Jeany Rush Against themselves	TO: HOUSE ENERGY COMMITTEE TO: HOUSE FINANCE COMMITTEE RE: HB24-1352 APPLIANCE REQUIREMENTS & INCENTIVES 4-11-24 FROM: JEANY RUSH COLORADO SPRINGS CONSTITUENT VOTE: NO ON THIS BILL "International Energy Conservation Code." Since when do we in the United States of America subscribe to any international codes, prior to bringing that information to the citizens of our state, and nation? The authority, the tax incentives, the taxpayer giveaways for certain products, deemed green, should be a consumer choice, but not a dictate of the governments, for use. Should someone want to simply give an extra incentive, it should not be the taxpayer. This also picks winners/losers for receiving credits, while conducting FOR-PROFIT business. I understand minimum basic guidelines for some designations as energy saver, but to mandate, dictate what can and cannot be used, is outright Marxism and dictatorship rule. Since most of our green, energy programs are based on FALSE SCIENCE, i Object to this bill, or any like it. There is no real equal treatment for vendors, businesses, if the government is dictating which products MUST be used. There needs to be a choice, and more research on this bill as it stands!
