## Summary of Legislation

The bill establishes a new adoption process, in instances when a child is conceived as a result of assisted reproduction, for a person who did not give birth but is a parent or presumed parent of the child. In these instances, both parents must join the adoption as petitioners.

## State Expenditures

Starting in FY 2022-23, the bill will have a minimal but indeterminate impact on expenditures for the trial courts in the Judicial Department. Trial courts may see cost savings from cases that fit the adoption criteria established by this bill and the case is heard in a more streamlined manner. The bill may also lead to additional filings for formal adoption that would not have been pursued otherwise. The fiscal note assumes that any associated increase in workload from additional filings is absorbable within existing appropriations.

## Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
