### ADDITIONAL RESOURCES

Brief summaries of all bills that passed during the 2023 legislative sessions that had a fiscal impact on this department are available in Appendix A of the annual Appropriations Report: <a href="https://spl.cde.state.co.us/artemis/gaserials/ga39internet/ga39202324internet.pdf">https://spl.cde.state.co.us/artemis/gaserials/ga39internet/ga39202324internet.pdf</a>

The online version of the briefing document, which includes the Numbers Pages, may be found by searching the budget documents on the General Assembly's website by visiting <a href="leg.colorado.gov/content/budget/budget-documents">leg.colorado.gov/content/budget/budget-documents</a>. Once on the budget documents page, select the name of this department's *Department/Topic*, "Briefing" under *Type*, and ensure that *Start date* and *End date* encompass the date a document was presented to the IBC.

### DEPARTMENT OF AGRICULTURE

### DEPARTMENT OVERVIEW

The Department of Agriculture has six divisions. A brief description of each division and its associated responsibilities is provided below.

The **COMMISSIONER'S OFFICE AND ADMINISTRATIVE SERVICES DIVISION** provides administrative and technical support for department divisions and programs, including accounting, budgeting, human resources, communications, information technology, and legislative coordination functions.

**AGRICULTURAL SERVICES** consists of the following program areas:

- Animal Industry Division, also known as the Animal Health Division, provides oversight for
  the prevention and control of livestock diseases, operation of the Rocky Mountain Regional
  Animal Health Laboratory, implementation of pest control, licensing and inspection of pet care
  facilities, and investigations of animal cruelty claims.
- Inspection and Consumer Services Division (ICS) provides metrology and regulatory laboratory services including content analysis of feeds, fertilizers, groundwater, and pesticides. Additionally, ICS inspects anhydrous ammonia tanks, eggs, grain warehouses, agricultural commodity handlers and dealers, door-to-door sales companies, custom meat processors, and small and large weighing and measuring devices.
- *Plant Industry Division* is responsible for organic certification, nursery stock inspection, produce inspection, certification of plant and seed exports, seed inspection and certification, commercial and private pesticide applicator testing and licensing, and inspection of pesticide product records and labels.
- Conservation Services Division operates the biological pest control program, the Palisade insectary, noxious weed and weed free forage programs, the groundwater protection program, and the chemigation permitting and inspection program. The Division also encourages the development of renewable energy and energy efficiency projects through grants.

The **AGRICULTURAL MARKETS DIVISION** promotes Colorado's agricultural products and services to domestic and international markets, provides export assistance, and develops value-added business ventures. The Markets Division is also responsible for promoting Colorado's wine industry, administering the Colorado Proud brand, and operating the agricultural products inspection program.

Established in 1865, the **Brand Board** annually inspects and verifies the ownership of approximately 4 million head of livestock at sale barns, slaughterhouses, and export sites to protect producers and buyers from fraud and theft of livestock. The Brand Board also investigates reported livestock theft, maintains brand records, and licenses livestock sales barns, processing plants, and

alternative livestock farms. It will also serve as a resource to assist in criminal prosecutions against individuals accused of livestock theft.

The **COLORADO STATE FAIR AUTHORITY** is responsible for planning and operating the 11-day state fair held at the end of August and beginning of September, and coordinates special events utilizing its facilities that occur on the fairgrounds throughout the year.

The **CONSERVATION BOARD** provides administrative and financial assistance and competitive grants to the state's 78 conservation districts. The Conservation Board also works with districts on noxious weed management, groundwater protection, biological pest control, and erosion prevention projects.

### DEPARTMENT BUDGET: RECENT APPROPRIATIONS

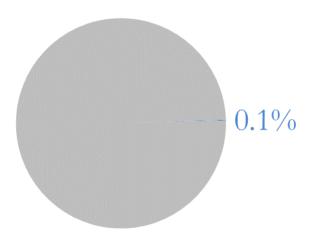

| Funding Source         | FY 2021-22   | FY 2022-23   | FY 2023-24   | FY 2024-25 * |
|------------------------|--------------|--------------|--------------|--------------|

| Revenue from<br>marijuana and<br>hemp-related<br>sources | 3,483,672 2           | Taxes on retail marijuana (see Marijuana Tax briefing) and fees pertaining to registration, inspection, and compliance testing for industrial hemp cultivation.   | Hemp-related research, outreach, and industry development, and 4-H and Future Farmers of America youth programs.  |
| Agriculture<br>management cash<br>fund (AMF)             | 2,895,790             | Sale of inspection and consumer services facilities and warehouse and storage facilities, and interest from the Unclaimed Property Tourism Promotion Trust Fund [Section 35-1-106, C.R.S.]                    | Funding for the agricultural efforts approved by the Commissioner, including grant assistance for conservation districts and office consolidation.  |
| Division of Animal<br>Industry cash funds                | 1,285,367             | Fees and proceeds related to animal sales, vaccine supplies and services, pet animal care facilities, aquaculture, diseased livestock, and cervidae diseases.   | Costs associated with implementing, administering, and enforcing related activities.  |
| Agriculture value-<br>added cash fund                    | 512,242               | Public or private gifts, grants, or donations received by the Colorado Agricultural Value-Added Development Board [Section 35-75-205, C.R.S.]   | Financial or technical assistance to agricultural projects, project concepts, and research.   |
| Conservation district grant fund                         | 350,000               | Severance Tax: State tax on oil, gas, and other mining activities deposited the Operational Account of the Severance Tax Trust Fund (see Department of Natural Resources briefing) [Section 35-1-106, C.R.S.] | Grants for conservation districts to perform soil and water conservation activities.  |
|  |                       |   |   |

\_

<sup>&</sup>lt;sup>1</sup> Statute intended for the fund to be an enterprise and TABOR exempt, but historically it has been disqualified from enterprise status due to its operating losses and high reliance on funding from state and local governments. The Department has indicated that it is continuing to evaluate options to help the fund move towards enterprise status.

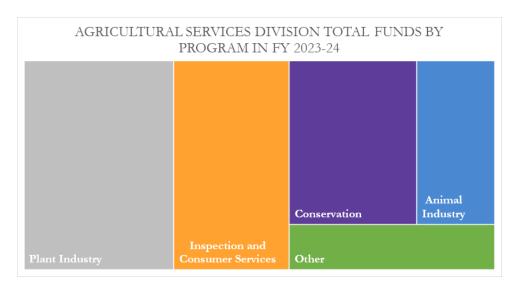

<sup>&</sup>lt;sup>2</sup> Includes \$2,138,015 of funds from the Marijuana Tax Cash Fund that are exempt from the TABOR revenue limit.

