2 **SECTION 1. Legislative declaration.** (1) The general assembly  
3 finds and declares that:

4 (a) Access to high-quality, evidence-informed science instruction  
5 means that students will develop an in-depth understanding of content,  
6 develop key skills, and be prepared to fill the workforce needs of the  
7 state;

8 (b) In 2018, the Colorado state board of education adopted the  
9 Next Generation Science Standards, a set of research-based academic  
10 standards designed to give local educators flexibility while holding  
11 students to higher performance expectations in science;

12 (c) The COVID-19 pandemic disrupted Colorado public schools'  
13 ability to measure student progress in science and implement supports for  
14 the transition to the Next Generation Science Standards;

15 (d) State assessment results in 2023 showed low proficiency in  
16 science among students in fifth, eighth, and eleventh grades;

17 (e) Educators are the most important in-school support for  
18 improving student outcomes in science; and

19 (f) All teachers, regardless of their duration of time in the  
20 classroom, deserve access to high-quality professional development  
21 opportunities that align with the Next Generation Science Standards.

22 (2) The general assembly finds, therefore, that action is required  
23 to better equip educators to deliver high-quality, evidence-informed  
24 science instruction.
