*The mission of the Office of the State Auditor
is to improve government for the people of Colorado.*

December 13, 2013

Members of the Legislative Audit Committee:

This report contains the results of the financial audit of the *Schedule of Computations Required Under Article X, Section 20, of the State Constitution (TABOR)* as of June 30, 2013, and the *Schedule of TABOR Revenue* as of June 30, 2013. The audit was conducted under the authority of Section 24-77-106.5, C.R.S., which requires the State Auditor to conduct an audit of the *Schedule of Computations Required Under Article X, Section 20, of the State Constitution (TABOR)*.

Commencing in Fiscal Year 2011, the State is allowed to retain and spend the amount of revenue in excess of the TABOR Revenue Limit and up to the "Excess State Revenues Cap." The Excess State Revenues Cap is defined as the highest total state TABOR revenue earned between Fiscal Years 2006 and 2010, adjusted for inflation and population growth for each subsequent year, the qualification/disqualification of enterprises, and debt service changes. Calculation of the Fiscal Year TABOR Revenue Limit continues to apply, but the new Excess State Revenues Cap replaces it as the limit that triggers taxpayer refunds. The audited figures for TABOR revenue, TABOR Revenue Limit, TABOR Excess State Revenues Cap, and Revenue Under the Excess State Revenues Cap for Fiscal Year 2013 are as follows:

Fiscal Year 2013 TABOR Revenue		\$ 11,107,340,893
(Less): Fiscal Year 2013 TABOR Revenue Limit	\$(9,247,466,372)	
(Less): Fiscal Year 2013 Excess of TABOR Revenue Limit Allowed to Retain and Spend	<u>\$(2,212,775,377)</u>	
Total Fiscal Year 2013 Excess State Revenues Cap		<u>(11,460,241,749)</u>
Fiscal Year 2013 Revenue (Under) Over the Excess State Revenues Cap		<u>\$ (352,900,856)</u>

We Set the Standard for Good Government

TABOR Revenue

Authority, Purpose, and Scope

This audit was conducted under the authority of Section 24-77-106.5, C.R.S., which requires that the State Auditor conduct an audit of the *Schedule of Computations Required Under Article X, Section 20, of the State Constitution (TABOR)*. The audit was conducted in accordance with generally accepted auditing standards. We performed our audit work during the period July 2013 through December 2013.

The purpose and scope of the audit were to:

- Express an opinion on the *Schedule of Computations Required Under Article X, Section 20, of the State Constitution (TABOR)* as of June 30, 2013.
- Evaluate compliance with regulatory provisions.

We issued an unqualified opinion on the *Schedule of Computations Required Under Article X, Section 20, of the State Constitution (TABOR)*. In addition, we noted no instances of noncompliance for the fiscal year ended June 30, 2013.

Description and Background

The Taxpayer's Bill of Rights (TABOR) was added as Article X, Section 20 of the Colorado Constitution in the November 1992 general election. TABOR limits increases in the State's revenue to the annual inflation rate plus the percentage change in Colorado's population. The State Controller annually prepares a *Schedule of Computations Required Under Article X, Section 20 of the State Constitution* and the *Schedule of TABOR Revenue* (collectively called the TABOR financial report). The *Schedule of TABOR Revenue* is audited as a performance audit, and the *Schedule of Computations Required Under Article X, Section 20 of the State Constitution* is audited as part of the annual statewide financial audit.

Fiscal Year 2013 TABOR Revenue

For Fiscal Year 2013, TABOR revenue was \$11,107,340,893. The Office of the State Controller (OSC) recorded adjustments that decreased Fiscal Year 2013 TABOR revenue by \$2,207,628. The TABOR Revenue Limit did not change as a result of these adjustments. These adjustments came to our attention subsequent to the issuance of the Schedule of TABOR Revenue audit for the fiscal year ended June 30, 2013, dated September 16, 2013. These adjustments decreased TABOR revenue for Fiscal Year 2013 from \$11,109,548,521 to \$11,107,340,893, and the Excess State Revenues Cap remained at \$11,460,241,749.

Commencing in Fiscal Year 2011, the State is allowed to retain and spend the amount of revenue in excess of the TABOR Revenue Limit and up to the “Excess State Revenues Cap.” The “Excess State Revenues Cap” is defined as the highest total state TABOR revenue earned between Fiscal Years 2006 and 2010, adjusted for inflation and population growth for each subsequent year, the qualification and disqualification of enterprises, and debt service changes.

Calculation of the Fiscal Year TABOR Revenue Limit continues to apply, but the new Excess State Revenues Cap replaces it as the limit that triggers taxpayer refunds. The following audited figures show the TABOR revenue, TABOR Revenue Limit, TABOR Excess State Revenues Cap, and Revenue Under the Excess State Revenues Cap for Fiscal Year 2013:

Fiscal Year 2013 TABOR Revenue		\$11,107,340,893
(Less): Fiscal Year 2013 TABOR Revenue Limit	\$(9,247,466,372)	
(Less): Fiscal Year 2013 Excess of the TABOR Revenue Limit Allowed to Retain and Spend	\$(2,212,775,377)	
Total Fiscal Year 2013 Excess State Revenues Cap		(11,460,241,749)
Fiscal Year 2013 Revenue (Under) Over Excess State Revenues Cap		\$ (352,900,856)

Fiscal Year 2013 TABOR revenues were under the Excess State Revenues Cap by approximately \$353 million. Therefore, there is no TABOR refund required for Fiscal Year 2013.

Prior Year Refunds

Article X, Section 20(7)(d) of the State Constitution states that, “...if revenue from sources not excluded from fiscal year spending exceeds these limits in dollars for that fiscal year, the excess shall be refunded in the next fiscal year unless voters approve a revenue change as an offset.” The State is not limited to refunding

solely from general funds or ratably from those revenue sources in excess of the limit. Article X, Section 20(1) also states, "...districts may use any reasonable method for refunds under this section, including temporary tax credits or rate reductions. Refunds need not be proportional when prior payments are impractical to identify or return."

Prior to the enactment of Senate Bill 10-212, excess revenue was refunded to the taxpayers through a variety of means. With the enactment of Senate Bill 10-212, three mechanisms for refunding state surplus revenues, including one with a threshold amount - the Earned Income Tax Credit - remain. The other two refunding mechanisms in place are the Temporary State Income Tax Rate Reduction and the State Sales Tax Refund. Based on current law, the mechanism used to refund surplus revenues will depend on the amount of the revenues to be refunded. Appendices B1 and B2 provide more detail regarding refunding mechanisms.

Revenue Reductions

There were no permanent tax cuts enacted during the 2013 Legislative Session.

