DESCRIPTION OF COLORADO DIVISION OF GAMING  
YEAR ENDED JUNE 30, 2017**

Effective October 1, 1991, Article XVIII, Section 9 of the Colorado Constitution was amended to allow limited stakes gaming in three Colorado cities. In April 2009, House Bill 09-1272 was approved to implement Amendment 50 (Amendment). The Amendment, along with the Limited Gaming Act of 1991 (the Act), established the framework for regulating limited gaming in Colorado. The Act created the Division of Gaming within the Department of Revenue, established the Limited Gaming Fund, and gave the Limited Gaming Control Commission (the Commission) the authority and responsibility for regulating limited gaming in Colorado.

The Division of Gaming operates with a staff of about 85 full-time employees and a budget of approximately \$16.4 million. The Commission is made up of a five-member board appointed by the Governor and approved by the Colorado Senate. Gaming revenues deposited in the Limited Gaming Fund are used to pay operating expenses for the Division and the Commission during the year. After setting aside a reserve for two months' operating expenses at the end of each fiscal year, the remaining fund balance in the Limited Gaming Fund is distributed to State and local governments according to the provisions in the Colorado Constitution and the Act.

## INDEPENDENT AUDITORS' REPORT

Members of the Legislative Audit Committee  
Division of Gaming, Department of Revenue, State of Colorado

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Limited Gaming Fund and Extended Limited Gaming Fund, special revenue funds of the Division of Gaming, Department of Revenue, State of Colorado (the Division), as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Limited Gaming Fund and Extended Limited Gaming Fund, special revenue funds of the Division of Gaming, Department of Revenue, State of Colorado as of June 30, 2017 and 2016, and the respective changes in financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of Matter**

As discussed in Note 1, the financial statements present only the Limited Gaming Fund and Extended Limited Gaming Fund and do not purport to, and do not, present fairly the financial position of the Department of Revenue, State of Colorado as of June 30, 2017 and 2016, and the changes in its financial position for the years then ended in conformity with accounting principles generally accepted in the United State of America. Our opinion is not modified with respect to this matter.

**Other Matters**

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information and pension schedules on pages 5-23 and 46-48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated November 29, 2017 on our consideration of the Division's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Division's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Division's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEARS ENDED JUNE 30, 2017 AND 2016**

This discussion and analysis of the financial performance of the Division of Gaming, Department of Revenue, State of Colorado (the "Division") provides an overview of financial activities for the year ended June 30, 2017. Please read it in conjunction with the Division's financial statements, which begin on page 24.

**Financial Highlights**

- Gaming Tax revenues were \$117,401,015 for the fiscal year ended June 30, 2017, compared to revenues of \$116,287,375 for the prior fiscal year ending June 30, 2016, which is an increase of \$1,113,640 or 0.96%.
- An increase in the Division's total excess of revenues over expenditures, excluding the unrealized change in fair value of investments, increased the total Gaming Distribution to \$104,082,249 compared to last fiscal year's total Gaming Distribution of \$103,684,917. These amounts represent both the Limited Gaming Distribution and the Extended Gaming Distribution for fiscal years 2017 and 2016, respectively.

**Using this Report**

This financial report consists of financial statements for the fiscal years ended June 30, 2017 and 2016. Unless otherwise specified, references within this report to the Division relate to the Extended Gaming Fund and the Limited Gaming Fund. The Balance Sheets provide comparative information on the Division's assets, liabilities, and fund balance as of the end of the current and previous fiscal years. The Statement of Revenues, Expenditures, and Changes in Fund Balance is the Division's income statement. The Statements of Revenues, Expenditures, and Changes in Fund Balance provide information on the current and previous fiscal years' revenues, expenditures, excess of revenues over expenditures, the Gaming Distribution, the beginning fund balances at July 1, 2016 and July 1, 2015, respectively, and the ending fund balances as of June 30, 2017 and 2016, respectively. The Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget to Actual reflects the initial budget amounts, the cumulative changes made throughout the course of the year, the revised budget amounts, and the actual amounts received or expended. Finally, the notes to the financial statements contain a summary of significant accounting policies and more specific information about items in the financial statements.

In April 2009, House Bill 09-1272 was approved to implement Amendment 50. In summation, this amendment allows Colorado casinos to offer \$100 maximum bets, an increase from the previous \$5 limit; offer the games of craps and roulette; and remain open for 24 hours. This is referred to as Extended Gaming. The Extended Gaming Funds to be distributed are transferred to a separate fund every fiscal year end beginning with fiscal year 2010; therefore, a new Extended Gaming Fund was created separate from the Limited Gaming Fund for this purpose.

