**Current Appropriations Clause in Bill**

The bill includes a provision that appropriates a total of \$112,668 General Fund to the Department of Health Care Policy and Financing for FY 2022-23. This provision also states that the appropriation is based on the assumption that the Department will require an additional 1.0 FTE and the Department will receive \$112,668 federal funds to implement the act.

**Points to Consider***General Fund Impact*

The Joint Budget Committee has proposed a budget package for FY 2022-23 based on the March 2022 Legislative Council Staff revenue forecast. The budget package includes two set-asides:

- \$40.0 million General Fund for bills that create ongoing obligations; and
- \$900.0 million General Fund for bills that create one-time obligations in FY 2022-23.

The \$40.0 million *appropriations* set-aside includes an additional \$6.0 million General Fund to provide a 15.0 percent General Fund reserve for those appropriations. The \$900.0 million *obligations* set-aside does not include an additional amount for a General Fund reserve and, assumes, but does not require, that obligations be addressed through statutory transfers rather than appropriations. Therefore *appropriations* from the \$900.0 million set-aside require an additional 15.0 percent to maintain the statutory General Fund reserve.

This bill creates an ongoing obligation and requires a General Fund appropriation of \$112,668 for FY 2022-23, reducing the \$40.0 million set aside by the same amount.
