

PLSC

It's a matter of safety and efficiency.

Professional Land Surveyors of Colorado

The Professional Land Surveyors of Colorado, Inc. (PLSC) is the professional land surveyors' society in Colorado. The PLSC represents land surveyors' interests in the State, proposes new legislation and changes to existing legislation as the industry's needs change, and works with the State Board of Licensure as an advocate for Land Surveyors.

SB26-025 Summary

The bill permits setting reference monuments where a monument or marker is impractical or unsafe due to location in a traveled road within a federal, state, or other public right-of-way.

The bill also requires the submission of monument records in electronic format, eliminating currently required printing, mailings and physical storage costs for both surveyors and government.

SB26-025 Bill Sponsors: Senator Rich, Senator Snyder, Representative Marshall