### GENERAL FACTORS DRIVING THE BUDGET

Two major factors drive the Department's annual budget: (1) The majority of agricultural services provided by the Department are provided by the Agricultural Services Division, which is the Division that comprises the largest share of the Department's total funds. (2) The Agriculture Management Fund is one of the Department's cash funds with the largest ending balance and includes approximately \$2 million in annual discretionary spending determined by the Commissioner.

### AGRICULTURAL SERVICES DIVISIONS

The Divisions of Plant Industry, Inspection and Consumer Services, Conservation Services, and Animal Industry make up the majority of the agricultural services provided by the Department and make up the bulk of funding to the Agricultural Services Division.

Agricultural services accounts for 32.5 percent of the Department's total appropriation in FY 2023-24, including 32.6 percent of the Department's total General Fund appropriation and 30.1 percent of the of the Department's total cash fund appropriation. The primary source of funding for the division is cash fund revenue from various license and inspection fees. Each program has dedicated cash funds that provide the Department with the revenue to carry out their various tasks (i.e., in FY 2023-24, 48.4 percent of the appropriation for the Inspection and Consumer Services Division was funded by the Inspection and Consumer Services Cash Fund). The following table outlines the Agricultural Services Division's share of the Department's totals from FY 2018-19 through the FY 2024-25 request.

| Agricultural Services Divisions (ASD) 7-year Funding History |              |              |              |              |              |              |              |

|  | ACTUAL       | Actual       | Actual       | Actual       | ACTUAL       | Appropriated | REQUESTED    |
| ASDs Total   | \$19,129,418 | \$18,278,051 | \$24,656,081 | \$20,630,163 | \$23,302,286 | \$21,967,698 | \$26,254,618 |
| Department   |              |              |              |              |              |              |              |
| Total  | 49,787,694   | 55,738,636   | 101,813,584  | 59,788,045   | 70,229,537   | 67,669,486   | 81,475,662   |
| Percent of   |              |              |              |              |              |              |              |
| Department   | 38.4%        | 32.8%        | 24.2%        | 34.5%        | 33.2%        | 32.5%        | 32.2%        |

### AGRICULTURE MANAGEMENT FUND

The Agriculture Management Fund (AMF) was created by H.B. 08-1399 (Ag Unclaimed Property Trust Fund Interest), which authorized the transfer of the interest earned on the Unclaimed Property Tourism Promotion Trust Fund (UPTPF) to the AMF. At the Commissioner's discretion, the AMF supports projects and programs in various divisions. Because the fund's revenue is not fee based, the AMF is not subject to the 16.5% excess uncommitted fee reserve balance pursuant to Section 24-75-402, C.R.S.

### **FUND USES**

In the FY 2024-25 request, the majority of AMF appropriations, or approximately \$2 million, are made at the discretion of the Commissioner through the AMF line item. Outside of this line item, new AMF expenditures are expected to be directed at the Department's R6 request for funds to support centralized services offered by the Commissioner's Office, as well as centrally appropriated line items. However, these items account for only \$35,833, or 1.2 percent of the total request from the AMF.

### REVENUE SOURCES AND FINANCIAL TRENDS

The table below outlines the AMF's annual cash flow beginning in FY 2015-16 and represents a "point-in-time" observation of the fund. The Department allowed the fund balance in the AMF to grow for several years anticipating capital costs while consolidating many of its offices to the one in Broomfield, which contributed to an increase in annual expenditures. This increase was balanced by the large revenue increase in FY 2018-19, which is attributed to the AMF's statutory authorization to retain proceeds from the disposition of two properties: (1) the warehouse located at 5000 Packing House Road in Denver, which was sold in FY 2017-18 for approximately \$650,000; and (2) the inspection and consumer services lab, which sold for \$7.0 million in August 2018. In addition to proceeds from the disposition of two properties, the AMF receives funds through interest transfers from the UPTPF that began in FY 2008-09. Statute allocates 65.0 percent of the interest from the UPTPF to the Agriculture Management Fund to be used for agricultural purposes and staff, pursuant to Section 38-13-801.5, C.R.S.

The estimated FY 2024-25 end-of-year balance of the AMF is \$5.4 million. The AMF has received, on average, \$3.2 million annually since FY 2015-16, and in most years the fund has generated more revenue than it has spent.

R1 AGRICULTURAL EMERGENCY MANAGEMENT RESILIENCE: The FY 2024-25 request includes an increase of \$363,018 General Fund and 2.7 FTE in order to hire three Emergency Preparedness and Communications Specialists. This annualizes to \$371,328 and 3.0 FTE ongoing. These positions will specialize in training, logistics, and planning, in addition to providing regional on-the-ground support during emergencies such as wildfire, flooding, severe winter weather, and animal disease. The Department indicates that this request is theory-informed per S.B. 21-284.

**R2 DIVISION OF ANIMAL WELFARE [REQUIRES LEGISLATION]:** The FY 2024-25 request includes \$741,628 General Fund and 3.6 FTE in order to establish a Division of Animal Welfare intended to create operational efficiencies by aligning two existing programs in the Animal Industry Division, and support future animal welfare initiatives. In addition to the restructuring of existing programs, the request also includes hiring four additional staff to support the growing program (Managing Director, two Education and Outreach Specialists, and an Administrative Assistant). This request annualizes to \$664,135 General Fund and 4.0 FTE ongoing. Finally, the request includes a funding realignment by shifting the following funds to the Division of Animal Welfare: Animal Protection Fund, Dangerous

Dog Cash Fund, and General Fund currently appropriated to the two programs that are proposed to be consolidated (Bureau of Animal Protection and Pet Animal Care and Facilities Act programs).

The request also includes a footnote for the Animal Protection Fund that would allow the fund to be continuously appropriated in order to streamline the process to allow for funds to be expended in alignment with court decisions. However, current statute Section 35-41-113, C.R.S. requires annual appropriation for the Animal Protection Fund and prohibits appropriation for personal services.

The Department indicates that this request is theory-informed per S.B. 21-284. **A briefing issue on this request is included later in this document.** 

**R3 RENEWABLE ENERGY ADAPTATION AND DEVELOPMENT:** The FY 2024-25 request includes \$931,656 General Fund and 1.9 FTE in order to (1) fund an existing grant program with \$700,000 and (2) expand the Agricultural Drought and Climate Resilience Office's (ADCRO) programming by hiring a Program Manager and Grants Specialist. **This is a back-fill request that also includes expansion of the current program.** The request annualizes to \$932,426 General Fund and 2.0 FTE ongoing, and will fund existing programming within the office that is currently supported by stimulus funding from the General Fund that is anticipated to be fully utilized by the end of FY 2023-24.

The Department also seeks roll forward authority on the appropriation in order to facilitate the grants across multiple years.

The Department indicates that this request is theory-informed per S.B. 21-284. A briefing issue on this request is included later in this document.

