Current Appropriations Clause in Bill

The bill includes an appropriation clause that appropriates \$156,743 General Fund to the Department of Revenue for FY 2022-23, of which \$1,032 is reappropriated to the Department of Personnel. This provision also states that the appropriation is based on the assumption that the Department of Revenue will require an additional 2.0 FTE.

Points to Consider*General Fund Impact*

The Joint Budget Committee has proposed a budget package for FY 2022-23 based on the March 2022 Legislative Council Staff revenue forecast. The budget package includes two set-asides:

- \$40.0 million General Fund for bills that create ongoing obligations; and
- \$900.0 million General Fund for bills that create one-time obligations in FY 2022-23.

The \$40.0 million *appropriations* set-aside includes an additional \$6.0 million General Fund to provide a 15.0 percent General Fund reserve for those appropriations. The \$900.0 million *obligations* set-aside does not include an additional amount for a General Fund reserve and, assumes, but does not require, that obligations be addressed through statutory transfers rather than appropriations. Therefore *appropriations* from the \$900.0 million set-aside require an additional 15.0 percent to maintain the statutory General Fund reserve.

This bill creates an ongoing obligation and requires a General Fund appropriation of \$156,743 for FY 2022-23, reducing the \$40.0 million set aside by the same amount.

TABOR/ Excess State Revenues Impact

The March 2022 Legislative Council Staff (LCS) revenue forecast projects a TABOR surplus liability of \$1.6 billion for FY 2022-23 and \$622.6 million for FY 2023-24. These sums must be refunded to taxpayers out of the General Fund. This bill is estimated to decrease General Fund revenues by \$6.2 million in FY 2021-22, by \$12.9 million in FY 2022-23 and by \$13.7 million in FY 2023-24, which will result in a decrease in the TABOR surplus liability of an equal amount.
