| <p>Davon Williams</p> <p>For themselves</p> | <p>Written Testimony re SB26-132</p> <p>Chair and Members of the Committee,</p> <p>My name is Davon Williams. I am a former public school district director, and I am currently a candidate for House District 3. I am offering these comments from the perspective of someone who has both worked within public systems and has personal experience navigating the justice system.</p> <p>SB26-132 addresses the use of voluntary alcohol breath testing during DUI investigations. Providing individuals with the option to participate in a preliminary breath test prior to arrest has the potential to create more transparency and clarity during interactions between law enforcement and the public.</p> <p>From my perspective, policies that increase clarity in these moments can help reduce confusion and improve decision-making for everyone involved. When individuals better understand their options, it can lead to more informed choices and potentially more efficient outcomes.</p> <p>At the same time, it is critical that the voluntary nature of this option is clearly communicated and consistently upheld. Individuals should fully understand that participation is optional and that their rights remain intact throughout the process.</p> <p>From my experience, trust in public systems is strengthened when procedures are clear, consistent, and communicated effectively.</p> |

| | |
|--|--|
| | <p>For these reasons, I support SB26-132 and appreciate the focus on improving clarity within DUI procedures.</p> <p>Thank you for your consideration.</p> <p>Best, Davon Williams</p> |