**R4 GENERAL FUND OPERATIONAL INCREASE:** In order to address recent increases in operating expenses due to inflation, the request includes \$195,000 General Fund in FY 2024-25 and ongoing, including \$65,000 for the International Markets programs, \$85,000 for the Colorado Proud program, and \$45,000 for the Colorado State Conservation Board program. The Department indicates that this request is theory-informed per S.B. 21-284.

**R5 OPERATIONAL CASH FUND INCREASE:** The request includes a cash fund spending authority increase of \$3,174,718 across six cash funds in FY 2024-25 and ongoing in order to adjust for rising costs due to inflation. This total is comprised of a 13.5% spending authority increase in each of the following cash funds: Plant Industry Division, Inspection and Consumer Services, Conservation Services Division, Agriculture Products Inspection Fund, Brands Division, and Colorado State Fair. With the exception of the State Fair Authority Cash Fund, these cash funds have not seen an operating increase in at least a decade.

**R6 COMMISSIONER'S OFFICE INDIRECT COST ASSESSMENT:** In order to pay for increased centralized services provided by the Commissioner's Office, the FY 2024-25 request includes \$700,000 in reappropriated funds and a corresponding spending authority increase in indirect cost assessment lines that are funded by \$612,358 in cash funds and \$87,642 in federal funds. The Department indicates that this request is theory-informed per S.B. 21-284.

**R7 NEXT GEN/AG LEADERSHIP PROGRAM:** The FY 2024-25 request includes \$451,021 General Fund and 0.7 FTE, and \$444,021 and 0.7 FTE ongoing in order to expand the Agriculture Workforce

Development and Next Generation Agriculture Leadership programs. The Department indicates that this request is theory-informed per S.B. 21-284.

**R8 RURAL MENTAL AND BEHAVIORAL HEALTH GRANT PROGRAM:** The request includes a one-time appropriation of \$550,020 General Fund and 0.25 FTE to support the existing Rural Mental Health Grant program within the Department, with a long-term goal of transferring this function to the Behavioral Health Administration. Previously, the grant program was funded by a 2020 federal grant and 2022 Long Bill footnote. The Department also seeks roll forward authority for two years on the appropriation in order to facilitate the grants across multiple years.

The Department indicates that this request is theory-informed per S.B. 21-284.

**R9 Workforce Services:** The FY 2024-25 request includes \$289,788 General Fund and 1.8 FTE, and \$294,730 and 2.0 FTE ongoing to hire two regional coordinators in an effort to expand the Agricultural Worker Services Program, help agricultural employers attract employees, and improve employer compliance with existing labor laws. The Department indicates that this request is theory-informed per S.B. 21-284.

**R10 BUSINESS OPERATIONS PROCESS IMPROVEMENTS:** The FY 2024-25 request includes a one-time General Fund increase of \$207,009 with three-year spending authority in order to install a human resources and business operations IT solution within OnBase, the Department's data management system. Ongoing licensing costs of approximately \$10,000 are proposed to be absorbed as part of Common Policy expenses. The Department indicates that this request is theory-informed per S.B. 21-284.

R11 HEMP CENTER OF EXCELLENCE: The FY 2024-25 request includes \$1.5 million cash funds from the Marijuana Tax Cash Fund that increases to \$3.4 million in subsequent years through FY 2027-28 in order to establish a Colorado Hemp Center of Excellence. The proposed center would be established in partnership with Colorado State University and include seven new FTE (not included in this request) to lead and conduct research at the university, a state industrial hemp conference, increased marketing, equipment for hemp-related research, and grants to the hemp industry. A briefing issue on this request is included later in this document.

**CENTRALLY APPROPRIATED LINE ITEMS:** The request includes adjustments to centrally appropriated line items for the following line items.

| CENTRALLY APPROPRIATED LINE ITEMS       |                |                 |               |                  |     |

**INDIRECT COST ASSESSMENT:** The request includes a net increase of \$14,884 total funds to indirect costs across the Department. This includes a \$2,669 increase in cash funds and \$12,919 increase in federal funds alongside a \$704 decrease in reappropriated funds.

**ANNUALIZE PRIOR YEAR ACTIONS:** The request includes a net decrease of \$1.8 million in total funds to reflect the FY 2024-25 impact of prior year budget actions and legislation, summarized in the following table. The majority of the decrease, approximately \$1.7 million, is attributed to prior year budget actions.

| Annualize Prior Year Actions               |               |               |             |                |       |  |

### ISSUE 1: R2 DIVISION OF ANIMAL WELFARE

The FY 2024-25 request includes \$741,628 General Fund and 3.6 FTE in order to create a Division of Animal Welfare that will align two existing programs and prepare the Department to support future animal welfare initiatives. The two programs proposed for consolidation already exist within the same Division, but the Department has indicated that the alignment will create additional operational efficiencies. The Department is proposing to create the new Division through statute, which will require legislation. Furthermore, the request includes a footnote to allow the Animal Protection Fund to be continuously appropriated whereas statute states that the general assembly shall make annual appropriations from the fund to the Department, pursuant to Section 35-42-113, C.R.S.

### SUMMARY

- In September 2023, the Pet Animal Care and Facilities Act (PACFA) program moved under the Animal Industry Division in order to align with the Bureau of Animal Protection (BAP) program, which is also within the Animal Industry Division.
- The BAP and PACFA programs have grown by 3.0 FTE since 2020, but administration and management has been absorbed by the Animal Industry Division as a whole and faced capacity challenges. This request includes four administrative, management, and outreach staff for the new Division.
- The Governor's Office has included a FY 2024-25 legislative placeholder for \$500,000 General Fund to promote equine welfare and fund licensure, regulatory, and grant programs that would be administered through the proposed Division of Animal Welfare.

### DISCUSSION

### BACKGROUND

Established in 1994, the PACFA program licenses and inspects all pet animal care facilities and businesses in Colorado and typically issues over 2,200 licenses and completes 3,000 inspections annually. The program is currently managed by a program manager with an administrative assistant and eight inspectors.

The BAP, created by the Animal Protection Act of 1990, supports local law enforcement agencies in conducting animal cruelty and neglect investigations. The program currently has three full-time staff members: a program manager, lead investigator, and veterinarian. During the 2023 legislative session, the program received additional funding to hire another investigator and a mental health contractor. Unlike the PACFA program, the BAP does not currently have staff dedicated to administrative assistance or outreach and education.

| CURRENT AND PROPOSED STAFF FOR THE BAP AND PACFA PROGRAMS |   |   |  |  |  |
|---|---|---|--|--|--|
| PROGRAM   | CURRENT FTE   | PROPOSED FTE INCREASE                             |  |  |  |
| PACFA   | 10.0 (section chief, eight inspectors, one licensing and education administrator) | 4.0 (managing director, administrative assistant, |  |  |  |
| BAP   | 4.0 (program manager, veterinarian, and two investigators)                        | two outreach and education specialists)           |  |  |  |

Prior to 2021, both the PACFA and BAP programs were in the Animal Industry Division. In FY 2021-22, in order to create efficiencies and support statewide budget balancing needs, the PACFA program was moved to the Inspection and Consumer Services Division and administered alongside other inspection programs. In September 2023, the PACFA program moved back to the Animal Industry Division, which is also where the BAP program is currently located. This most recent move was completed in order to help the programs better collaborate. However, the programs have since faced capacity challenges due to limited management and support staff.

