graduation from a school of dental therapy or a dental therapy program that meets the requirements of the bill, and proof of completion of the examinations required for licensure as a dental hygienist.

A dental therapist is allowed to practice only under the direct supervision of a licensed dentist until the dental therapist practices for 1,000 hours.

After reaching 1,000 hours, the dental therapist may practice under the indirect supervision of a licensed dentist pursuant to a written articulated plan. The articulated plan must include:

- Methods of dentist supervision, consultation, and approval;
- Protocols for informed consent, record keeping, quality assurance, and dispensing or administering medications;
- Policies for handling referrals when a patient needs services the dental therapist is not authorized or qualified to provide;
- Policies for handling medical emergencies; and
- Policies for supervising dental assistants and working with dental hygienists and other dental practitioners and staff.

A licensed dental therapist must maintain professional liability insurance in an amount not less than \$500,000 per incident and \$1.5 million annual aggregate per year; except that this requirement is not applicable to a dental therapist who is a public employee under the "Colorado Governmental Immunity Act".

A state institution of higher education offering an accredited dental therapy training program may grant advanced standing toward completion of an accredited dental therapy program if a student meets the conditions specified in the bill.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 hereby finds and declares that:

4 (a) Access to affordable, quality, and equitable dental care and to
5 dental providers has been demonstrated to have a positive impact on
6 people's overall health outcomes and overall well-being;

7 (b) Although great strides have been made toward increasing
8 access to affordable dental care, not enough has been accomplished to
9 address oral-health-access issues across Colorado, particularly in the
10 state's rural areas, and for Coloradans who have historically and

1 systematically faced barriers to health care, including people of color and
2 Coloradans with low incomes;

3 (c) According to the "Colorado Health Access Survey" (survey)
4 by the Colorado Health Institute, roughly one in five Coloradans report
5 poor oral health;

6 (d) In the survey, 400,000 Coloradans said that at some point in
7 the past year, they were unable to participate in regular daily activities
8 like school or work due to dental pain;

9 (e) Fifty-three of Colorado's 64 counties are designated as dental
10 professional shortage areas, with five counties without a single licensed
11 dentist;

12 (f) Dentist participation in Medicaid sits at 59.9%, but in 2018,
13 only 28% of Colorado dentists served any Medicaid-enrolled patients;

14 (g) Adults in rural areas have almost twice the prevalence of tooth
15 loss when compared to urban adults;

16 (h) By kindergarten, 40% of children in Colorado already have
17 dental decay, and this rate increases for children living in low-income
18 communities. Dental health issues continue to be a leading cause of
19 school absenteeism for Colorado's kids.

20 (i) Research has shown that dental therapists practicing in other
21 states provide safe and high-quality care, assist in improving access to
22 dental care, and experience high patient acceptability;

23 (j) A long-term study of dental therapists in the country found that
24 dental therapists are improving access to care, resulting in both adults and
25 children getting more preventive care and keeping their natural teeth; and

26 (k) In order to ensure dental care is accessible for all Coloradans,
27 it is critical that the state establish a license for dental therapists to help

1 close the historic gaps and barriers that Coloradans face in accessing
2 dental care.

3 **SECTION 2.** In Colorado Revised Statutes, **amend** 12-220-102
4 as follows:

5 **12-220-102. Legislative declaration.** The practice of dentistry,
6 DENTAL THERAPY, and dental hygiene in this state is declared to affect the
7 public health, safety, and welfare and to be subject to regulation and
8 control in the public interest. It is further declared to be a matter of public
9 interest and concern that the dental profession merit and receive the
10 confidence of the public and that only qualified dentists, DENTAL
11 THERAPISTS, and dental hygienists be permitted to practice dentistry,
12 DENTAL THERAPY, or dental hygiene in this state. It is the purpose of this
13 article 220 to promote the public health, safety, and welfare by regulating
14 the practice of dentistry, DENTAL THERAPY, and dental hygiene and to
15 ensure that no one ~~shall practice~~ PRACTICES dentistry, DENTAL THERAPY,
16 or dental hygiene without qualifying under this article 220. The
17 provisions of this article 220 relating to licensure by credentials are not
18 intended to reduce competition or restrain trade with respect to the oral
19 health needs of the public. All provisions of this article 220 relating to the
20 practice of dentistry, DENTAL THERAPY, and dental hygiene shall be
21 liberally construed to carry out these objects and purposes.