In prior years, voters have approved changes that lower revenue subject to TABOR. The table on the following page shows all voter-approved changes, the year of voter approval, and the related decrease in Fiscal Years 2013 and 2012 TABOR revenue:

Impact of Voter-Approved Revenue Changes on TABOR Revenue		
Constitutional Amendment (Year of Approval)	Decrease in TABOR Revenue	
	Fiscal Year 2013	Fiscal Year 2012
Amendment 23 (2000) Creates the State Education Fund, which receives all state revenue collected from a tax of 1/3 of 1 percent of federal taxable income as follows:		
Individual income taxes	\$445,704,000	\$378,082,178
Corporate income taxes	38,852,000	33,937,797
Fiduciary income taxes	<u>1,782,000</u>	<u>1,466,327</u>
Total for Amendment 23	\$486,338,000	\$413,486,302
Amendment 14 (1998) Assesses a fee on housed commercial swine feeding operations.	\$273,073	\$276,257
Amendment 20 (2000) Assesses an application fee to obtain a Medical Marijuana identification card.	\$3,776,829	\$6,256,274
Amendment 35 (2004) Assesses a statewide tax on cigarette and tobacco products.	\$143,422,695	\$147,207,790
Amendment 50 (2008) Assesses a tax on extended limited gaming.	\$9,591,704	\$9,401,325
Total Reductions in TABOR Revenue	\$643,402,301	\$576,627,948
Source: Office of the State Auditor's analysis of the Office of the State Controller's data. Amounts do not include transfers, interest, or unrealized gains and losses.		

Adjustments to Refunds

Article X, Section 20(7)(a) of the State Constitution requires the TABOR Revenue Limit to be the lesser of the prior fiscal year's actual revenue or the

prior fiscal year's TABOR Revenue Limit adjusted for inflation and the change in population.

Section 24-77-103.7(4), C.R.S. requires that in Fiscal Year 2006 and future years, TABOR revenue in excess of the TABOR Revenue Limit be reduced by any amounts overrefunded in the prior year. Any unused amount is to be carried forward and decrease future refund liabilities until the excess is depleted. During our Fiscal Year 2013 audit, no overrefund was identified in the previous Fiscal Years 2006 through 2012 that would affect the TABOR revenue in excess of the Excess State Revenues Cap for Fiscal Year 2013.

In Fiscal Year 2006, the Office of the State Controller identified and posted prior year adjustments totaling \$2,871,444 that increased the Fiscal Year 2005 TABOR refund liability. In Fiscal Year 2008, \$28,223 in adjustments was identified that increased the Fiscal Year 2005 TABOR refund liability. In Fiscal Year 2013, there were no adjustments identified that impact prior years' TABOR refund liability. Section 24-77-103.8(3), C.R.S., states that "any amount of state revenues in excess of the limitation on state fiscal year spending for the 2001-02 fiscal year and for every fiscal year thereafter that voters statewide did not authorize the state to retain and spend and that are required to be refunded pursuant to section 20(7)(d) of article X of the state constitution, but that are not refunded by the state as required... shall be added to and refunded with subsequent fiscal years' state revenues in excess of the limitation on state fiscal year spending that are required to be refunded..." As a result, \$2,899,667 is being carried forward to the next refund year and will be paid out at that time.

Referendum C

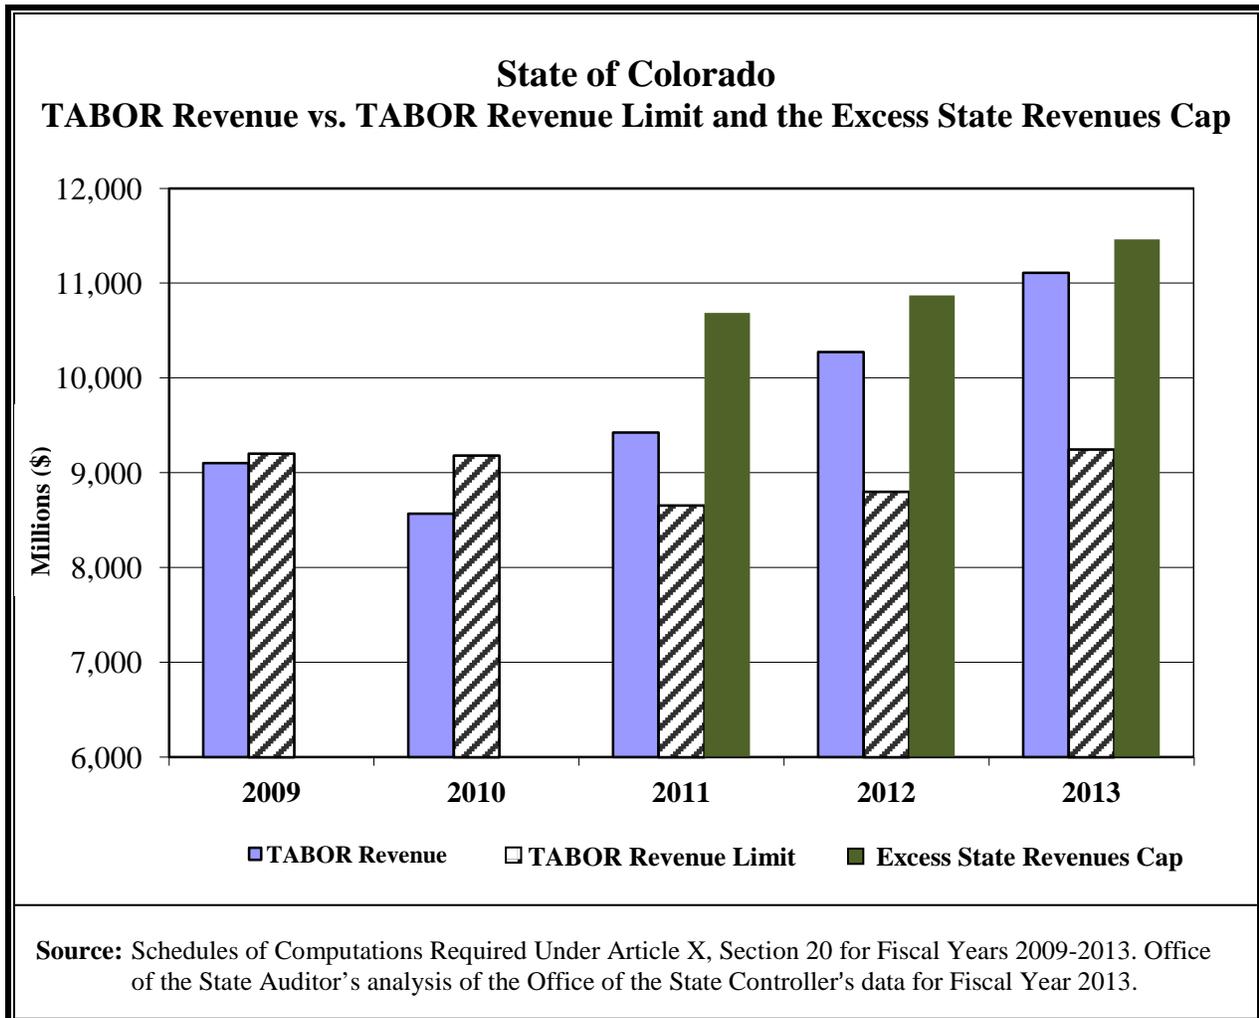

During Fiscal Year 2005, the General Assembly enacted House Bill 05-1194, which was the enabling legislation for Referendum C. In November 2005, Referendum C was approved by a vote of the people and became effective as of July 1, 2005. Referendum C allowed the State to retain and expend all revenue in excess of the constitutional limit on fiscal year spending for each of the five fiscal years commencing with Fiscal Year 2006, and changed the basis on which TABOR refunds are calculated.