### PREVIOUS DEPARTMENTAL REQUESTS

Over the past five years, both the BAP and PACFA programs have received additional funding to support growing program needs. This includes an additional 3.0 FTE ongoing and one-time funding to hire a contractor to develop PACFA educational materials.

| FIVE-YEAR HISTORY: NEW FUNDING RECEIVED FOR BAP AND PACFA PROGRAMS |         |                        |                                      |     |  |  |  |
|--|---------|------------------------|--------------------------------------|-----|--|--|--|
| YEAR   | PROGRAM | AMOUNT                 | FUND SOURCE                          | FTE | PURPOSE  |  |  |
| FY 2020-21   | PACFA   | \$77,050<br>(one-time) | Pet Animal Care<br>and Facility Fund | 0.0 | To hire a contractor to develop a qualifying education course and continued competency requirement for PACFA licensure.          |  |  |
| FY 2022-23   | BAP     | 286,715                | General Fund                         | 1.8 | To hire a veterinary forensic specialist and BAP agent, and establish a statewide veterinary network.                            |  |  |
| FY 2023-24   | BAP     | 163,505                | General Fund                         | 1.0 | To hire a full-time investigator and a social service and mental health contractor, and operational funding for a fleet vehicle. |  |  |

Prior to the beginning of the BAP program expansion in 2022, one person had overseen the entire program, including case management, training and oversight of 89 credentialed BAP agents, consultation with the state veterinarian, media engagement, and partnerships with local law enforcement. On average, the program received 97 complaints reporting animal mistreatment or neglect per year.

Over the past 18 months, the number of complaints reported to the program increased to 334. With the support of additional staff, the BAP program has also been able to collect additional data on its activities, which include 267 times when the program responded to law enforcement's need for assistance or guidance and 81 times when a BAP investigator was sent into the field. As part of the transition to a new Division, the Department also plans to expand the existing PACFA database for

regulatory investigations to include the BAP program in order to increase system security and improve data tracking capabilities.

### FY 2024-25 LEGISLATIVE PLACEHOLDERS

In addition to aligning two existing programs, the Department intends for the Division of Animal Welfare to support future initiatives pertaining to animal welfare. This includes potential legislation that would appropriate \$500,000 General Fund to support equine welfare through an equine licensure act, regulatory program, and grants for equine rescue, sanctuary, and retirement facilities.

### POINTS TO CONSIDER

- Why is the existing, recent alignment under the Animal Industry Division not sufficient to allow for the identified operational efficiencies?
- What is the demand for PACFA's current continuing education courses? Has it changed inspection outcomes or outcomes for animals in facilities?
- Would the request be more appropriately funded with a partial contribution from the Pet Animal Care and Facility Fund, similar to the Department's FY 2020-21 request pertaining to the development of educational materials for the PACFA program?
- Regarding the footnote for the Animal Protection Fund statute states that the general assembly shall make annual appropriations from the fund to the Department, which appears to contradict the proposed footnote. Please explain why the Department is proposing continuous appropriation of this fund and whether the Department is pursuing legislation that would authorize the continuous appropriation.

### ISSUE 2: R11 HEMP CENTER OF EXCELLENCE

The FY 2024-25 request includes \$1,467,847 cash funds from the Marijuana Tax Cash Fund that increases to \$3,393,110 in subsequent years through FY 2027-28 in order to establish a Colorado Hemp Center of Excellence (CHCoE). The center would focus on research and innovation and the development and promotion of the hemp industry in Colorado, in an effort to allow Colorado to remain at the forefront of the U.S. hemp industry, which has recently declined. Additionally, while the Department has plans to secure long-term funding through grants, gifts, and fee-for-service activities, the proposed back-up funding plan is to request funding through the annual budget process.

### **SUMMARY**

- The U.S. Department of Agriculture's 2018 Farm Bill authorized the production of hemp and removed hemp and hemp seeds from the federal list of controlled substances. In response, a statewide partnership of state and local governments, industry experts, higher education institutions, and tribal leaders drafted a Colorado Hemp Advancement and Management Plan (CHAMP), which includes the development of a Colorado Hemp Center of Excellence.
- A June 2021 strategic plan for the CHCoE, funded by a budget amendment in FY 2020-21, highlights state funding as the main source of initial funding to stand up the center of excellence.
- The Department indicates that the designation as a "center of excellence" would help to attract additional federal funding to increase existing hemp research and development initiatives.

### **DISCUSSION**

### BACKGROUND

Since 2014, the Department has operated an industrial hemp program, authorized through Title 35, Article 61, C.R.S., which now also includes a certified seed program. At the time, hemp production and research was limited by federal regulations and entities needed a permit from the U.S. Drug Enforcement Administration in order to grow hemp.

The 2018 Agricultural Improvement Act, also known as the Farm Bill, loosened the existing restrictions and authorized the production of hemp while also removing hemp and hemp seeds from the list of controlled substances. In response, S.B. 18-235 (Colorado Industrial Hemp Research and Development Authority) created a task force and required the Department to prepare a report that evaluated and made recommendations on whether to create an authority to promote educational, research, and development programs and collaborative efforts concerning industrial hemp. The task force specifically recommended further evaluation of the structure and funding plan for a Hemp Center of Excellence. In FY 2020-2021, the Department hired a contractor to develop a strategic plan for the implementation of a Colorado Hemp Center of Excellence, which included organizational, governance, and funding considerations for the center. The Department's current proposal is to fund, create, and operate the center through a cooperative agreement with Colorado State University.

While many agricultural focused research centers and centers of excellence exist across the country, only a handful of centers are focused specifically on hemp. Established in 2019, the Global Hemp Innovation Center at Oregon State University is the only institute specifically designated as a center of excellence. California, Kentucky, Washington, and Vermont have broader research centers dedicated to hemp research. The CHCoE would allow Colorado to join the small number of states with a dedicated hemp research center. While Colorado does not yet have a hemp-focused center of excellence, the state does have a broader Institute of Cannabis Research established in 2016 at Colorado State University – Pueblo.

The Institute of Cannabis Research was established through a statutory change (Sec. 23-31.5-112, C.R.S.) and the 2021 Hemp Center of Excellence strategic plan suggests a similar pathway for the creation of the CHCoE. However, the Department does not believe statutory changes or additional statutory authority is needed for this request, since industrial hemp research is an allowable use of the Marijuana Tax Cash Fund and the Department may enter into cooperative agreements with any agency or political subdivision of the state (including Colorado State University), pursuant to Section 35-61-106(3), 35-61-113(4), and 39-28.8-501, C.R.S.