**Revenues**

The total excess of revenues over expenditures of the Division, including the unrealized change in fair value of investments, for fiscal year 2017 was \$103,484,394. This represents a decrease of \$375,085 compared to fiscal year 2016 excess of revenues over expenditures of \$103,859,479.

The fiscal year 2017 net decrease in fair value of investments of \$673,623 and net increase of \$338,664 in fiscal year 2016 represent the change in fair value of the Division's investments during the fiscal years ended June 30, 2017 and 2016, respectively.

The largest source of revenue for the Division is from gaming taxes paid by casinos. Gaming taxes are paid on a graduated scale ranging from 0.25% to 20.00% of adjusted gross proceeds (AGP). The adjusted gross proceeds of casinos increased 1.33% in fiscal year 2017, as compared to fiscal year 2016. The increase was due primarily to Colorado's improving economy and population growth. The gaming tax revenues earned by the Division for the fiscal years ending June 30, 2017 and 2016 were \$117,401,015 and \$116,287,375, respectively. For fiscal year 2017, the tax rates remained the same as in fiscal year 2016 and 2015.

The Colorado Limited Gaming Control Commission assesses taxes based on adjusted gross proceeds. The tax rates for fiscal years 2017, 2016, and 2015 are below.

Staffing Changes

In fiscal years 2017 and 2016 the Division had several vacant positions. The proposal to move two full-time employees off the Division's books did not go forward. The proposal will be presented again in fiscal year 2018. The positions were repurposed by the Department of Revenue to fill the Deputy Senior Director of Enforcement and Enforcement Communication Specialist.

Improving Economy

The industry reported and paid record gaming taxes in fiscal year 2017, the second record in two years. Fiscal year 2017 gaming tax revenues were approximately 1.00% higher than fiscal year 2016.

Computer Systems / Projects

In fiscal year 2017, the Division had no system upgrades or notable projects.

**Distribution**

The voters of Colorado passed Amendment 50 on November 4, 2008. In summation, this amendment allows Colorado casinos to offer \$100 maximum bets, offer the games of craps and roulette, and remain open for 24 hours. This is now referred to as extended gaming. The tax revenues attributable to the implementation of Amendment 50 are distributed as follows:

- 78% to the Colorado Community College System;
- 12% to Gilpin and Teller Counties, in proportion to the tax revenues generated in the respective counties; and
- 10% to the cities of Cripple Creek, Central City, and Black Hawk, in proportion to the tax revenues generated in the respective cities.

At the end of each fiscal year, the Division distributes the balance remaining in the Limited Gaming Fund after reserving an amount equal to expenditures for the preceding two-month period. The Limited Gaming Fund also transfers amounts due to the Extended Gaming Fund. The total distribution for the fiscal year ended June 30, 2017 was \$104,082,249, which includes \$13,419,866 for the Extended Gaming Fund distribution.

During August of each fiscal year, the Commission approves the Extended Gaming distribution for the previous fiscal year in accordance with Section 12-47.1-701.5, C.R.S. These amounts are distributed in the year approved by the Commission.

**Budget**

The Colorado Limited Gaming Control Commission approves the Long Bill line items of the Division's budget for the Limited Gaming Fund. The Division does not adopt a budget for the Extended Gaming Fund. Throughout the year, the budget may be amended. Following are the budget line items that were changed during fiscal year 2017:

	<u>Beginning Budget</u>	<u>Supplemental Changes</u>	<u>Annual Revised Budget</u>
Payments to Other State Agencies	\$4,821,664	\$(85,778)	\$4,735,886
Legal Services	\$181,916	\$25,501	\$207,417

The budgeted expenditures approved at the beginning of the year were \$16,466,717. The amendments to the budget resulted in a net decrease of \$(60,277). As a result, the final approved budget for fiscal year 2017 was \$16,406,440. Total actual expenditures were \$15,022,463 resulting in excess appropriations, or a savings of \$1,383,977 for fiscal year 2017.

