The price of insulin *without* other needed supplies is a mortgage payment.

Where will I live?

LANTUS \$306.99 x 3 = **\$920.97 per month P.O.S.**

Each milliliter of **LANTUS** (insulin glargine injection) contains 100 Units (3.6378 mg) insulin glargine.

LANTUS is produced by recombinant DNA technology utilizing a non-pathogenic laboratory strain of *Escherichia coli* as the production organism.

The 10 mL vial presentation contains the following inactive ingredients per mL:

30 mcg zinc, (zinc oxide is an internal toxin)

2.7 mg m-cresol, (pine tar derivative) phenol, ENDOCRINE DISRUPTOR, damages fat and skin cells - Acidic

20 mg glycerol 85%, (corn alcohol) DAMAGES RED BLOOD CELLS - ACIDIC

20 mcg **polysorbate 20**, (detergent/emulsifier) can contain 1,4 dioxane (CARCINOGEN) – Acidic – Histamine releaser (vascular damage)

and water for injection.

Causes potassium depletion

HUMALOG \$329.49 x 4 = **\$1,317.96 per month P.O.S.**

Each milliliter of **HUMALOG U-100** contains insulin lispro 100 units.

A rapid-acting human insulin **analog** used to lower **blood glucose**. **Insulin lispro is produced by recombinant DNA technology utilizing a non-pathogenic laboratory strain of *Escherichia coli*.**

16 mg glycerin, (corn alcohol) DAMAGES RED BLOOD CELLS - ACIDIC

1.88 mg dibasic sodium phosphate, TETANY a condition marked by intermittent muscular spasms, caused by malfunction of the parathyroid glands and a consequent deficiency of calcium. spasms of the hands and feet, cramps, spasm of the voice box (larynx), and overactive neurological reflexes.

HYPOPARATHYROIDISM

3.15 mg Metacresol, (m-cresol) (pine tar derivative) phenol, ENDOCRINE DISRUPTOR, damages fat and skin cells - Acidic

zinc oxide content adjusted to provide 0.0197 mg **zinc ion**, (zinc oxide is an internal toxin)

trace amounts of **phenol**, ENDOCRINE DISRUPTOR, damages fat and skin cells - Acidic

and **Water** for Injection
