\section*{EDUCATION}

After consideration on the merits, the Committee recommends the following:

HB22-1215
be amended as follows, and as so amended, be referred to the Committee on Appropriations with favorable recommendation:

Amend printed bill, strike everything below the enacting clause and substitute:
"SECTION 1. In Colorado Revised Statutes, add part 2 to article 35.3 of title 22 as follows:

PART 2
SECONDARY, POSTSECONDARY, AND WORK-BASED LEARNING INTEGRATION

22-35.3-201. Legislative declaration. (1) THE GENERAL ASSEMBLY FINDS THAT:
(a) COLORADO'S ECONOMIC VITALITY DEPENDS ON A HIGHLY EDUCATED, SKILLED, AND DIVERSE WORKFORCE READY TO MEET THE JOB DEMANDS OF A POST-PANDEMIC WORLD. THIS REQUIRES A LEARNER-CENTERED APPROACH TO EVALUATING CURRENT PROGRAMS DESIGNED TO INTEGRATE SECONDARY, POSTSECONDARY, AND WORK-BASED LEARNING OPPORTUNITIES FOR STUDENTS ENROLLED IN HIGH SCHOOL AND, ULTIMATELY, CREATING PATHWAYS AND WORKFORCE OPTIONS THAT BLUR THE LINES BETWEEN EDUCATION AND CAREER.
(b) COLORADO IS CONSIDERED A NATIONAL LEADER IN CONCURRENT ENROLLMENT POLICY. THE STATE HAS ENACTED SEVERAL STATUTES AT DIFFERENT TIMES AUTHORIZING STUDENTS TO EARN college credits while enrolled in high schools. These statutes ADDRESS VARIOUS ASPECTS OF COLLEGE READINESS AND SUCCESS, INCLUDING CONCURRENT ENROLLMENT PROGRAMS AUTHORIZED IN article 35 of this title 22; THE ACCELERATING STUDENTS THROUGH CONCURRENT ENROLLMENT, OR ASCENT, PROGRAM CREATED IN SECTION 22-35-108; PATHWAYS IN TECHNOLOGY EARLY COLLEGE, OR P-TECH, HIGH

SCHOOLS AUTHORIZED IN PART 1 OF THIS ARTICLE 35.3; THE TEACHER RECRUITMENT EDUCATION AND PREPARATION, OR TREP, PROGRAM CREATED IN SECTION 22-35-108.5; ADVANCED PLACEMENT COURSES; THE HIGH SCHOOL INNOVATIVE LEARNING PILOT PROGRAM CREATED IN ARTICLE 35.6 OF THIS TITLE 22; THE CAREER DEVELOPMENT SUCCESS PROGRAM CREATED IN SECTION 22-54-138; AND THE FOURTH-YEAR INNOVATION PILOT PROGRAM CREATED IN PART 13 OF ARTICLE 3.3 OF TITLE 23.
(c) THE GENERAL ASSEMBLY HAS ALSO ENACTED MANY STATUTES DIRECTING COMMUNITY COLLEGES AND THE STATE WORK FORCE DEVELOPMENT COUNCIL TO CREATE AND EXPAND CAREER PATHWAYS IN A WIDE VARIETY OF CAREERS, RANGING FROM MANUFACTURING CAREER PATHWAYS TO INTEGRATED CAREER PATHWAYS WITHIN GROWING INDUSTRY SECTORS TO CAREER PATHWAYS FOR TEACHERS;
(d) THESE PROGRAMS AND STATUTES HAVE LED TO A SIGNIFICANT EXPANSION OF WORK-BASED LEARNING AND PARTNERSHIPS WITH EMPLOYERS AND A NOTABLE INCREASE IN THE NUMBER OF STUDENTS COMPLETING INDUSTRY CREDENTIAL PROGRAMS, WORK-BASED LEARNING EXPERIENCES, AND COURSES IN HIGH SCHOOLS THAT QUALIFY FOR BOTH SECONDARY AND POSTSECONDARY CREDIT. THE DEPARTMENT OF EDUCATION REPORTS THAT, BETWEEN 2016 AND 2021, OVER THIRTY-ONE THOUSAND STUDENTS COMPLETED CREDENTIALS, WORK-BASED LEARNING EXPERIENCES, AND QUALIFYING ADVANCED PLACEMENT COURSES THROUGH THE CAREER DEVELOPMENT INCENTIVE PROGRAM ALONE.
(e) IN ADDITION, THERE ARE MORE THAN TWENTY EARLY COLLEGES AND SEVEN P-TECH SCHOOLS OPERATING WITHIN THE STATE, AND THE GENERAL ASSEMBLY ANNUALLY APPROPRIATES MONEY TO FUND UP TO FIVE HUNDRED ASCENT PROGRAM STUDENTS;
(f) IMPORTANTLY, ALTHOUGH COLORADO HAS MANY EXAMPLES OF INNOVATION THROUGH SECONDARY, POSTSECONDARY, AND WORK-BASED LEARNING INTEGRATION PROGRAMS, THE SCALABILITY OF THESE PROGRAMS, DESPITE THEIR SUCCESS, CAN BE LIMITED DUE TO LEGAL, GEOGRAPHIC, AND FINANCIAL BARRIERS, AND THE MAJORITY OF THESE PROGRAMS ARE GENERALLY AVAILABLE ONLY TO STUDENTS IN URBAN AND LARGER SCHOOL DISTRICTS;
(g) THE TASK FORCE CREATED IN House Bill 21-1330 TO STUDY ISSUES IN POSTSECONDARY EDUCATION RECOMMENDED THE STATE FOCUS ON BLURRING THE BOUNDARIES BETWEEN HIGH SCHOOL, POSTSECONDARY EDUCATION, AND THE WORKFORCE. THE FINAL REPORT CALLED FOR EXPANDING INNOVATIVE HIGH SCHOOL, POSTSECONDARY, AND WORKFORCE OPTIONS AND PATHWAYS, BROADLY INCLUDING WORK-BASED LEARNING, CREDENTIAL COMPLETION, AND APPRENTICESHIPS AMONG OTHER EXPERIENCES, WITH A FOCUS ON HIGH-NEED, IN-DEMAND, HIGH-VALUE BUSINESS- AND INDUSTRY-FOCUSED CAREER PATHWAYS.