**Economy and Next Year's Budget**

The Division considers several factors when determining estimates for the following year's budget. The fiscal year 2018 budget request was prepared according to statewide standards and guidelines issued by the Governor's Office of State Planning and Budgeting ("OSPB"). The Division has also incorporated into the request a statewide figure setting policy adopted by the Joint Budget Committee ("JBC") for fiscal year 2018. The Division's request totaled \$16,925,549, which includes the Division's budget request of \$12,027,569 and Other State Agencies budget request of \$4,897,980, which represents a 3.16% increase from the fiscal year 2017 appropriation. There was an increase in the Division's fiscal year 2018 budget compared to the 2017 budget relating to CORE Operations, the statewide financial system and IT costs. IT costs include Payments to OIT and Systems Support, a new item for fiscal year 2018. Systems Support, an appropriation to upgrade the telephone systems in the Division of Gaming offices is expected to be an 18 month project. It is unknown at this time which, or if all offices will be upgraded. The Office of Information Technology (OIT) has started to perform scope work at the Central City office. The Colorado Limited Gaming Control Commission approved a budget request submitted by the Department of Public Safety for \$4,733,920 and a budget request submitted by the Department of Local Affairs for \$164,060. These funds are used for gaming related purposes.

The Colorado Gaming Association (CGA) proposed changes to Rule 14 "Gaming Tax" during this year's tax setting hearings. This proposal would allow casinos to receive a tax refund when gaming tax revenues increase at or above a specific growth rate. This proposal would result in an additional full time employee (FTE) to the Division if approved.

Assumptions that were made when preparing the revenue projection for fiscal year 2018 included the continuation of current tax structure, tax rates, and continuation of license and application fees in effect. Also included in assumptions is the continuation of the current interest rate being paid to the fund and adjustments for casinos closed and opened in fiscal year 2017.

The Division's fiscal year 2018 revenue estimates total \$119.8 million, a \$648,630 increase over fiscal year 2017 actual revenue.

**Economy and Next Year's Budget (Continued)**

During the 24 years of gaming in Colorado, the Division has seen the market change. Initially there were many small casinos; now there are fewer casino properties, many of which are owned by large publicly traded companies. Gaming in Colorado continues to do well. The Division continually positions itself to respond effectively to new technology, regulations, and growth of the industry.

**DIVISION OF GAMING  
DEPARTMENT OF REVENUE, STATE OF COLORADO  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2017 AND 2016**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Colorado Division of Gaming (the Division) is an agency of the State of Colorado and was created June 4, 1991, under the provision of Section 12-47.1-201, Colorado Revised Statutes (C.R.S.). The Division operates under the Colorado Limited Gaming Control Commission (the Commission). The Division implements, regulates, and supervises the conduct of limited gaming in the State, as authorized by statute.

In April 2009, House Bill 09-1272 was approved to implement Amendment 50. In summation, this amendment allows Colorado casinos to offer \$100 maximum bets, offer the games of craps and roulette, and remain open for 24 hours, referred to as extended gaming. The extended gaming funds to be distributed are transferred to a separate fund every fiscal year-end beginning with fiscal year 2010; therefore, an Extended Limited Gaming Fund (Extended Gaming Fund) was created for this purpose. All fund or Division references throughout these financial statements refer to the Limited Gaming Fund except if a specific reference to the Extended Gaming Fund exists.

The State of Colorado (the State) is the primary reporting entity for State financial reporting purposes.

The financial statements are intended to present only those transactions attributable to the Extended Gaming and Limited Gaming Funds (Funds). The financial statements of the Funds are not intended to present financial information of the Department of Revenue or the State in conformity with generally accepted accounting principles. The Funds' accounts are presented in a manner consistent with presentation of statewide financial activities, which are reported in accordance with accounting principles generally accepted in the United States of America for governmental units.

**Fund Structure and Basis of Accounting**

The financial activities of the Division are accounted for and reported on the basis of funds, which is considered to be a separate entity for accounting purposes. The operations of the Division are recorded in a Special Revenue Fund, which consists of a discrete set of self-balancing accounts that comprise the assets, liabilities, fund balance, revenues, and expenditures of the entity. Throughout the year, encumbrances are recorded. However, at fiscal year-end all encumbrances lapse and no reserve for encumbrances are reported. The accounts used for capital assets and long-term liabilities are not recorded in the Special Revenue Fund, but in a separate fund that is maintained on a statewide basis, and are not reflected in these statements. Information on capital assets and long-term liabilities is included in Note 4, Note 6, and Note 9, respectively.

**Governmental Funds**

*Special Revenue Funds*

Transactions related to resources obtained from specific sources, which are restricted to specific purposes, are accounted for in the Special Revenue Funds. The Division's resources are obtained from specific gaming related activities such as license fees, application fees, and gaming taxes. These sources are restricted for specific uses as outlined in Section 12-47.1-701, C.R.S. Because the Division's required reserve and the funds to be distributed to extended gaming recipients are specified in enabling legislation, the Colorado Constitution, the Division has spending constraint classifications presented on the balance sheet.

