

Sb 22-097, Additional Worker Protections for Disclosure of Health and Safety Concerns.

Position: OPPOSED

NFIB is an incorporated nonprofit association with approximately 300,000 members across America and approximately 7,000 members in Colorado. NFIB's mission is to protect the right of Americans to own, operate and grow their businesses and ensures that the governments of the United States and of the fifty states hear the voice of small business as they formulate public policies.

Colorado's small businesses are open for business. Return to business also brings concern about possible lawsuits from either customers or employees relating to the COVID-19 pandemic or any other business condition. It is essential to allow Main Street businesses get back to providing product and services, not be threatened with frivolous legal concerns.

NFIB Colorado believes legislation currently proposed is another layer of unfounded purpose potentially damaging to the Colorado's business climate.

Colorado's business community does not defend any employer exposing workers to unsafe workplaces.

NFIB Colorado is opposed to Sb 22-097 and requests that it be postponed indefinitely.