For Fiscal Years 2006, 2007, and 2008, the amounts of excess revenue that the State was allowed to retain and spend were \$1,116,134,410, \$1,308,040,131, and \$1,169,428,121, respectively; for a 3-year total of \$3,593,602,662. The funds retained by the State were to be applied toward education; healthcare; roads, bridges, and other strategic transportation projects; and retirement plans for firefighters and police officers.

TABOR Revenue Limit and Excess State Revenues Cap

We reviewed the State Controller's computations of the TABOR Revenue Limit and the Excess State Revenues Cap. For Fiscal Year 2013, the TABOR Revenue Limit is \$9,247,466,372 and the Excess State Revenues Cap is \$11,460,241,749.

The chart on the following page compares the TABOR Revenue Limit computed each year to the TABOR revenue from Fiscal Year 2009 to Fiscal Year 2013. As of Fiscal Year 2011, both the TABOR Revenue Limit and the Excess State Revenues Cap will be calculated independently. However, the State will be allowed to retain and spend the amount of revenue in excess of the TABOR Revenue Limit and up to the Excess State Revenues Cap as set forth in Referendum C.

Sources of TABOR Revenue

There are two types of revenue subject to the growth limitations set forth in TABOR — general funds and cash funds. General funds primarily include revenue from the general taxing authority of the State, such as individual and corporate income taxes. Cash funds generally include revenue from fees and other sources that are to be used for specific programs, such as education service fees and fuel/transportation taxes. General funds increased by 10.6 percent in Fiscal Year 2013, while cash funds increased by 0.5 percent in Fiscal Year 2013. Overall, TABOR revenue increased by 8.1 percent in Fiscal Year 2013.

The following tables show the major sources of revenue in Fiscal Year 2013, with comparative figures for Fiscal Year 2012, separated by general-funded and cash-funded revenue. The *Schedule of TABOR Revenue* on page 19 combines the general-funded and cash-funded revenue presented on pages 8 and 9, respectively.

December 13, 2013

Independent Auditor's Report

Members of the Legislative Audit Committee:

Report on the Schedule

We have audited the accompanying *Schedule of Computations Required Under Article X, Section 20, of the State Constitution (TABOR)* (Schedule), as of June 30, 2013, and the related notes.

Management's Responsibility for the Schedule

Office of the State Controller is responsible for the preparation and fair presentation of this Schedule in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedule that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Schedule based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedule. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Schedule.

We Set the Standard for Good Government

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the *Schedule of Computations Required Under Article X, Section 20, of the State Constitution (TABOR)* referred to above presents fairly, in all material respects, the revenues, expenditures, changes in reserves, and spending limitation as determined under Article X, Section 20, of the State Constitution for the year ended June 30, 2013, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the State of Colorado for the year ended June 30, 2013, and our report thereon dated December 13 2013, expressed an unmodified opinion on those financial statements.

Report on Other Legal and Regulatory Requirements

Our auditing procedures also included reconciling amounts contained in this Schedule to the State's *Comprehensive Annual Financial Report* for the year ended June 30, 2013, and testing for irreconcilable conflicts between the State's financial statements and the provisions of TABOR. Additional procedures consisted of evaluating the State of Colorado's compliance with constitutional and statutory provisions of TABOR. Our audit does not provide a legal determination of the State's compliance with specified requirements.

The accompanying Schedule was prepared by the Office of the State Controller pursuant to Section 24-77-106.5, C.R.S., which requires a financial report ascertaining compliance with state fiscal policies relating to Article X, Section 20, of the State Constitution. Article 77 further requires a financial report to be prepared in conformity with generally accepted accounting principles unless an irreconcilable conflict exists between generally accepted accounting principles and TABOR, in which case the provisions of said constitutional provision shall control.

STATE OF COLORADO

NOTES TO THE TABOR SCHEDULE OF REQUIRED COMPUTATIONS

NOTE 1. PURPOSE OF THE SCHEDULE OF REQUIRED COMPUTATIONS

The purpose of the Schedule of Required Computations is to determine and document compliance with Title 24 Article 77 of the Colorado Revised Statutes, which is the implementing statute for Article X Section 20 of the State Constitution (TABOR). The report is required to include at a minimum State fiscal year spending, reserves, revenues, and debt. The schedule also includes a calculation of the limit on fiscal year spending, a calculation of the excess State revenues cap under Referendum C (See Note 9), and the amount required to be refunded or the amount of excess revenue retained by law, as well as all related adjustments.

TABOR has many provisions including a requirement for a vote of the people for new taxes or tax rate increases and a limit on the amount of fiscal year spending. Fiscal year spending is defined as District expenditures and reserve increases except those expended from exempt sources, such as, gifts, federal funds, damage awards, property sales, reserves, and other items. This definition, while focused on spending is essentially a limitation on revenue retention because reserve increases are unspent revenues. Therefore, the terms fiscal year spending and nonexempt revenue are used interchangeably throughout these notes.

The limit on revenue retention is based on an allowable growth percentage (See Note 12) applied to the lesser of the prior year's revenues or the prior year's limit. Revenues in excess of the limit are required to be refunded to taxpayers unless voters approve retention of the excess. In the 2005 general election, voters approved Referendum C, which allowed the State to retain revenues in excess of the limit for a five-year period. Beginning in Fiscal Year

2010-11, under Referendum C provisions, revenues are refunded only when they exceed the excess State revenues cap (See Note 9).

NOTE 2. BASIS OF ACCOUNTING

Pursuant to Article 77 of Title 24, Colorado Revised Statutes, this report is prepared in accordance with generally accepted accounting principles (GAAP) for governmental entities except where an irreconcilable difference exists between GAAP, and State statute or the provisions of Article X Section 20 of the State Constitution (TABOR).

The accounting principles used by the State are more fully described in the State's Comprehensive Annual Financial Report available from the Office of the State Controller.

NOTE 3. DEFINITION OF THE DISTRICT

TABOR defines the District as "the State or any local government, excluding enterprises." It further defines enterprise as "a government-owned business authorized to issue its own revenue bonds and receiving under 10 percent of annual revenue in grants from all Colorado state and local governments combined."

The General Assembly, for the purpose of implementing TABOR, stated in C.R.S. 24-77-102(16) (a) that "State" means the central civil government of the State of Colorado, which consists of the following:

- (I) the legislative, executive, and judicial branches of government established by Article III of the State Constitution;
- (II) all organs of the branches of government specified in subparagraph (I) of paragraph (a) of this subsection (16), including the departments of the executive branch; the legislative houses

and agencies; and the appellate and trial courts and court personnel; and

(III) State institutions of higher education.

(b) "State" does not include:

(I) any enterprise;

(II) an institution or group of institutions of higher education that has been designated as an enterprise;

(III) any special purpose authority;

(IV) any organization declared to be a joint governmental entity.