### INDUSTRIAL HEMP IN COLORADO

Hemp, as defined by state and federal law, consists of *Cannabis* plants, plant parts, or derivatives with less than 0.3% THC by dry weight (Title 35, Article 61, C.R.S.). Today, industrial hemp is cultivated and processed for fiber, seed, and cannabidiol (CBD). Prior to the 2018 Farm bill, hemp was illegal to grow in the country for almost fifty years. Since then, the act allowed for hemp research and loosened restrictions on hemp production across the country.

As the first state to establish a hemp industry regulatory structure, Colorado rapidly developed into the state with the largest number of acres under hemp cultivation in the nation. From 2014 to 2019, active registrants and registered acres of hemp production grew almost exponentially year over year.

|      | CDA HEMP PR           | OGRAM INDICATORS | (2014-2020) |                       |
|------|-----------------------|------------------|-------------|-----------------------|
| YEAR | ACTIVE<br>REGISTRANTS | REGISTERED ACRES | FTE         | Annual<br>Expenditure |
| 2014 | 131                   | 1,811            | N/A         | N/A                   |
| 2015 | 166                   | 3,657            | N/A         | \$322,863             |
| 2016 | 312                   | 8,988            | 4.2         | 402,766               |
| 2017 | 404                   | 12,348           | 4.4         | 485,425               |
| 2018 | 872                   | 30,080           | 4.7         | 492,407               |
| 2019 | 1,947                 | 88,743           | 7.0         | 573,547               |
| 2020 | 981                   | 36,225           | 7.0         | 476,792               |

Note: The hemp program shared staff/budget with the Plant Industry Division in 2014-2015.

Source: Colorado Department of Agriculture

U.S. hemp production, measured by acres of hemp cultivation, has followed a similar trend and grew exponentially until 2019. However, since 2019, the acres of hemp cultivation across the nation has decreased to less than 15% of the 2019 peak.<sup>3</sup>

<sup>&</sup>lt;sup>3</sup> Daniel F. Mooney and Rebecca Hill, "Hemp Value Chains at Ten Years", Regional Economic Development Institute at Colorado State University, August 2023, <a href="https://csuredi.org/redi\_reports/hemp-value-chains-at-ten-years/">https://csuredi.org/redi\_reports/hemp-value-chains-at-ten-years/</a>.

According to the 2021 Hemp Center of Excellence five-year strategic plan, the role of the proposed CHCoE would include conducting comparative and translational research to explore the potential for the growth of a U.S. market for hemp and demonstrate what makes hemp special.

### HEMP-RELATED RESEARCH

Since 2015, Colorado State University (CSU) has brought in over \$1 million in hemp-related grant dollars, which have covered research on topics including pest management, health impacts, water management and use, economic impacts, disease mitigation, and farm scale production costs. According to the National Institute of Food and Agriculture (NIFA), CSU has received \$1.5 million in grant funding for hemp-related education and research since 2019. Colorado has also received grants from Colorado-based organizations and private organizations. In general, these grants for hemp-related research have ranged from \$5,000 to over \$300,000.

In addition to hemp research at CSU in Fort Collins, CSU – Pueblo is home to an Institute of Cannabis Research. The Institute is focused on conducting research related to cannabis, including clinical research, biotechnologies, the efficacies of medical marijuana, and economic development associated with cannabis in Colorado. Established in 2016, the Institute has since received annual appropriations of \$1.0 to 3.8 million from the Marijuana Tax Cash Fund in order to conduct research, produce an annual symposium, and pay for routine facility and administrative costs. The annual symposium is well-attended. In 2023, the sixth annual Cannabis Research Conference generated a profit and sold out of physical space.

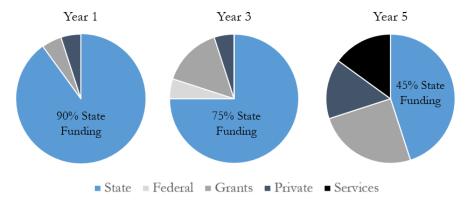

### FUNDING EXAMPLES AND LONG-TERM OPPORTUNITIES

The Department's five-year CHCoE strategic plan highlights a need for primarily state funding to create the center. The Department has requested four years of funding (through July 1, 2028) from the Marijuana Tax Cash Fund, with a long-term goal of securing funding through potential gifts, donations, or fee-for-service (e.g., payments for attending educational courses or fees to access to educational resources) activities. If the CHCoE is unable to secure these additional funding sources, the Department plans to utilize the annual budget process to request additional funding.

The Marijuana Tax Cash Fund may be used to research, regulate, study, and test industrial hemp or hemp seeds, pursuant to Section 39-28.8-501, C.R.S. Additionally, the Department has an Industrial Hemp Registration Program Cash Fund that receives up to \$10 million annually from the Marijuana Tax Cash Fund. This funding is subject to annual appropriations and may be used by the Department to establish and administer an industrial hemp research grant program and to conduct hemp research, pursuant to Section 35-61-106, C.R.S.

Over the next five years, as the CHCoE pursues additional grant, gift, and other funding sources, the Department plans to reduce the proportion of the center's funding that comes from state sources.

### PROPORTION OF STATE FUNDING IS PROJECTED TO DECREASE OVER TIME

Source: adapted from Colorado Department of Agriculture's five-year Hemp Center of Excellence strategic plan

While the proportion of the center's funding that comes from state sources is projected to decrease, the amount of total funding to support the center is projected to increase as the center grows. For example, in one funding scenario, the total funding for the center would increase from \$3.5 million in Year 1 to \$5 million in Year 5. Accordingly, the *proportional* amount of state funding may decrease, but the *total* amount of state funding needed may not decrease as substantially as expected.

The operating budget for existing centers of excellence has varied. For example, the Oregon State University Global Hemp Innovation Center was initially funded as part of a federal agricultural spending bill that appropriated \$2.5 million to support the creation of the center. In Colorado, CSU-Pueblo's Institute of Cannabis Research was established through an initial, one-time appropriation of \$900,000 and continues to receive annual appropriations from the Marijuana Tax Cash Fund.

### POINTS TO CONSIDER

- Is the proposed long-term source of funding (grants, gifts, fee-for-service activities) a feasible and sustainable source of continued funding?
- Given the volatility and recent variation in revenue forecasts for the Marijuana Tax Cash Fund, is the fund an appropriate funding source to use to create the center?
- How will the work of the proposed Colorado Hemp Center of Excellence intersect with the existing Institute of Cannabis Research at CSU Pueblo?