DEPARTMENT OF REVENUE, STATE OF COLORADO  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2017 AND 2016**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Basis of Accounting**

The Division uses the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when both measurable and available. Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, if measurable.

**Budget**

The Statement of Budget to Actual compares actual revenues and expenditures to those which are legally authorized by state statute. The fiscal year 2017 revenue estimates were provided by the Division, based on the tax rate structure established by the Commission.

Each year, the Division submits to the Commission a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. Public hearings are conducted by the Commission to obtain comments and approval. During the fiscal year, the approved budget may be modified due to roll-forward authorizations or other changes. The Commission must approve all long bill line item budget request changes. Appropriations lapse at fiscal year-end unless a roll-forward of the unexpended budget has been approved.

Total appropriations for the fiscal years are as follows:

	Years Ended June 30,	
	2017	2016
Appropriations	\$ 16,466,717	\$ 15,707,636
Supplemental appropriations	(60,277)	45,134
Total appropriations	\$ 16,406,440	\$ 15,752,770

**Accrued Payroll**

In accordance with Senate Bill 03-197, monthly salaries are to be paid as of the last working day of the month except the salaries for the month of June. These are to be paid on the first working day of July.

**NOTE 2 CASH AND EQUITY IN TREASURER'S POOL**

The Division deposits its cash with the Colorado State Treasurer as required by C.R.S. The State Treasurer pools these deposits and invests them in securities authorized by Section 24-75-601.1, C.R.S. The State Treasury acts as a bank for all state agencies and institutions of higher education, with the exception of the University of Colorado. Monies deposited in the Treasury are invested until the cash is needed. As of June 30, 2017 and 2016, the Division had cash on deposit with the State Treasurer of \$95.4 million and \$96.5 million, respectively, which represented approximately 1.4 percent of the total \$6,770.2 million and 1.3 percent of the total \$7,408.5 million fair value of deposits in the State Treasurer's Pool (Pool).

**DIVISION OF GAMING  
DEPARTMENT OF REVENUE, STATE OF COLORADO  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2017 AND 2016**

**NOTE 2 CASH AND EQUITY IN TREASURER'S POOL (CONTINUED)**

On the basis of the Division's participation in the Pool, the Division reports as an increase or decrease in cash for its share of the Treasurer's unrealized gains and losses on the Pool's underlying investments. The State Treasurer does not invest any of the Pool's resources in any external investment pool, and there is no assignment of income related to participation in the Pool. The unrealized gains/losses included in income reflect only the change in fair value for the fiscal year.

Additional information on investments of the State Treasurer's Pool may be obtained in the State's Comprehensive Annual Financial Report for the year ended June 30, 2017.

**NOTE 3 ACCOUNTS RECEIVABLE**

As of June 30, 2017 and 2016, the Division had accounts receivable balances of \$12,292,156 and \$11,533,559, respectively. On June 30, 2017 and 2016, the Division had \$12,291,147 and \$11,529,949 of gaming taxes receivable, from 33 and 35 Colorado casinos, respectively. These receivables primarily represent June 2017 and 2016 gaming taxes, which were due on July 17, 2017 and July 15, 2016, respectively, and were subsequently collected by the Department of Revenue in July 2017 and 2016 on behalf of the Division. Based on past collection history with similar accounts, no allowance for doubtful accounts is deemed necessary by management.

**NOTE 4 CHANGES IN CAPITAL ASSETS AND ACCUMULATED DEPRECIATION**

Pursuant to the provisions of GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Division's capital assets are reported only in the statewide financial statements. In addition, these capital assets are depreciated over their estimated useful lives, but depreciation expense is also reported only in the statewide financial statements.

All capital assets are stated at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are stated at their estimated fair values on the date donated. The capitalization criteria for capital assets are \$50,000 for buildings and leasehold improvements, \$5,000 for furniture and equipment, and all land is capitalized regardless of cost. The purchase of stand-alone software is capitalized at \$5,000. Capital assets are depreciated using the straight-line method over the estimated useful lives of the related assets, which are 30 years for the buildings, and five to ten years for leasehold improvements, furniture, equipment, and software.