The General Assembly has designated the following as enterprises excluded from the District:

- ◆ State Lottery,
- ◆ College Assist,
- ◆ CollegeInvest,
- ◆ Division of Parks and Wildlife,
- ◆ State Nursing Homes,
- ◆ Division of Correctional Industries,
- ◆ Petroleum Storage Tank Fund,
- ◆ State Fair Authority,
- ◆ Division of Brand Inspection,
- ◆ Clean Screen Authority,
- ◆ Capitol Parking Authority,
- ◆ Statewide Transportation Enterprise,
- ◆ Statewide Bridge Enterprise,
- ◆ Unemployment Insurance Enterprise.

It further established a statutory mechanism that allows governing boards of the institutions of higher education to designate certain auxiliary operations as enterprises, which are also exempt from TABOR. Senate Bill 189 enacted in the 2004 legislative session expanded the authority for each governing board of the State institutions of higher education to designate the entire institution as a TABOR exempt enterprise. The Board of Regents of the University of Colorado designated the entire University of Colorado as an enterprise during Fiscal Year 2004-05, and the remaining boards designated their institution as enterprises in Fiscal Year 2005-06. The

Auraria Higher Education Center Board of Directors did not designate all of its activities as a TABOR enterprise, but it continues to have selected activities designated as a TABOR enterprise.

Although the General Assembly and governing boards have designated certain enterprises as exempt from TABOR, those enterprises must continue to meet the criteria of a government-owned business authorized to issue its own revenue bonds and annually receiving less than 10 percent of its revenue in grants from all Colorado state and local governments combined. The State Fair Authority remained disqualified for Fiscal Year 2012-13.

NOTE 4. DEBT

Certificates of Participation, which are used by the State for long-term lease purchases, are not considered debt of the State for purposes of this report as provided by C.R.S. 24-30-202(5.5).

In interrogatories submitted by the General Assembly regarding House Bill 99-1325, the Colorado Supreme Court ruled that Transportation Revenue Anticipation Notes (TRANS) issued by the Colorado Department of Transportation do not constitute debt of the State as defined in Article XI Section 3 of the State Constitution. However, the Supreme Court ruled that the TRANS are a multiple-fiscal year obligation as defined by Article X Section 20 of the State Constitution, thus requiring an approving election before issuance. In November 1999 the voters approved the issuance of \$1.7 billion of TRANS.

NOTE 5. EMERGENCY RESERVES

TABOR requires the reservation, for declared emergencies, of 3 percent or more of fiscal year spending, excluding bonded debt service payments. This requirement for FY 2012-13 totals \$333,220,227. At June 30, 2013, the net assets of the following funds were designated

as the reserve, up to the limits set in the Long Appropriations Act:

- ♦ Major Medical Fund – \$92,500,000.
- ♦ Wildlife Cash Fund – \$34,000,000.
- ♦ Perpetual base account of the Severance Tax Fund – \$33,000,000.
- ♦ Colorado Water Conservation Board Construction Fund – \$33,000,000.
- ♦ Controlled Maintenance Trust Fund – \$23,000,000. The \$23,000,000 designation by the Legislature has been reduced by \$20,150,000 since that amount was transferred out of the TABOR emergency reserve to the Disaster Emergency Fund per the Governor’s Executive Orders to pay the cost of fighting wildfires in the State.
- ♦ Unclaimed Property Tourism Promotion Trust Fund - \$5,000,000.

The 2012 legislative session Long Appropriations Act designated up to \$102,200,000 of State properties as the remainder of the Fiscal Year 2012-13 emergency reserve. The estimate of the needed reserve was based on the December 2012 revenue estimate prepared by Legislative Council. Because the revenues subject to the TABOR reserve requirement were more than estimated, the amount designated for the reserve was \$10,520,227 less than required by the State Constitution. There is no process by which the General Assembly can adjust the designated reserve after the end of the legislative session when the total TABOR revenues are finally known. In the event of an emergency that exceeded the financial assets in the reserve, the designated Wildlife Cash Fund capital assets and general capital assets would have had to be liquidated to meet the constitutional requirement.

NOTE 6. STATUS OF REFUNDING

When refunds are required they are distributed to individual State taxpayers based on a statutory mechanism as discussed in Note 16.

The Department of Revenue makes the distributions of the TABOR refund through the income tax refund process using estimates of the number of taxpayers expected to qualify for the TABOR refund. Because the exact number of qualifying taxpayers cannot be known in advance, the estimates may result in over or under distribution of the required refund throughout the four-year period allowed for amended tax returns.

As required by statute, under distributions of refunds are carried forward to subsequent years and added to the required refund. Over distributions of refunds are also carried forward to subsequent years and are used to offset any future refund liability. The statute requires the over/under refund carry forward to be applied in the year following the year in which the refund is required to be made, which results in a two year lag between the recording of the excess revenue and the adjustment for over or under refunds of those excess revenues.

At the beginning of Fiscal Year 2012-13 the State had an outstanding TABOR refund liability of \$705,716 related to Fiscal Year 2004-05 nonexempt revenues in excess of the limit. Because of late filed and amended tax returns, the State may continue to adjust the outstanding unrefunded balance for up to four years after the excess revenues are recorded. At the end of Fiscal Year 2012-13, the same \$705,716 liability remained to be refunded. Since Referendum C precluded refunds through Fiscal Year 2009-10, and the State has not exceeded the excess State revenues cap in Fiscal Years 2010-11, 2011-12, or 2012-13 the unrefunded balance is being carried forward on the Schedule of Required Computations and will be added to the next refund that is required by Referendum C, TABOR, and the related implementing statutes.

NOTE 7. OTHER SOURCES AND ADDITIONS

The \$740.1 million reported in this line item primarily comprises: \$316.3 million of pension

and other employee benefit trust fund investment earnings and additions by participants; \$236.3 million of Certificate of Participation (COPs) proceeds, \$176.6 million of permanent and trust fund additions, reimbursements of prior year expenditures, reversions, and other miscellaneous exempt revenues; and \$10.9 million of local government expenditures recorded by the State as revenues and expenditures to meet grant matching-funds requirements.

NOTE 8. VOTER APPROVED REVENUE CHANGES

When State voters approve a revenue change, the resulting revenues are exempt from the TABOR limit on fiscal year spending. The following revenue changes were approved by voters:

