

Representative,

I hope you are well. I am reaching out to you about HB22-1168. In short, support this proposed legislation. This Bill would have many positive outcomes for our state and the people in it. This bill would give more access to those who are interested in hunters safety & conservation in our state. This could help the future of our conservation efforts along with educating the youth about firearm safety as well. This course would help reduce accidents & teach the youth more respect when handling firearms and when in the wild environment. This is a no brainer when it comes to the safety & future of our youth. Support HB22-1168.

Respectfully,

Benjamin O'Loughlin