**NOTE 5 OTHER LIABILITIES**

Included in other liabilities are deposits and unearned revenue. Applicants applying for gaming licenses are required to remit deposits to the Division, which are used to perform background investigations of these applicants. These deposits are recorded as liabilities until the Division incurs expenditures to perform the background investigations or until any remaining balance is refunded to the applicant. Deposits of \$230,898 and \$356,126 at June 30, 2017 and 2016, respectively, represent background investigation deposits. Also included is \$6,314 at both June 30, 2017 and 2016, which represents funds seized during criminal investigations or from gaming patrons, and are pending court order releases or adjudication.

The Division issues a two-year license to individuals who are subject to an investigative review on an annual basis. Beginning in August 2008, the Division began to stagger the issuance of two-year licenses to businesses as well. The fees for the second year of the license period are recorded as unearned revenue until the Division incurs the expense during the review period. As of June 30, 2017 and 2016, unearned license fees were \$286,349 and \$293,922, respectively.

Extended Gaming Distribution

The voters of Colorado passed Amendment 50 on November 4, 2008. In summation, this amendment allows Colorado casinos to offer \$100 maximum bets, offer the games of craps and roulette, and remain open for 24 hours. This is now referred to as extended gaming. The tax revenues attributable to the implementation of Amendment 50 will be distributed as follows:

- 78% to the State’s Public Community Colleges, Junior Colleges, and Local District Colleges;
- 12% to Gilpin and Teller Counties, in proportion to the tax revenues generated in the respective counties; and
- 10% to the cities of Cripple Creek, Central and Black Hawk, in proportion to the tax revenues generated in the respective cities.

The following are definitions necessitated by the passage of Amendment 50:

- 1) “Extended gaming” means subsection (7) of section 9 of article XVIII of the State constitution as approved by statewide voters on November 4, 2008, and subsequently approved by voters in the cities of Black Hawk, Central and Cripple Creek;
- 2) “Extended gaming revenues” mean the “limited gaming tax revenues attributable to extended limited gaming” as defined by Section 12-47.1-701.5(4)(b), C.R.S.; and
- 3) “Limited gaming revenues” mean the gaming tax revenues attributable to the operation of limited gaming prior to extended gaming.

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2017 AND 2016**

**NOTE 7 GAMING DISTRIBUTIONS (CONTINUED)**

In accordance with House Bill 09-1272, there will be a determination of tax revenues and expenditures attributable to extended and limited gaming.

- 1) After the end of each fiscal year ending June 30, the Commission shall determine limited gaming revenues by multiplying the amount of limited gaming revenues collected during the previous fiscal year by a factor of 3% and adding that amount to the amount of limited gaming revenues collected during the previous fiscal year. If the annual increase in total gaming tax revenues is less than 3%, either positive or negative, limited gaming revenues shall be the amount of limited gaming revenues collected during the previous fiscal year multiplied by a factor of the actual percentage of annual growth or decline in total gaming tax revenues. That amount shall be added or subtracted from the amount of limited gaming tax revenues collected during the previous fiscal year.
- 2) After the end of each fiscal year ending June 30, the Commission shall determine extended gaming revenues by subtracting the amount of limited gaming revenues from the amount of total gaming tax revenues collected during the fiscal year.
- 3) After the end of each fiscal year ending June 30, the Commission shall determine extended gaming expenses by multiplying the total of all expenses of the Commission and other State agencies for the fiscal year by the percentage of total limited gaming revenues attributable to extended gaming revenues.

The original or Limited Gaming Fund recipients will receive an annual adjustment of the lesser of 6%, or the actual percentage, of annual growth in extended gaming revenues. For fiscal year 2017, the actual annual increase is .94% which is less than 6%. The annual adjustment amount attributable to the .94% increase for fiscal year 2017 is \$144,940.

On August 24th, 2017, the Commission approved the extended gaming distribution of \$13,419,866 for the fiscal year ended June 30, 2017, in accordance with Section 12-47.1-701.5 C.R.S. On August 25th, 2016, \$12,557,487 was approved as the 2016 extended gaming distribution. These amounts were transferred to the Extended Gaming Fund at each fiscal year end as follows:

Sunset laws require the General Assembly to periodically review, and update as necessary, the laws that create entities such as the Division. During fiscal year 2013, a sunset review was completed, the law was amended, and the sunset date was extended to September 1, 2022. The Division’s existence will continue after September 1, 2022, only through the passage of a bill by the General Assembly.

