## Summary of Legislation

The bill establishes contribution limits and disclosure requirements for school district director candidates. These contribution limits must be periodically adjusted for inflation, consistent with other contribution limits. The maximum aggregate contributions that a candidate or candidate committee for a school board can accept for a regular biennial school election or special school election are as follows:

- \$2,500 from any individual other than a small donor committee; and
- \$25,000 from a small donor committee.

The bill also subjects these contributions to existing statutory provisions governing campaign contribution disclosure, and establishes certain reporting guidelines.

## State Expenditures

In FY 2022-23, this bill increases state expenditures in the Department of State by \$7,500 from the Department of State Cash Fund.

**IT system modification.** The department will be required to make changes to the TRACER system, which tracks campaign finance contributions for all candidates and committees required to report to the state. The department will engage its IT contractor, Civix, to make these system modifications at a cost of about \$7,500 in FY 2022-23.

**Education and outreach.** The Department of State will take part in education and outreach in advance of the November 2023 election to inform candidates that the contribution limits are in effect upon passage of this bill, and ensure that filings are made once the TRACER modifications are complete. On an ongoing basis, workload will increase to monitor candidate filings and address any complaints filed. This increased workload can be accomplished within existing resources.

## Effective Date

The bill was signed into law by the Governor on April 13, 2022, and it took effect on July 1, 2022. It applies to the portion of any election cycle or calendar year remaining, and any subsequent election cycle or calendar year commencing, after this effective date.
