Amended 2nd Reading

Current law requires the office of legislative legal services to have suitable office space in the state capitol building. The bill modifies this requirement by allowing the office space for the office of legislative legal services to be in the state capitol complex and within one-quarter mile of the state capitol building.

For every appropriation from the general fund, the capital construction fund, or the controlled maintenance trust fund in the capital construction section of the annual general appropriation act, the general assembly is currently required to provide funding for annual depreciation-lease equivalent payments. The bill requires the general assembly to also provide funding for annual depreciation-lease equivalent payments for appropriations from the revenue loss restoration cash fund in the capital construction section of the annual general appropriation act. In addition, for the 2023-24 fiscal year through the 2028-29 fiscal year, the bill requires the state controller to transfer the money for the annual depreciation-lease equivalent payments for the applicable fiscal year on July 1 rather than on June 30.

Current law allows the state treasurer, upon the request of the capital development committee, to make a transfer from the general fund to the capitol complex master plan implementation fund in an amount equal to \$20 million less the amount transferred to the national western center trust fund. On July 1, 2023, and each July 1 thereafter through July 1, 2028, the bill requires the state treasurer to transfer the amount transferred to the capitol complex master plan implementation fund to the capitol complex renovation fund.

Current law specifies that the legislative department has control of and is responsible for supervising the maintenance of legislative spaces in certain buildings in the capitol complex and the grounds adjacent to the capitol building. These legislative spaces currently include 2 floors of the capitol building annex at 1375 Sherman street. The bill repeals the specific designation of 2 floors in the capitol building annex as legislative space and requires the executive committee of the legislative council, the director of the division of capital assets, the secretary of the senate, the chief clerk of the house of representatives, the director of the office of legislative legal services, the director of research of the legislative council, and the state auditor to determine, prior to the beginning of the 2025 legislative session, which areas in the capitol building annex are legislative space.

In addition, the bill requires the general assembly to vacate the legislative space at the state office building at 1525 Sherman street within one year after the completion of the renovation of the capitol building annex at 1375 Sherman street and specifies that thereafter, such space in the office building at 1525 Sherman street will be executive space.
