**RE: SB26-137 – Letter of Support**

Dear Members of the Committee,

On behalf of local employers and economic development stakeholders, I support SB26-137. This bill encourages innovation and economic growth by modernizing policies that impact business operations and investment. By aligning state policy with evolving industry needs, SB26-137 helps ensure Colorado remains attractive to new and expanding businesses. Businesses strive to provide quality products and services to their customers, but sometimes the extra burdens required by outdated or overly burdensome rules and regulations consume precious time and resources. Elimination and streamlining of state regulations that don't ultimately provide the intended public benefit will keep Colorado businesses competitive into the future.

Passing SB26-137 will reinforce Colorado's commitment to a forward-looking economy that supports job creation and long-term prosperity.

Sincerely,

Timothy W. Seibert