- ♦ In the 1998 general election, voters approved a citizen-initiated law, C.R.S. 25-8-501.1 – Regulation of Commercial Hog Facilities, which instituted a permit fee. The State collected \$273,073 and \$276,258 from this exempt source in Fiscal Years 2012-13 and 2011-12, respectively.
- ♦ In the 2000 general election, voters approved a citizen-initiated amendment that added Section 14 to Article XVIII of the State Constitution. This amendment allowed the use of marijuana for medical purposes and authorized the Department of Public Health and Environment to charge a fee for the issuance of a permit for such purpose. The State recorded \$3,770,714 and \$6,453,341 including interest and unrealized gains/losses from this revenue source in Fiscal Years 2012-13 and 2011-12, respectively.
- ♦ In the 2000 general election, voters approved a citizen-initiated amendment that added Section 17 to Article IX of the State Constitution. This amendment created the State Education Fund and diverted the revenues from a tax of one-third of one percent on taxable income of individuals, corporations, estates, and trusts from the General Fund to the State Education Fund. It also exempted the revenue from TABOR. The amendment was effective January 1, 2001, and resulted in \$487,610,257 and \$411,729,626 of tax revenues, interest, and unrealized gains/losses, being excluded from fiscal year spending in Fiscal Years 2012-13 and 2011-12, respectively.
- ♦ In the 2004 general election, voters approved a citizen-initiated amendment that added Section 21 to Article X of the State Constitution. The amendment authorized additional cigarette and tobacco taxes (3.2 cents per cigarette and 20 percent of manufacturer’s list price for other tobacco products) effective January 1, 2005. The amendment specified the use of the tax revenue generated for specific health related programs, and it exempted the revenue from the TABOR limitations. The State recorded \$145,591,105 and \$149,464,082 of tax revenues, interest, transfers, and unrealized gains/losses from this exempt source in Fiscal Year 2012-13 and 2011-12, respectively.
- ♦ In the 2005 general election, Colorado voters approved Referendum C – a measure referred to the voters by the Legislature. The referendum allowed the State to retain revenues in excess of the TABOR limit for a period of five years, and it stated that the excess revenue retained qualified as a voter approved revenue change. However, in order to determine the amount retained, the Schedule of Required Computations includes the retained amount as nonexempt revenue. Therefore, the retained amount is not reported in this note as a voter approved revenue change (See Note 9).
- ♦ In the 2008 general elections, voters approved an amendment required to implement locally approved changes to the

parameters for Limited Gaming under Section 9(7) of Article XVIII of the Colorado Constitution. This amendment allowed the residents of Central City, Black Hawk, and Cripple Creek to vote to extend casino hours, approve additional games and increase the maximum single bet limit. It required distribution of most of the gaming tax revenue that resulted from the new gaming limits to Colorado community colleges and to gaming cities and counties, and it exempted the new revenue from state and local revenue and spending limits. The State collected \$9,591,704 and \$9,401,325 of extended limited gaming revenue in Fiscal Year 2012-13 and 2011-12, respectively.

NOTE 9. REFERENDUM C

Referendum C was placed on the ballot by the General Assembly and was approved by the voters in the November 2005 election. It contained the following provisions:

- ♦ The State was authorized to retain and spend all revenues in excess of the limit on fiscal year spending after July 1, 2005, and before July 1, 2010 (five fiscal years). The authorization constituted a voter approved revenue change.
- ♦ After July 1, 2010, the State is allowed to retain revenues in excess of the limit on fiscal year spending up to a newly defined excess State revenues cap (ESRC). The ESRC is the highest population and inflation-adjusted nonexempt revenue amount in the period from July 1, 2005, to June 30, 2010, also adjusted for qualification and disqualification of enterprises. This provision effectively disabled the ratchet down provision of TABOR during the five-year period. (The ratchet down is a term used to describe the TABOR provision that requires each year's base for calculating the limit to be the lesser of the

prior year's revenues or the prior year's limit.)

- ♦ A General Fund Exempt Account was created within the General Fund to consist of the retained revenues for each fiscal year of the retention period. The Legislature shall appropriate the moneys in the account for health care, education (including related capital projects), firefighter and police pension funding (for local governments), and strategic transportation projects.
- ♦ The Director of Research of the Legislative Council is required to report the amount of revenues retained with a description of how the retained revenues were expended.
- ♦ The State Controller's annual report demonstrating compliance with the statutes implementing TABOR is required to include the amount of revenues that the State is authorized to retain and expend.

With the end of the Referendum C five-year excess revenue retention period, the State was subject to an ESRC starting in Fiscal Year 2010-11. Calculation of the original TABOR limit continues to apply, but the ESRC replaces the previous TABOR limit for triggering taxpayer refunds.

Since the inception of Referendum C in Fiscal Year 2005-06 the State has retained \$7,697,478,533; \$3,593,602,662 during the initial five-year revenue retention period, and an additional \$4,103,875,871 as a result of the ESRC limit exceeding the Fiscal Year Spending limit in Fiscal Years 2010-11, 2011-12 and 2012-13.

NOTE 10. DISTRICT RESERVES

District reserves are the cumulative fund balances of the State reported in the State's Comprehensive Annual Financial Report at the fund level rather than the government-wide level. District reserves therefore exclude capital assets, liabilities that are not recorded in

governmental funds at the fund level (primarily long-term liabilities), as well as net assets of the TABOR enterprises. The majority of these funds include balances not available for general appropriation due to legal and contractual restrictions.

**NOTE 11. PRIOR-PERIOD DISTRICT
FUND BALANCE
ADJUSTMENTS**

The prior period adjustments of fund balance reported in the State's Comprehensive Annual Financial Report, increased the TABOR District fund balances in total by \$13,106,626 as follows:

- ♦ The Department of Personnel and Administration decreased the district's beginning net assets by \$19,777 when it paid Western State Colorado University to assume responsibility for claims and liabilities in the General Liability Fund that would otherwise have been current liabilities of the fund in Fiscal Year 2011-13.
- ♦ The State Historical Society increased the district's beginning net assets by \$547,428 when corrected entries were recorded related to errors in bonds and Certificates of Participation in prior fiscal years.
- ♦ The State Land Board, within the Department of Natural Resources, increased the district's beginning net assets by \$578,975. The Land Board failed to record leasing activity for the Loveland Technology Center and the School Fund in Fiscal Year 2011-12. The Department recorded the deferred gains as an increase to beginning fund balance in Fiscal Year 2012-13.
- ♦ The Colorado Water Conservation Board, within the Department of Natural Resources, increased the district's beginning net assets by \$12,000,000. The Water Conservation Board reclassified a water purchase that occurred in Fiscal Year

2011-12 from an asset used in its operations to resale inventory.

**NOTE 12. SOURCES OF TABOR
GROWTH LIMIT**

The allowable percentage increase in State fiscal year spending equals the sum of inflation and the percentage change in State population in the calendar year ending six months prior to the start of the fiscal year. Inflation is defined in C.R.S. 24-77-102(8) as "the percentage change in the consumer price index for the Denver-Boulder Consolidated Metropolitan Statistical Area For All Urban Consumers, All Goods, as published by the U.S. Department of Labor."

The 5.4 percent allowable growth rate comprises a 1.7 percent increase for population growth (census date population for 2011 compared to calendar year estimated population for 2010) and a 3.7 percent increase for inflation.

**NOTE 13. SPENDING LIMIT
ADJUSTMENTS**

With the addition of the excess State revenue cap calculation, adjustments may impact Fiscal Year Spending, the ESRC, or both.

**A. ADJUSTMENTS RELATED TO
FISCAL YEAR SPENDING**

In Fiscal Year 2012-13, the State decreased the fiscal year spending limit base by \$27,736,497 before applying the 5.4 percent allowable growth rate as follows:

Beginning in Fiscal Year 2012-13, the State changed the methodology used in recording bad debt expense based on GASB Q&A 7.40.3 and 7.72.2. This guidance requires that the amount recorded in bad debt expense be reflected as an adjustment to revenues, rather than as an expense. The following adjustments were made as a result:

- ♦ The Department of Labor and Employment overstated Fiscal Year 2008-09 nonexempt revenue by \$5,994,886 and in Fiscal Year 2009-10 by \$20,222,838. These adjustments did not require any prior period adjustments in Fiscal Year 2012-13, as they did not impact net assets as of June 30, 2013.
- ♦ Fort Lewis College, part of the Department of Higher Education, overstated Fiscal Year 2008-09 nonexempt revenue by \$104,930 and in Fiscal Year 2009-10 by \$94,736. These adjustments did not require any prior period adjustments in Fiscal Year 2012-13, as they did not impact net assets as of June 30, 2013.
- ♦ Colorado Mesa University, part of the Department of Higher Education, overstated Fiscal Year 2009-10 nonexempt revenue by \$99,022. This adjustment did not require a prior period adjustment in Fiscal Year 2012-13, as it did not impact net assets as of June 30, 2013.

