## Summary of Legislation

The bill updates the Perfluoroalkyl and Polyfluoroalkyl (PFAS) Chemicals Consumer Protection Act and other requirements enacted by [House Bill 22-1345](#). Current law establishes a phase-out timeline for the sale of products that include added PFAS. The bill moves some phase-out deadlines forward and adds additional products to the phase-out, including certain outdoor wear, cookware, and artificial turf.

## Background

PFAS chemicals are synthetic chemicals that were developed to coat products to make them resistant to heat, water, and oil. They are prevalent in a variety of products including nonstick cookware, water-repellant clothing, stain-resistant fabrics, and firefighting foams. PFAS break down very slowly in the environment, and current scientific research suggests that exposure may lead to adverse health outcomes. More information about PFAS can be on the [U.S. Environmental Protection Agency website](#).

## Assessment of No Fiscal Impact

The updated phase-out schedule does not drive regulatory activities in any state agency. For this reason, the bill is assessed as having no fiscal impact.

**Effective Date**

This bill was signed into law by the Governor and took effect on May 1, 2024.
