# MEMORANDUM

То	Members of the Joint Budget Committee
From	Emily Hansen, JBC Staff (303-866-4961)
DATE	March 10, 2023
Subject	LLS 23-0902 Create Office of School Safety in the Department of Public Safety

The Committee approved the Department of Public Safety request R2 Office of School Safety, including drafting legislation to create a new Office of School Safety, on February 28<sup>th</sup>, 2023. The bill transfers existing school safety programs from the Executive Director's Office and Division of Homeland Security to a new Office of School Safety. The appropriations clause of the bill includes all funding for existing school safety programs, as well as increases as approved by the Committee for FY 2023-24. Therefore, all funding for school safety programs will be reflected in this legislation for FY 2023-24 rather than the Long Bill so that the appropriations may align with the new Office structure.

In drafting legislation, staff identified a few points of clarification for the Committee's consideration.

1 Office Placement

The initial budget request as presented to the Committee placed the new Office of School Safety in the Executive Director's Office. In drafting legislation, the Department requested that the office be placed in the Division of Criminal Justice. Staff has drafted the legislation to reflect the Department's updated request and placed the Office in DCJ.

The Department states that DCJ is composed of multiple offices that currently administer grants, provide training and technical assistance to local communities, or both. The new Office combines grant-making functions currently housed in DHSEM and training and technical assistance currently housed in the EDO, into a new Office with components that look more similar to the existing functions of DCJ than the EDO. Therefore, the Department contends that the new Office will be best managed under DCJ, where existing knowledge can be leveraged to set up the Office.

The Committee has already expressed concern about ensuring school safety programs are thoughtful in design to avoid unnecessary or targeted contact with the criminal justice system. The Department has been thoughtful about this concern, and intends for FTE approved by the Committee through R8 Threat Assessment Training to focus on identifying and addressing any disproportionate impacts that may result from current programs. Staff is therefore not concerned about the operations of the Office being impacted by the Division it may be placed under, but staff is concerned about a possible negative perception with placing the Office under DCJ.

2 School Security Disbursement Grant Annualization

The Committee also approved the Department's request R4 Grants for Physical Security in Schools, to provide \$6.0 million in General Fund to support the School Security Disbursement Program in FY 2023-24. In FY 2022-23, the General Assembly appropriated \$6.0 million General Fund and related \$6.0 million Reappropriated Funds spending authority to the program on a one-time basis. Staff did

not realize until drafting the appropriations clause for this bill that the Department did not annualize out the FY 2022-23 funding, resulting in a total appropriation of \$12.0 million General Fund for the School Security Disbursement Program in the Department's base request.

The School Security Disbursement Program was recreated in H.B. 22-1120 (School Security Disbursement Program Recreation), and is set to repeal July 1, 2032. A \$6.0 million General Fund appropriation and related \$6.0 million reappropriated funds spending authority was provided for the program through H.B. 22-1243 (School Security and Behavioral Health Services Funding) to a cash fund set to repeal July 1, 2024. The bill provided one-time funding for the Department of Public Safety, and unrelated ongoing funding for the Department of Human Services in the same amount.

Due to confusion in interpreting the fiscal notes, the base budget detail requested by the Department included \$6.0 million General Fund and \$6.0 million reappropriated funds for the School Security Disbursement Program on the assumption that funding was ongoing rather than one-time. Staff did not identify the discrepancy previously as the budget schedules required many transfers between line items across multiple divisions to set up the new office.

Staff and the Department agree that the funding provided by H.B. 22-1120 and H.B. 22-1243 was one-time and should have been annualized out of the budget request. The appropriations clause in the draft bill includes the \$6.0 million General Fund as approved by the Committee through R4, but does not include the additional \$6.0 million that was incorrectly included in the Department's base budget request.

#### 3 Legislative Reports

Current statute required the School Safety Resource Center to submit a legislative report evaluating the efficacy and value of the services provided by the center on January 1, 2010 (Section 24-33.5-1806). JBC Staff and OLLS staff agree that the statute does not require annual reports after 2010. However, the School Safety Resource Center has provided a report on program services every year since 2009. Staff has not included language regarding ongoing reporting as it was not discussed in the initial staff presentation, nor approved by the Committee.

However, staff recommends adding language to the draft legislation to continue language related to reporting in the new Office, and require annual reports on an ongoing basis. The current statutory language is provided below.

"Section 24-33.5-1806. Evaluation – report. (1) On or before January 1, 2010, the director shall prepare and submit to the executive director a report evaluating the efficacy and value of the services provided by the center to schools.

(2) On or before January 15, 2010, the executive director shall prepare and submit to the education and judiciary committees of the house of representatives and the senate, or any successor committees, a report evaluating the efficacy and value of the services provided by the center to schools."