The Fiscal Year 2008-09 allowable growth of 5.8 percent was applied to the Fiscal Year 2008-09 errors, resulting in a net reduction of \$6,453,605. The Fiscal Year 2009-10 allowable growth of 1.2 percent was applied to the adjustments for that Fiscal Year and the \$20,416,596, resulting in a reduction of \$27,192,644. The Fiscal Year 2011-12 growth rate of 2.0 percent was applied to the \$27,192,644, resulting in a reduction of \$27,736,497. The Fiscal Year 2012-13 growth rate of 5.4 percent is applied on the face of the Schedule of Computations.

**B. ADJUSTMENTS RELATED TO
EXCESS STATE REVENUES CAP**

In Fiscal Year 2012-13, there were no adjustments to the excess State revenues cap (ESRC) before the application of the 5.4 allowable growth rate.

**NOTE 14. ENTERPRISE
QUALIFICATION AND
DISQUALIFICATION**

The TABOR amendment to the State Constitution specifies that qualification and disqualification of enterprises shall change the District base. In order to ensure comparability between the base and current year nonexempt revenue, when an activity qualifies as an enterprise the base is reduced by the activity's prior year nonexempt revenue offset by revenue that would have been counted as nonexempt due to the activity's interaction with other State agencies. When a TABOR enterprise becomes disqualified, its current year nonexempt revenue is added to the base after application of the population and inflation growth adjustment and its prior year payments to other State agencies are removed from the base (before application of the allowable growth rate).

During Fiscal Year 2012-13, the State Forest Service – Wildfire Functions was transferred from Colorado State University (a designated TABOR enterprise) to the Department of Public Safety (nonexempt from TABOR). The following adjustments have been made:

- ♦ The Fiscal Year 2012-13 unadjusted fiscal year spending limit and the unadjusted excess State revenues cap were decreased by \$197,000 to remove Fiscal Year 2011-12 nonexempt revenue recorded by State agencies that received payments from the State Forest Service – Wildfire Functions. This adjustment is necessary so that the revenue counted in the Fiscal Year 2011-12 fiscal year spending limit is comparable to the Fiscal Year 2012-13 nonexempt district revenues. Because the State Forest Service-Wildfire Functions is not a qualified TABOR enterprise in Fiscal Year 2012-13, payments received from the Wildfire Functions are internal to the State’s TABOR district, and therefore, not counted against the Fiscal Year 2012-13 fiscal year spending limit. This adjustment removed from the base the comparable revenues received by state agencies in Fiscal Year 2011-12 and is shown on the Other Agency Prior Year Revenues from Disqualified Enterprises line.
- ♦ The Fiscal Year 2012-13 unadjusted fiscal year spending limit and the unadjusted excess State revenues cap was increased by \$1,987,464 in order to make the disqualification of the State Forest Service – Wildfire Functions neutral in regard to measuring excess fiscal year spending. Since the program was counted as a TABOR exempt enterprise in Fiscal Year 2011-12, the revenues were not counted in the prior fiscal year and were not reflected in the base (prior to this adjustment). For Fiscal Year 2012-13, the revenues are counted, since the Department of Public Safety is part of the District. In order for the two years to be comparable, the revenues

for the State Forest Service – Wildfire Functions for Fiscal Year 2012-13 have been added to the unadjusted fiscal year spending limit and are shown on the Disqualification of Enterprises line.

On January 31, 2013, the Colorado Geological Survey was transferred from the Department of Natural Resources to the Colorado School of Mines, a TABOR enterprise. With this transfer, the Colorado Geological Survey is a qualified TABOR enterprise. Due to this transfer, the following adjustments have been made:

- ♦ The Qualification of Enterprises line, and the Other Agency Revenues From Qualification of Enterprises line in the Fiscal Year 2012-13 Computation of Spending Limitations section of the report show (\$99,355) and \$80,333 respectively, which are both related to the transfer of the Colorado Geological Survey. Because the transfer was made mid-year, these amounts are only reflecting partial year activity, with the remainder being reflected in the next fiscal year.

The Qualification/Disqualification of Enterprises line in the Computation of District Fund Balance Changes section on the Schedule of Required Computations shows a net increase in fund balance of \$5,850,621. Of this amount, an increase of \$6,721,283 was related to the transfer of the Wildfire Functions, and (\$870,662) was related to the transfer of Colorado Geological Survey.

NOTE 15. TREATMENT OF AMOUNTS HELD FOR FUTURE REFUND

CRS 24-77-103.5 requires that errors in the amount to be refunded be corrected in the year that they are discovered. In Fiscal Year 2012-13, no errors were identified that affected the prior year TABOR refunds that are being carried forward under Referendum C. The \$2,899,667 of net understatement of prior year refunds will be refunded in the first fiscal year in which the State is required to distribute a TABOR refund.

The unrefunded amount of \$705,716 from Fiscal Year 2004-05 will also be refunded at that time.

NOTE 16. FUTURE REFUNDS

In the 2010 legislative session, Senate Bill 212 removed all prior alternative mechanisms for refunding TABOR revenues in excess of the fiscal year spending limit except for the earned income tax credit refund mechanism. Also passed in the 2010 session, House Bill 10-1002 created a temporary income tax rate reduction, applicable beginning in Fiscal Year 2010-11, as an additional refunding mechanism. The Department of Revenue reported that after the adjustment for personal income the earned income tax credit mechanism will be applied when the refund exceeds \$94.5 million.

After application of the temporary income tax rate reduction from 4.63 percent to 4.50 percent and the earned income tax credit mechanism, any remaining amount is distributed to all full-year Colorado residents 18 years and older as a refund of sales taxes. When the refund is estimated to be under \$15 for each qualified taxpayer, an identical amount is refunded to each qualified taxpayer. When the sales tax refund is estimated to be over \$15 for each qualified taxpayer, a fixed amount is set for each of six tiers of federal adjusted gross income. The Department of Revenue calculates the amount of the individual refund for each tier as a statutory percentage of the total sales tax refund divided by the number of anticipated taxpayers in each tier.

Due to total nonexempt district revenues falling below the excess State revenues cap, there was no refund required for Fiscal Year 2012-13, and therefore, none of the refund mechanisms discussed above were active in Fiscal Year 2012-13.

NOTE 17. SUBSEQUENT EVENTS

On November 5, 2013, the voters of the State of Colorado approved Proposition AA, which established an excise tax and a special sales tax on retail marijuana. These taxes are not subject to the limitations on revenue, spending or appropriations contained in Section 20 of Article X of the State Constitution (TABOR).