### ISSUE 3: R3 RENEWABLE ENERGY ADAPTATION AND DEVELOPMENT

The FY 2024-25 request includes \$931,656 General Fund and 1.9 FTE in order to expand the Agricultural Drought and Climate Resilience Office's (ADCRO) programming and fund a \$700,000 grant program for renewable energy and energy efficiency. The funding would allow the state to work towards its greenhouse gas reduction goals and help producers access energy savings and additional federal funds for related projects. The program has historically relied on one-time funding that includes stimulus funding, but the Department is now requesting ongoing funding to support the program in the long-term.

### **SUMMARY**

- Following the end of an annual severance tax transfer in FY 2015-16, the ADCRO's Advancing Colorado's Renewable Energy and Energy Efficiency (ACRE3) program has relied primarily on one-time funding to support program operations. This includes \$3 million in one-time stimulus funding through S.B. 21-235, which is anticipated to be fully spent by the end of FY 2023-24.
- Since 2007, the ACRE3 program has funded 140 on-farm energy projects across 27 Colorado counties, and has used \$4.8 million in ACRE3 awards to help communities secure an additional \$1.9 million in federal funding.

### DISCUSSION

### BACKGROUND

For over 10 years, the ACRE3 program has provided energy efficiency and renewable energy solutions at no cost to qualifying agricultural producers. The program is administered jointly by the Colorado Agriculture Value-Added Board and the Agricultural Drought and Climate Resilience Office, which also provides voluntary technical assistance and incentives such as grant programs for producers to engage with resilience-building activities.

Since 2015, the ACRE3 program has delivered three technical guides, 59 feasibility studies, and funding to 140 on-farm energy projects across 27 Colorado counties. These projects represent \$11.3 million in total project value, which includes \$4.8 million in ACRE3 awards, \$1.9 million in USDA funding, and \$150,000 from other grant sources. The Department projects that for every \$1 million in new annual appropriations to the program, the Department will be able to bring in \$2.5 million in additional federal funding.

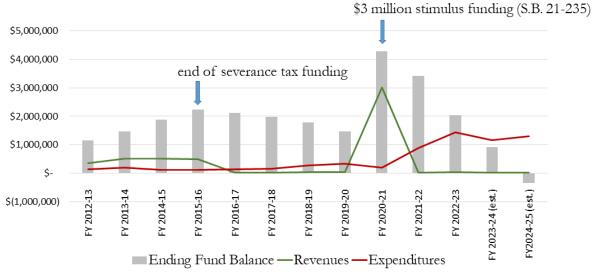

### HISTORIC PROGRAM FUNDING

The program was initially funded through the Colorado Agriculture Value-Added Cash Fund, which was supported by severance tax revenue. The ACRE3 program received its first transfer from the Severance Tax Operational Fund in FY 2006-07. The annual transfer of \$500,000 was established by the passage of H.B. 06-1322 (Operational Account Support of Clean Energy Resources). Between FY 2006-07 and FY 2015-16, the fund received \$4.8 million in statutory transfers of severance tax revenue.

In FY 2016-17, the annual transfers ended due to reduced state severance tax revenue that resulted in a statutory repeal of the transfer. The program thus received its final transfer in FY 2015-16.

Without additional recurring revenue, the Agriculture Value-Added Cash Fund's balance was projected to be fully spent in FY 2020-21. However, the program received \$3 million in stimulus funding through S.B. 21-235 that allowed the program to continue operating and offering new grants. The fund is again expected to be fully spent by the end of FY 2023-24, highlighting the need to consider an additional funding source if the General Assembly were to continue the ACRE3 program.

Outside of the ACRE3 program, the Department has received funding for similar projects focused on agricultural renewable energy. Most recently, S.B. 23-092 (Agricultural Producers Use of Agrivoltaics) included \$500,000 one-time funding to provide grants for agrivoltaic projects.

Furthermore, there are multiple new opportunities for producers to receive federal funding for renewable energy and energy efficiency projects. The Inflation Reduction Act (IRA) and Infrastructure Investment and Jobs Act (IIJA) have allocated millions of dollars to the U.S. Department of Agriculture (USDA) and the Department of Energy to fund renewable energy projects. In FY 2023, USDA's Rural Energy for America Program (REAP) allocated \$3.3 million to spend on renewable energy in Colorado's rural communities. REAP funding has significant barriers that prevent certain producers from applying, but part of the ACRE3 program and ADCRO's role is to provide producers with technical assistance to complete pre-application steps and produce a successful funding application.

### POINTS TO CONSIDER

• After the statutory transfers to the Agriculture Value-Added Cash Fund stopped, what options for additional, ongoing funding has the Department considered? Why did the program not receive additional funding?

- What has demand for grant funds looked like compared to available funds?
- How are outgoing grants currently managed, without a dedicated grants manager?

### ONE-TIME FUNDING AUTHORIZED IN RECENT LEGISLATIVE SESSIONS

During the 2021 and 2022 legislative sessions, the General Assembly allocated significant one-time funding to the Department of Agriculture that included \$80 million originating as state General Fund and \$8 million originating as federal Coronavirus State Fiscal Recovery funds (ARPA funds).

### **SUMMARY**

- During the 2021 Legislative Session \$76 million in stimulus funding was allocated to the Department of Agriculture.
  - o \$35.5 million to support agricultural event relief during the pandemic
  - o \$30.0 million for loan and grant programs targeted at farmers with less than 10 years of experience or who represent a population that is underserved in Colorado agriculture
  - o \$5.0 million for soil health initiatives
  - o \$3.0 million for drought preparedness
  - o \$2.5 million for Colorado Proud producers to expand their market opportunities
- During the 2022 legislative session \$4 million was transferred from the general fund to the State Fair Authority Cash Fund to partially fund the State Fair master plan. Additionally, \$8 million in ARPA funds was allocated to support small food retailers and small family farms with grants to invest in infrastructure to offer fresh, healthy food to low-income and underserved communities.

### IMPLEMENTATION UPDATES AND ITEMS OF NOTE

- **H.B. 21-1262 MONEY SUPPORT AGRICULTURAL EVENTS ORGANIZATION:** Over \$1 million in grants for agricultural events have been fully distributed to 49 local county fairs. One of two planned projects for this stimulus funding, a remodel of Gate 5, is in close out. The other project, a landscape redesign and entrance plaza work, was postponed due to time and funding constraints and is now receiving funding through S.B. 22-134 (see below).
- **S.B. 21-248 LOAN PROGRAM FOR COLORADO AGRICULTURE:** The loan program has established rules, conducted extensive stakeholder outreach, secured a loan provider, distributed over \$400,000 with \$1.8 million encumbered in direct-to-producer grants, and is in the process of distributing its first \$5 million in loans.
- **S.B. 21-203 FUNDING FOR COLORADO PROUD:** This initiative has provided over \$370,000 in direct marketing support grants to 40 Colorado agricultural businesses and has funded a nationwide marketing campaign increasing awareness of Colorado raised agricultural products.