**NOTE 9 DEFINED BENEFIT PENSION PLAN**

Summary of Significant Accounting Policies

*Pensions*

The Division participates in the State Division Trust Fund (SDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees’ Retirement Association of Colorado (“PERA”). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

*Plan Description*

Eligible employees of the Division are provided with pensions through the State Division Trust Fund (SDTF)—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the C.R.S., administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Benefits Provided*

PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5% and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100% of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50% or 100% on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve (AIR) for the SDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. State Troopers whose disability is caused by an on-the-job injury are immediately eligible to apply for disability benefits and do not have to meet the five years of service credit requirement. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

At June 30, 2017, the Division's proportionate share of the net pension liability is \$35,237,801. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll forward the total pension liability to December 31, 2016. The Division's proportion of the net pension liability was based on Division contributions to the SDTF for the calendar year 2016 relative to the total contributions of participating employers to the SDTF.

At December 31, 2016, the Division's proportion was 0.1918420593%, which was an increase of 0.0004694748% from its proportion of 0.1913725845% measured as of December 31, 2015.

For the year ended June 30, 2017, the Division's share of pension expense was \$6,040,320. At June 30, 2017, the Division's share of deferred outflows of resources and deferred inflows of resources related to pensions were from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between Expected and Actual Experience	\$ 350,267	\$ -
Changes of Assumptions or other Inputs	8,964,724	108,464

\$501,061 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and (deferred inflows) of resources related to pensions will be recognized in pension expense as follows:

*Actuarial Assumptions*

The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial Cost Method	Entry Age
Price Inflation	2.80%
Real Wage Growth	1.10%
Wage Inflation	3.90%
Salary Increases, Including Wage Inflation	3.50 - 9.57%

PERA Benefit Structure hired after December 31, 2006 (Ad Hoc, Substantively Automatic)	Financed by the Annual Increase Reserve

Based on the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic assumptions were adopted by PERA's Board on November 18, 2016 and were effective as of December 31, 2016. These revised assumptions shown below were reflected in the roll-forward calculation of the total pension liability from December 31, 2015 to December 31, 2016:

Actuarial Cost Method	Entry Age
Price Inflation	2.40%
Real Wage Growth	1.10%
Wage Inflation	3.50%
Salary Increases, Including Wage Inflation	3.50 - 9.17%
Long-Term Investment Rate of Return, Net of Pension Plan

PERA Benefit Structure hired after December 31, 2006 (Ad Hoc, Substantively Automatic)	Financed by the Annual Increase Reserve

Mortality rates used in the December, 31, 2015 valuation were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with Males set back 1 year, and Females set back 2 years. Active member mortality was based upon the same mortality rates but adjusted to 55 percent of the base rate for males and 40 percent of the base rate for females. For disabled retirees, the RP-2000 Disabled Mortality Table (set back 2 years for males and set back 2 years for females) was assumed.

**DIVISION OF GAMING  
DEPARTMENT OF REVENUE, STATE OF COLORADO  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2017 AND 2016**

**NOTE 9 DEFINED BENEFIT PENSION PLAN (CONTINUED)**

The actuarial assumptions used in the December 31, 2015 valuation were based on the results of an actuarial experience study for the period January 1, 2008 through December 31, 2011, adopted by PERA's board on November 13, 2012, and an economic assumption study, adopted by PERA's board on November 15, 2013 and January 17, 2014.

As a result of the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic actuarial assumptions including withdrawal rates, retirement rates for early reduced and unreduced retirement, disability rates, administrative expense load, and pre- and post-retirement and disability mortality rates were adopted by PERA's Board on November 18, 2016 to more closely reflect PERA's actual experience. As the revised economic and demographic assumptions are effective as of the measurement date, December 31, 2016, these revised assumptions were reflected in the total pension liability roll-forward procedures.

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was changed to reflect 90 percent of the RP-2014 Disabled Retiree Mortality Table.

**NOTE 9 DEFINED BENEFIT PENSION PLAN (CONTINUED)**

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016. As a result of the October 28, 2016 actuarial assumptions workshop and the November 18, 2016 PERA Board meeting, the economic assumptions changed, effective December 31, 2016, as follows:

- Investment rate of return assumption decreased from 7.50 percent per year, compounded annually, net of investment expenses to 7.25 percent per year, compounded annually, net of investment expenses.
- Price inflation assumption decreased from 2.80 percent per year to 2.40 percent per year.
- Real rate of investment return assumption increased from 4.70 percent per year, net of investment expenses, to 4.85 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.90 percent per year to 3.50 percent per year.