Appendix A

Description of Revenue Categories

The revenue categories described in Appendix A correspond to the categories presented on the Schedule of TABOR Revenue – page 25.

Category	Description
INCOME TAX	
Individual Income Tax, Net	Taxes paid on wages, unearned income, and other income of individuals, net of refunds on property tax credits, income tax intercepts (e.g., IRS and child support), tax checkoffs, and Amendment 23 transfers to the State Education Fund.
Corporate Income Tax, Net	Taxes based on the net profits of corporations net of Amendment 23 transfers to the State Education Fund.
Fiduciary Income Tax, Net	Taxes on trust and estate income net of Amendment 23 transfers to the State Education Fund.
EXCISE TAX	
Sales Tax, Net	Taxes collected by retailers on consumer purchases of tangible personal property net of refunds.
Use Tax, Net	Taxes remitted by the end consumer of tangible personal property purchased at retail prices net of refunds.
Tobacco Products Tax, Net	Taxes on the sale, use, consumption, handling, or distribution of tobacco products net of refunds.
Alcoholic Beverages Tax, Net	Taxes collected from retailers who sell alcohol products net of refunds.

Category	Description
Other Excise Taxes, Net	Taxes for occupational license renewals and certain penalties net of refunds.
OTHER TAXES	
Fuel and Transportation Taxes, Net	Gross ton mileage tax on motor carriers and taxes on diesel, gasoline, aviation jet fuel, aviation gasoline, and other fuels net of refunds.
Insurance Taxes, Net	Taxes on insurance premiums collected by insurance companies net of refunds.
Severance Taxes, Net	Mineral extraction taxes, net of refunds on coal, oil and gas, molybdenum, and metallic minerals net of refunds.
Gaming and Other Taxes, Net	Taxes on gaming facilities based on percentages of income net of refunds.
Employment Taxes, Net	Employment insurance paid by employers for funding unemployment benefits net of refunds.
Estate and Inheritance Taxes, Net	Taxes collected on the assets of estates net of refunds.
LICENSES, PERMITS, AND FEES	
Health Service Fees	Fees collected for health services, including laboratory test fees, genetic testing, vital records fees, and children's health plan premiums.
Motor Vehicle Registrations	Collection of fees for license plates, tags, and registrations.
Other Charges for Services	Various fees, the majority of which are collected by Public Utilities Commission, the Division of Banking, and the Oil and Gas Conservation Fund, which are used to ensure

Category	Description
Business Licenses and Permits	compliance with applicable regulations.
Business Licenses and Permits	Licenses and permits for special functions of a business (e.g., alcoholic beverage licenses, tobacco products licenses, business registrations, health licenses, child care licenses, and waste management permits).
General Government Service Fees	Service charges by various agencies to the public (e.g., filing fees charged by the Department of State, charges by the Motor Vehicle Division for driving record inquiries, and certain fees charged by the Department of Agriculture and Department of Natural Resources).
Driver's Licenses	Fees for driver's licenses and ID cards.
Nonbusiness Licenses and Permits	Environmental response surcharges, park passes, motorcycle operator safety training, waste tire recycling, etc.
Certifications and Inspections	Emission inspection stickers, emission registration, emission inspection station licenses, and other fees.
Public Safety Service Fees	Fees for firefighter response, fire service education and training, search and rescue fund fees.
Educational Fees	Conference fees and teacher certification fees collected primarily by the Department of Education.
Child Welfare Service Fees	Child abuse registry fees.
OTHER REVENUE	
Court and Other Fines	Fines and forfeits levied by the courts.
Interest and Investment Income	Interest income, finance charges, and gains/losses on investments.

Category	Description
Rents and Royalties	Income from the lease of state land to private parties.
Local Governments and Authorities	Funds from counties, cities, special districts, etc., primarily in the form of grants.
Miscellaneous Revenue	Revenue not included in another category.
Higher Education Auxiliary Sales and Services	Revenue from library fees, internal service center fees, athletic camp fees.
Sales of Products	Sales of publications, maps, materials, and supplies.

Appendix B1

Description of Refunding Mechanisms

Mechanism (Effective Date)	Amount of TABOR Refund¹	Description
State Sales Tax Refund (January 1, 1999)	Up to \$91.0 million	Depending on the amount of excess TABOR Revenues to be refunded, a tiered income bracket system will be used to distribute the surplus as a sales tax credit to be taken on individual income tax returns.
Earned Income Tax Credit (January 1, 1999)	\$91.0 to \$272.5 million	When excess TABOR revenue exceeds \$50 million plus the personal income growth rate for Colorado adjusted annually since Fiscal Year 2000 (\$91.0 million as of June 30, 2013), an earned income credit of 10 percent of the taxpayer's federal earned income tax credit may be claimed. After this credit, any excess TABOR Revenues between \$91.0 and \$272.5 million will be refunded through the State Sales Tax Refund.
Temporary Income Tax Rate Reduction (January 1, 2010)	\$272.5 million or more	Starting with income tax year 2010, the state income tax rate will be temporarily reduced from the rate of 4.63 percent to 4.50 percent when the state experiences excess TABOR revenues large enough to support the rate reduction. The amount of the excess must exceed: (1) \$50 million plus the personal income growth rate for Colorado adjusted annually since Fiscal Year 2000 (\$91.0 million as of June 30, 2013), plus (2) the estimated tax rate reduction refund amount of \$181.5 million as of June 30, 2013. Any TABOR Revenues in excess of \$272.5 million will be refunded through the State Sales Tax Refund.

¹ Amounts are Legislative Council Staff estimates based under current law and are for illustrative purposes only; there were no excess TABOR Revenues for Fiscal Year 2013.

Appendix B2

Refunding Mechanism Thresholds

(As applicable to Fiscal Year 2013)

Refunding Mechanism	Original Threshold	Fiscal Year 2013 Threshold ¹
Earned Income Credit	\$ 50,000,000	\$ 91,000,000

Source: Office of the State Auditor's analysis of Department of Revenue data.
¹ Thresholds are adjusted annually by the personal income growth rate for Colorado. With the enactment of Senate Bill 10-212, the earned income tax credit became the only mechanism with a threshold for refunding state surplus revenues.

Appendix C

TABOR History: Fiscal Years 1993 - 2013

The following provides highlights of certain legislation or voter-approved changes affecting the Office of the State Controller's *Schedule of TABOR Revenue* contained in this report. The fiscal year in which the change was effective and a brief summary of the legislation or voter-approved change is provided below.

1993

Voter Approval. The Taxpayer's Bill of Rights (TABOR) was added as Article X, Section 20 of the Colorado Constitution in the November 1992 general election. TABOR limits increases in the State's revenue to the annual inflation rate plus the percentage change in Colorado's population unless voters approve a revenue change.

1997 and 1998

Refunds. The TABOR Revenue Limit was exceeded for the first time during the fiscal year ended June 30, 1997, and again for fiscal year ended June 30, 1998. The General Assembly decided to distribute the entire excess from general funds as a sales tax credit on each full-year resident's individual tax return.

1999—2001

Refunds. TABOR revenue exceeded the TABOR Revenue Limit for each of these years, resulting in refunds. In 1999, the excess was refunded through three mechanisms; in 2000, nine mechanisms were used, and in 2001, the excess was refunded through 15 mechanisms.