- **S.B. 21-234 GENERAL FUND TRANSFER AGRICULTURE DROUGHT RESILIENCY:** This initiative provided over \$1.5 million in direct grants to producers, spurring over \$4.5 million in matching funds to help prepare Colorado agriculture to withstand the effects of climate change.
- **S.B. 21-235 STIMULUS FUNDING DEPARTMENT OF AGRICULTURE EFFICIENCY PROGRAMS:** Since 2021, this initiative has distributed over \$700,000 in grants for the ACRE3 program with \$2 million encumbered, as well as dispersed over \$1 million in soil health grants with an additional \$700,000 encumbered.
- **H.B. 22-1380 CRITICAL SERVICES FOR LOW-INCOME HOUSEHOLDS:** The Department anticipates that it will award over 250 grants to small business owners as they are limited to \$25,000 per grant and the Community Food Consortium and Grant Program is expected to administer \$6.3 million in total grants. The Department expects to hire multiple staff for the initiative and anticipates having a Program Manager onboard before the end of the year. The legislation also appropriated \$1.0 million to provide for the consortium's operations, technical assistance to small retailers, and cost and fees for subsidizing distribution costs.
- **S.B. 22-134 STATE FAIR MASTER PLAN:** The majority (over 90.0 percent) of this funding paid for a landscape redesign and entrance plaza project that is currently under construction. The project is anticipated to be completed by June 30, 2024.

### APPENDIX A NUMBERS PAGES

Appendix A details actual expenditures for the last two state fiscal years, the appropriation for the current fiscal year, and the requested appropriation for next fiscal year. This information is listed by line item and fund source.

## DEPARTMENT OF AGRICULTURE Kate Greenberg, Commissioner

# (1) COMMISSIONER'S OFFICE AND ADMINISTRATIVE SERVICES

This office provides administrative and technical support for the Department, including accounting, budgeting, and human resources. Cash funds are from various fees and reappropriated funds are from departmental and statewide indirect cost recoveries. Federal funds are from federal grants for agricultural purposes and COVID-19 stimulus funding.

## (7) DIVISION OF ANIMAL WELFARE

This is a new division proposed in the FY24-25 budget. The division will focus on the administration of two existing programs, the Pet Animal Care and Facilities Act and Bureau of Animal Protection, in addition to new initiatives related to animal welfare.

## APPENDIX B FOOTNOTES AND INFORMATION REQUESTS

## UPDATE ON LONG BILL FOOTNOTES

The General Assembly includes footnotes in the annual Long Bill to: (a) set forth purposes, conditions, or limitations on an item of appropriation; (b) explain assumptions used in determining a specific amount of an appropriation; or (c) express legislative intent relating to any appropriation. Footnotes to the 2023 Long Bill (S.B. 23-214) can be found at the end of each departmental section of the bill at <a href="https://leg.colorado.gov/bills/SB23-214">https://leg.colorado.gov/bills/SB23-214</a>. The Long Bill footnotes relevant to this document are listed below.

- Department of Agriculture, Agricultural Markets Division, Agricultural Markets, Agriculture Workforce Development Program -- This appropriation remains available for expenditure until the close of the 2024-25 state fiscal year.
  - **COMMENT:** This footnote explains legislative intent, in order to provide the Department multi-year grant funding ability.
- Department of Agriculture, Agricultural Markets Division, Agricultural Markets, Agriculture Workforce Development Program -- It is the General Assembly's intent that \$64,108 General Fund of this appropriation is designated to be used for purposes of the Workforce Development Program.

**COMMENT:** This footnote explains the legislative intent that the funding for the Adult Agriculture Leadership Grant Program and the Agriculture Workforce Development Program be kept separate after the programs were merged into one-line item in FY 2021-22.

## UPDATE ON LONG BILL REQUESTS FOR INFORMATION

The Joint Budget Committee annually submits requests for information to executive departments and the judicial branch via letters to the Governor, other elected officials, and the Chief Justice. Each request is associated with one or more specific Long Bill line item(s), and the requests have been prioritized by the Joint Budget Committee as required by Section 2-3-203 (3), C.R.S. Copies of these letters are included as an Appendix in the annual Appropriations Report (Appendix H in the FY 2023-24 Report): <a href="https://leg.colorado.gov/sites/default/files/fy23-24apprept.pdf">https://leg.colorado.gov/sites/default/files/fy23-24apprept.pdf</a>.

The requests for information relevant to this document are listed below.

Department of Agriculture, Colorado State Fair, State Fair Facilities Maintenance and Financing -- The Department is requested to provide on November 1, 2022 a report on total revenue and expenditures relating to the Colorado State Fair, including both state and non-state revenue sources. The report should also include facility maintenance projects for the Colorado State Fairgrounds, including facility name, the type and nature of maintenance, the

anticipated cost of the maintenance, the expenditures to-date on the maintenance, and the anticipated completion date.

**COMMENT:** The Department submitted its response on November 1, 2023, which can be found in Appendix D in the electronic version of this document.

From FY 2019-2020 through FY 2022-2023, the Department spent \$2,069,921 on expenditures relating to the Colorado State Fair. In FY 2023-2024, the Department anticipates spending an additional \$802,613.

Department of Agriculture, Agricultural Markets, Climate Drought-Smart Agriculture Marketing -- The Department is requested to provide on November 1, 2023, a report on the development of climate and drought-smart agricultural markets for Colorado producers. This reports should include the number of producers and acreage in the STAR Plus program, the estimated number of businesses and purchasing climate and drought-smart products, the attendance at climate-smart training sessions and events, and the findings of climate-smart research conducted by Colorado State University and partner universities.

**COMMENT:** The Department submitted its response on November 1, 2023, which can be found in Appendix E in the electronic version of this document.

As of November 1, 2023, the STAR Plus program has 119 producers and 23,985 acres enrolled. Over the past year, CDA hosted and supported 17 climate-smart and healthy soil training and informational events with a total of over 600 attendees. CDA also supports ongoing Soil Health office hours, which are held twice a month. Additionally, the CDA Markets Division anticipates hiring a Climate-Smart Marketing Specialist by the end of the calendar year.

## REQUESTS AFFECTING MULTIPLE DEPARTMENTS

- All Departments -- The Departments are requested to provide by November 1 of each fiscal year Schedule 9 reports for every annually and continuously appropriated cash fund administered by the Department as part of the standard November 1 budget submission. The Office of State Planning and Budgeting, in coordination with the Office of the State Controller, the Department of the Treasury, and the independent agencies, is further requested to provide by November 1 of each fiscal year a consolidated report that includes the following information for all continuously appropriated cash funds:
  - The name of the fund;
  - The statutory citation for the fund;
  - The year the fund was created;
  - The department responsible for administering the fund;
  - The total cash balance as of July 1, 2023;
  - The unobligated cash balance as of July 1, 2023; and
  - The unencumbered cash balance as of July 1, 2023.