Several factors were considered in evaluating the long-term rate of return assumption for the SDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the November 18, 2016 adoption of the current long-term expected rate of return by the PERA Board, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>30-Year Expected Geometric Real Rate of Return</u>
U.S. Equity - Large Cap	21.20 %	4.30 %

**NOTE 9 DEFINED BENEFIT PENSION PLAN (CONTINUED)**

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

*Discount Rate:* The discount rate used to measure the total pension liability was 5.26%. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated economic and demographic actuarial assumptions adopted by PERA's Board on November 18, 2016.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimated future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

DEPARTMENT OF REVENUE, STATE OF COLORADO  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2017 AND 2016**

**NOTE 9 DEFINED BENEFIT PENSION PLAN (CONTINUED)**

Based on the above assumptions and methods, the projection test indicates the SDTF's fiduciary net position was projected to be depleted in 2039 and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25 percent on pension plan investments was applied to periods through 2039 and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Board of Governors of the Federal Reserve System, was applied to periods on and after 2039 to develop the discount rate. For the measurement date, the municipal bond index rate was 3.86 percent, resulting in a discount rate of 5.26 percent.

As of the prior measurement date, the projection test indicated the SDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments of 7.50 percent was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination did not use a municipal bond index rate and the discount rate was 7.50 percent, 2.24 percent higher compared to the current measurement date.

*Sensitivity of the Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate*

The following presents the proportionate share of the net pension liability calculated using the discount rate of 5.26%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (4.26%) or one percentage-point higher (6.26%) than the current rate:

	1% Decrease (4.26%)	Current Discount Rate (5.26%)	1% Increase (6.26%)
Proportionate Share of the Net Pension Liability	\$ 43,644,197	\$ 35,237,801	\$ 28,331,299

*Pension Plan Fiduciary Net Position:* Detailed information about the SDTF's fiduciary net position is available in PERA's comprehensive annual financial report, which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

Defined Contribution Retirement Plan (DC Plan)

*Plan Description*

Employees of the State of Colorado that were hired on or after January 1, 2006 and employees of certain community colleges that were hired on or after January 1, 2008 which were eligible to participate in the SDTF, a cost-sharing multiple-employer defined benefit pension plan, have the option to participate in the SDTF or the Defined Contribution Retirement Plan (PERA DC Plan). The PERA DC Plan is an Internal Revenue Code Section 401(a) governmental profit-sharing defined contribution plan. Title 24, Article 51, Part 15 of the C.R.S., as amended, assigns the authority to establish Plan provisions to the PERA Board of Trustees. The DC Plan is also included in PERA's comprehensive annual financial report as referred to above.

All participating State Troopers are required to contribute 10.00 percent of their PERA-includable salary and the State of Colorado is required to contribute 12.85 percent of PERA-includable salary on behalf of these employees. Contribution requirements are established under Title 24, Article 51, Section 1505 of the C.R.S., as amended. Participating employees of the PERA DC Plan are immediately vested in their own contributions and investment earnings and are immediately 50 percent vested in the amount of employer contributions made on their behalf. For each full year of participation, vesting of employer contributions increases by 10 percent. Forfeitures are used to pay expenses of the PERA DC Plan in accordance with PERA Rule 16.08 as adopted by the PERA Board of Trustees in accordance with Title 24, Article 51, Section 204 of the C.R.S. As a result, forfeitures do not reduce pension expense. Participating employees in the PERA DC Plan contributed \$13,060,000 and the State of Colorado recognized pension contributions of \$10,382,000 for the PERA DC Plan.

**401(k) Defined Contribution Plan**

*Plan Description*

Employees of the Division that are also members of the SDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S., as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. *Funding Policy*

The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. Employees are immediately vested in their own contributions.

457 Deferred Compensation Plan

The PERA Deferred Compensation Plan (457) was established July 1, 2009, as a continuation of the State's deferred compensation plan which was established for state and local government employees in 1981. At July 1, 2009, the State's administrative functions for the 457 plan were transferred to PERA, where all costs of administration and funding are borne by the plan participants. In calendar year 2016, participants were allowed to make contributions of up to 100 percent of their annual gross salary (reduced by their 8 percent PERA contribution) to a maximum of \$18,000. Participants who are age 50 and older, and contributing the maximum amount allowable were allowed to make an additional \$6,000 contribution in 2016. Special 457(b) catch-up contributions allow a participant for 3 years prior to the normal retirement age to contribute the lesser of (1) Twice the annual limit (\$36,000 in 2015, 2016, and 2017), or (2) The basic annual limit plus the amount of the basic limit not used in prior years (only allowed if not using age 50 or over catch-up contributions). Contributions and earnings are tax deferred. At December 31, 2016, the plan had 17,921 participants.

