing
10 behavioral health services, government recipients may presume that the
11 general public was impacted by the pandemic, and they can therefore use
12 ARPA funds to provide a broad range of behavioral health services to the
13 public.

14 (c) The expenditures in this act for behavioral health programs
15 and services, including behavioral health facilities and equipment, is
16 considered an allowable use under ARPA and is necessary to respond to
17 the COVID-19 public health emergency; and

18 (d) The behavioral health-care services and programs and funding
19 described in this act are important government services.