**COMMENT:** The Office of State Planning and Budgeting provided a consolidated response for all departments, which included Schedule 9s for four continuously appropriated cash funds

for which the Department of Agriculture is responsible (https://drive.google.com/drive/folders/12GV1BkbNNG3GF9-2vgl2tiJRjHxByZt0). This includes net cash assets of \$1.6 million across the four funds. The following table summarizes the historic and estimated expenditures, as well as net cash assets for each fund.

## APPENDIX C DEPARTMENT ANNUAL PERFORMANCE REPORT

Pursuant to Section 2-7-205 (1)(b), C.R.S., the Department of Agriculture is required to publish an **Annual Performance Report** for the *previous state fiscal year* by November 1 of each year. This report is to include a summary of the Department's performance plan and most recent performance evaluation for the designated fiscal year. In addition, pursuant to Section 2-7-204 (3)(a)(I), C.R.S., the Department is required to develop a **Performance Plan** and submit the plan for the *current fiscal year* to the Joint Budget Committee and appropriate Joint Committee of Reference by July 1 of each year.

For consideration by the Joint Budget Committee in prioritizing the Department's FY 2024-25 budget request, the FY 2022-23 Annual Performance Report and the FY 2023-24 Performance Plan can be found at the following link:

https://www.colorado.gov/pacific/performancemanagement/department-performance-plans

## APPENDIX D COLORADO STATE FAIRGROUND FACILITY MAINTENANCE PROJECTS

Department of Agriculture, Colorado State Fair, State Fair Facilities Maintenance – The Department is requested to provide on November 1, 2022 a report on facility maintenance projects for the Colorado State Fairgrounds. This report should include the following for each facility with planned maintenance: facility name, the type and nature of maintenance, the anticipated cost of the maintenance, the expenditures to-date on the maintenance, and the anticipated completion date.

### Colorado Department of Agriculture - RFI #1 State Fair Facilities Maintenance

## APPENDIX E CLIMATE DROUGHT-SMART AGRICULTURE MARKETING

Department of Agriculture, Agricultural Markets, Climate Drought-Smart Agriculture Marketing -- The Department is requested to provide on November 1, 2023, a report on the development of climate and drought-smart agricultural markets for Colorado producers. This report should include the number of producers and acreage in the STAR Plus program, the estimated number of businesses and purchasing climate and drought-smart products, the attendance at climate-smart training sessions and events, and the findings of climate-smart research conducted by Colorado State University and partner universities.

Legislative Request for Information #2 Department of Agriculture, Agricultural Markets, Climate Drought-Smart Agriculture Marketing

Details: The Department is requested to provide on November 1, 2023, a report on the development of climate and drought-smart agricultural markets for Colorado producers. These reports should include the number of producers and acreage in the STAR+ program, the estimated number of businesses and purchasing climate and drought-smart products, the attendance at climate-smart training sessions and events, and the findings of climate-smart research conducted by Colorado State University and partner universities.

### Response:

The CDA received \$232,544 for Climate-Drought Smart Agricultural Marketing through a budget request presented in the 2023 Legislative session. The new funds will enable CDA to hire a Marketing and Communications Specialist to create as well as amplify market opportunities for Colorado producers who grow climate and drought-smart commodities; funds were transferred to the Department in July of 2023.<sup>1</sup>

## **Hiring Update**

CDA Markets Division is actively working on hiring a Climate-Smart Marketing Specialist. We anticipate the job will be posted by the end of the calendar year. This position will work with the Marketing and Conservation Services divisions to create a Climate-Smart Marketing Strategic Plan. This Plan will be completed by June 30, 2024.

## Number of producers and acreage in the STAR Plus program

As of Nov 1, 2023, the STAR+ Program has 119 producers and 23,985 acres enrolled. The program is currently enrolling producers for the next program round, and by the end of the calendar year, CDA anticipates an additional 300 producers and 20,000 acres will be enrolled in the program. This new round of STAR+ participants will receive technical and financial support through 2026 to implement healthy soil practices on their farms and ranches.

## Attendance at climate-smart training sessions and events

CDA has hosted and supported several climate-smart and healthy soil training and informational events. In 2023, these included

Rocky Mountain Healthy Soils Roundtable; 150 attendees

<sup>&</sup>lt;sup>1</sup> <a href="http://coga.prod.acquia-sites.com/sites/default/files/23lbnarrative.pdf">http://coga.prod.acquia-sites.com/sites/default/files/23lbnarrative.pdf</a> page 15; <a href="https://leg.colorado.gov/sites/default/files/fy2023-24\_agrfig.pdf">https://coga.prod.acquia-sites.com/sites/default/files/fy2023-24\_agrfig.pdf</a> page 7

- Rocky Mountain Healthy Soils Roundtable (virtual): 75 attendees
- Eagle County Soil Health Field Tour: 48 attendees
- San Luis Valley Regional Soil Health Field Tour: 63 attendees
- Rocky Ford Regional Soil Health Field Tour: 43 attendees
- Routt County Soil Health Field Tour: 32 attendees
- San Juan Soil Health Field Tour and Learning Session: 52 attendees
- Burlington Soil Health Field Tours: 28 attendees
- The Big Friendly Ag Celebration and Soil Health Tour at CSU Southwest Colorado Ag Research Center: 55 attendees
- Boulder Valley Longmont Soil Health Field Tour: 28 attendees
- CDA hosted 7 Informational Soil Health Webinars: Average 35 participants per webinar
- Ongoing Soil Health Office Hours (twice per month)

## Findings of climate-smart research conducted by Colorado State University and partner universities

CSU Department of Soil and Crops Sciences and CSU Extension, with funding from CDA through a USDA Climate-Smart Commodities Grant and other federal sources, is actively researching the effectiveness of climate-smart and soil health practices. This includes:

- Identifying 35 research fields in CO and across 5 other partner states to conduct soil health research;
- Edge of field water quality studies on 3 research fields;
- Conducting comprehensive soils testing for 119 farmers and ranchers in CO with an additional 319 more tests to be conducted in the spring of 2024;
- Installing 79 soil moisture monitoring systems on farms and ranches in CO to better understand how climate- smart practices impact soil moisture and water retention with approximately 319 more soil moisture monitoring systems to be installed in the spring of 2024;
- Recruiting 20+ technical assistance providers to support farmers and ranchers as they implement healthy soil practices;
- Economic case studies on select Soil Health Program participants to develop an economic analysis tool for producers implementing new soil health practices;
- Sociology case studies to better understand factors driving or inhibiting the adoption of climate friendly and soil healthy practices;
- Preliminary development of a Statewide Soil Health Inventory;
- With support from CDA, development and refinement of a field evaluation system (STAR) to provide information to farmers and ranchers about where they are on their soil health journey and to assist them as they implement new soil healthy practices into their operations.