The Division made contributions to other retirement plans totaling \$59,875 and \$59,982 during Fiscal Year 2017 and 2016, respectively.

**NOTE 11 OTHER POST EMPLOYMENT BENEFITS**

Health Care Trust Fund

*Plan Description*

The Division contributes to the Health Care Trust Fund ("HCTF"), a cost-sharing multiple-employer healthcare trust administered by PERA. The HCTF benefit provides a health care premium subsidy and health care programs (known as PERACare) to PERA participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the C.R.S., as amended, establishes the HCTF and sets forth a framework that grants authority to the PERA Board to contract, self-insure and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of health care subsidies. PERA issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the HCTF. That report can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Funding Policy*

The Division is required to contribute at a rate of 1.02% of PERA-includable salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the Division are established under Title 24, Article 51, Part 4 of the C.R.S., as amended. The apportionment of the contributions to the HCTF is established under Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended. For the years ending June 30, 2017, 2016 and 2015, the Division contributions to the HCTF were \$53,524, \$54,363, and \$53,704, respectively, equal to their required contributions for each year.

**NOTE 12 RISK MANAGEMENT**

The Division participates in the Risk Management Fund. Agency premiums are based on an assessment of risk exposure and historical experience. Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claim liabilities depend on such complex factors as inflation, change in legal doctrines and damage awards, the process used in computing claim liabilities does not necessarily result in an exact amount. Claim liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors.

There were no significant reductions or changes in insurance coverage from the prior year. Settlements did not exceed insurance coverage in any of the past three fiscal years.

**NOTE 13 RELATED-PARTY TRANSACTIONS**

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Members of the Legislative Audit Committee  
Division of Gaming, Department of Revenue, State of Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the Limited Gaming Fund and Extended Limited Gaming Fund, special revenue funds of the Division of Gaming, Department of Revenue, State of Colorado (the Division), as of and for the year ended June 30, 2017, and the related notes to the financial statements and have issued our report thereon dated November 29, 2017.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Division's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Division's internal control. Accordingly, we do not express an opinion on the effectiveness of the Division's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Division's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## REQUIRED AUDITOR COMMUNICATIONS TO THE LEGISLATIVE AUDIT COMMITTEE

Members of the Legislative Audit Committee  
Division of Gaming, Department of Revenue, State of Colorado

We have audited the financial statements of the Limited Gaming Fund and Extended Limited Gaming Fund, special revenue funds of the Division of Gaming, Department of Revenue, State of Colorado (the Division), as of and for the year ended June 30, 2017, and the related notes to the financial statements. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated November 29, 2017. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Findings

#### ***Qualitative Aspects of Accounting Practices***

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Division are described in Note 1 to the financial statements.

No new accounting policies were adopted and the application of existing policies was not changed during the year ended June 30, 2017.

We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

#### **Accounting estimates**

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no accounting estimates affecting the financial statements which were particularly sensitive or require substantial judgments by management.

Financial statement disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There were no particularly sensitive financial statement disclosures.

The financial statement disclosures are neutral, consistent, and clear.

**Difficulties Encountered in Performing the Audit**

We encountered no significant difficulties in dealing with management in performing and completing our audit.

**Uncorrected misstatements**

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management did not identify and we did not notify them of any uncorrected financial statement misstatements.

**Corrected misstatements**

Management did not identify and we did not notify them of any financial statement misstatements detected as a result of audit procedures.

**Disagreements with Management**

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

**Management Representations**

We have requested certain representations from management that are included in the management representation letter dated November 29, 2017.

**Management Consultations with Other Independent Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

**Other Audit Findings or Issues**

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

**Other Matters**

With respect to the required supplementary information (RSI) accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the RSI to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the RSI is appropriate and complete in relation to our audit of the financial statements. We compared the RSI for consistency with management's responses to the foregoing inquiries, the basic financial statements, and other knowledge obtained during the audit of the basic financial statements. Because these limited procedures do not provide sufficient evidence, we did not express an opinion or provide any assurance on the RSI.

**Restriction on Use**

This communication is intended solely for the use of Members of the Legislative Audit Committee and management of Division of Gaming, Department of Revenue, State of Colorado and is not intended to be, and should not be, used by anyone other than these specified parties. However, upon release by the Legislative Audit Committee, this report is a public document.