Revenue Reductions. During the period, there were several revenue reductions enacted that lowered the amount of TABOR revenue to be received in subsequent years. The most significant reduction was the lowering of income tax rates effective January 1, 1999, for individuals, estates, and trusts from 5 percent to 4.75 percent, and a further reduction effective January 1, 2000, of the rate to 4.63 percent. Effective January 1, 2001, the sales tax rate was reduced from 3 percent to 2.9 percent. Other permanent tax reductions include the establishment of low-income housing owner credits, redevelopment incentives for contaminated property, sales and use tax exemptions for certain agricultural items, unemployment insurance tax credits, and oil and gas severance tax exemptions.

Constitutional Amendment. Amendment 14 was approved by the voters in November 1998 and authorized a permit fee that is exempt from TABOR for the regulation of commercial hog facilities.

2001

Constitutional Amendments. Voters approved changes that lowered revenue subject to TABOR requirements through some constitutional amendments. The amendment having the largest impact on decreasing revenue subject to TABOR was Amendment 23, passed in November 2000. The Amendment created the State Education Fund, funded through a transfer of an amount equivalent to a tax of 1/3 of 1 percent of federal taxable income. This essentially reduces the State's TABOR revenue by the amount of the transfer. At this same time, voters also approved Amendment 20 that authorized a fee for patients receiving an identification card for the medical use of marijuana. The resulting revenues are TABOR exempt.

2002

Growth Dividend. TABOR states that the TABOR Revenue Limit will be the lesser of the current fiscal year's revenue or the prior fiscal year's TABOR Revenue Limit adjusted by the population growth and the inflation factor. The population growth is adjusted every decade to match the federal census. Based on the 2000 census, it was determined that the federal government underestimated Colorado's population during the 1990s, resulting in greater TABOR refunds than required.

In 2002, the General Assembly enacted Senate Bill 02-179 to account for underestimates of population growth in prior years, adding a carry-forward mechanism for a census-related adjustment in population growth. This can be applied to future calculations of the TABOR Revenue Limit for up to 9 years. This carry-forward is referred to as the growth dividend. The growth dividend determined from the 2000 census allowed the State to raise the TABOR Revenue Limit by \$565.3 million. This amount was fully utilized during Fiscal Years 2004 and 2005.

2004

Qualified Enterprises. The TABOR amendment allows qualified enterprises to be exempt from TABOR requirements. Over the years, the General Assembly has enacted statutes to designate certain state entities as TABOR-exempt enterprises. One of the most significant of these bills was Senate Bill 04-189, which enabled higher education governing boards to designate a qualified institution or group of institutions to be exempt from TABOR requirements. In 2004, the University of Colorado was approved as a TABOR-exempt enterprise. In 2005, 10 additional higher education institutions were approved as TABOR-exempt enterprises. Once designated as a TABOR-exempt enterprise, the institution will retain the designation as long as it continues to meet the requirements for an enterprise.

2005 and 2006

Referendum C. Referendum C was approved by the voters in the November 2005 election. Referendum C allows the State to retain and spend all revenue in excess of the TABOR Revenue

Limit annually for 5 fiscal years starting with Fiscal Year 2006. After July 1, 2010, the State is allowed to retain revenues in excess of the TABOR Revenue Limit up to a newly defined “Excess State Revenues Cap.” The Excess State Revenues Cap is defined as the highest total state revenue earned between Fiscal Years 2006 and 2010, adjusted for inflation and population growth for each subsequent year.

Constitutional Amendment. Amendment 35 passed in November 2004, assesses a statewide TABOR-exempt tax of 64 cents per pack of cigarettes and 20 percent on tobacco products. The Amendment requires that the revenue be used for health care services and tobacco education and cessation programs.

Overrefunds. Prior to July 1, 2005, state statutes provided a mechanism to apply refunds paid in excess of the TABOR refund liability (“overrefunds”) for one fiscal year against the following year’s TABOR refund liability, if one exists. Effective Fiscal Year 2005 under House Bill 05-1310, the State Controller was required to change the methodology for calculating the TABOR Revenue Limit for Fiscal Years 2002 through 2004 by applying the overrefunds after the TABOR Revenue Limit was set. This resulted in an increase of \$92.7 million to the Fiscal Year 2005 TABOR Revenue Limit.

In addition, the State Controller was required to reduce the Fiscal Year 2005 TABOR revenue in excess of the TABOR Revenue Limit for the total amount of overrefunds paid during Fiscal Years 2002 through 2004. This resulted in a \$127.8 million reduction to the TABOR refund liability for Fiscal Year 2005.

House Bill 05-1310 requires that, in Fiscal Year 2006 and future years, TABOR revenue in excess of the TABOR Revenue Limit be reduced by any amounts overrefunded in the prior year. Any unused amount is to be carried forward and decrease future refund liabilities until the excess is depleted.

2011

Refund Mechanisms. The General Assembly enacted Senate Bill 10-212, which repealed the following TABOR surplus refund mechanisms except for the Earned Income Tax Credit and the Sales Tax Refund, effective July 1, 2010:

Refunding Mechanism	Original Threshold²
Earned Income Credit ¹	\$ 50,000,000
Charitable Contributions Deduction	\$ 100,000,000
Foster Parents Credit	\$ 200,000,000
Business Personal Property Tax Credit	\$ 170,000,000
Child Care Credits	\$ 290,000,000
Tangible Personal Property Used for Research and Development	\$ 358,400,000
Motor Vehicle Registration Fees	\$ 330,000,000
High Technology Scholarship Program Credit	\$ 330,000,000
Interest, Dividends, and Capital Gains Deduction	\$ 350,000,000
Pollution Control Provisions	\$ 350,000,000
Interstate Commerce Sales and Use Tax Refund	\$ 350,000,000
Agriculture Value-Added Development Credit	\$ 400,000,000
Cost of Health Benefits Credit	\$ 400,000,000
Sales Tax Refund ¹	Remaining Excess
¹ Still in effect under current law.	
² Thresholds were adjusted annually by the personal income growth rate for Colorado.	

For any year in which a refund of TABOR surplus revenue is required, the remaining refund mechanism with a threshold in statute is the Earned Income Tax Credit. In addition, House Bill 05-1317 created a TABOR refund mechanism that – starting with income tax year 2010 – reduces the state income tax rate from the rate of 4.63 percent to 4.50 percent when the state experiences a revenue surplus large enough to support the rate reduction. The Temporary Income Tax Rate Reduction follows the Earned Income Tax Credit refund mechanism. See Appendices B1 and B2.

2013

Earned Income Tax Credit. The General Assembly enacted Senate Bill 13-001 concerning income tax credits to support working families. A permanent and refundable state earned income tax credit was established for all income tax years regardless if there is a refund of excess state revenues required by the taxpayer's bill of rights (TABOR) through the Earned Income Tax Credit (EITC) refund mechanism. The credit is equal to 10 percent of a resident individual's federal earned income tax credit. When a refund of revenue surplus is required, the Earned Income Tax Credit is considered to count toward the EITC TABOR refund mechanism threshold.