These efforts result in the federal government providing incentive payments to the counties to reinvest in the efficient administration of the child support services program.
(c) It is Colorado's obligation to invest in and improve technological systems that county departments of human or social services rely on to ensure timely, accurate, and consistent benefits for Coloradans in need. The system, known as the automated child support enforcement system (ACSES), supports child support workers in efficiently administering the child support services program on behalf of the state and is in need of technological enhancements and upgrades.
(2) Therefore, the general assembly declares that, without supplanting state financial resources for ACSES, this act creates an option, but not a requirement, to invest county incentive payments to support minor improvements to ACSES if agreed to by the counties. \section*{EDUCATION}

After consideration on the merits, the Committee recommends the following:

HB22-1260
be amended as follows, and as so amended, be referred to the Committee of the Whole with favorable recommendation:

Amend printed bill, strike everything below the enacting clause and substitute:
"SECTION 1. Legislative declaration. (1) The general assembly finds and declares that:
(a) Colorado has a strong recent history of passing legislation that has significantly improved access to medically necessary behavioral health treatments for children, resulting in great strides in service access across many settings. Unfortunately, access to medically necessary services in the school setting has lagged.
(b) Applied behavioral analysis (ABA) is one critical example of a medically necessary service that, when prescribed by a physician or other qualified health-care provider, may need to be delivered within a school setting for children with an autism spectrum disorder (ASD) diagnosis. ASD is a global developmental disorder typically involving difficulty in acquiring and generalizing functional skills across environments. Generally accepted standards of care for this population require that ABA therapy is provided across settings, including schools, in accordance with a child's clinical needs. It is in the interest of the child, the child's family, and the state that a child who is diagnosed with ASD receive proper care and treatment in order to have the opportunity to be a fully functioning individual in society.
(c) The Colorado health insurance mandate to cover ASD requires state-regulated health insurance plans to cover all specified medically necessary treatment for ASD, including treatment in school settings;
(d) Pursuant to 42 U.S.C. sec. 1396 and sec. 1396d (r)(5), Colorado's medicaid program is required to cover all medically necessary treatment, whether or not included in the current medicaid state plan, to correct or ameliorate defects, illnesses, or conditions in medicaid-eligible children under twenty-one years of age, including treatment in school settings;
(e) The lack of access to medically necessary services in schools has detrimental effects on the children who are unable to achieve maximum long-term functioning, as well as significant social costs, including lost productivity and increased costs of care. Over the course of a child's lifetime, inadequate access to treatment during the child's school-aged years may result in millions of dollars of therapies and supports needed later in life, as well as lost economic and employment opportunities over time.
(f) While schools provide special education and related services, many children have unmet medical needs in their school setting. These needs can be met by allowing access to services funded by third parties. Funding for medically necessary services for these children is appropriate and available through medicaid's early and periodic screening, diagnostic, and treatment program or through a family's private health insurance plan, thereby placing no greater financial burden on the state's public schools.
(g) Currently, access to medically necessary services in the school setting is too often restricted, causing damage to Colorado children and the state, which bears the cost when medically necessary services are not provided. No family should have to choose between a child attending public school or receiving access to medically necessary services. Ensuring that children have access to these services will also improve the efficacy of their treatment and their integration into the community, as well as reduce long-term costs to the state.

## April 26, 2022

Colorado House of Representatives
73rd General Assembly
Second Regular Session
State Capitol
Denver, Colorado 80203

Honorable Members of the Colorado House of Representatives,
It is my honor to inform you that I have approved and filed with the Secretary of State the following Act:

House Bill 22-1329 CONCERNING THE PROVISION FOR PAYMENT OF THE EXPENSES OF THE EXECUTIVE, LEGISLATIVE, AND JUDICIAL DEPARTMENTS OF THE STATE OF COLORADO, AND OF ITS AGENCIES AND INSTITUTIONS, FOR AND DURING THE FISCAL YEAR BEGINNING JULY 1, 2022, EXCEPT AS OTHERWISE NOTED.

Approved April 25, 2022 at 5:10 p.m.
The FY 2022-23 budget, a product of collaboration and teamwork with Colorado's leaders in the General Assembly, sets aside a record level of reserves to protect our future, restores significant cuts made to address the pandemic challenges, and fuels the recovery by investing in economic stimulus for businesses and households.

We especially want to thank the members of the General Assembly for these top priority items for Colorado included in my budget request:

Reserves: This budget sets aside the largest reserve on record, $15.0 \%$ of the General Fund, to ensure the support of the provision of services and transformational change. Establishing record savings for the future will help us weather the next rainy day when it comes.

Education Funding: This budget makes a record investment in our K-12 students. This budget increases per pupil funding by $\$ 511$, meaning an additional $\$ 12,000-13,000$ per classroom. It also includes an historic buydown of the Budget Stabilization Factor and sets aside significant savings to sustain this investment in future years.

State Investments: This budget funds state investments that will drive transformational changes in air quality, public safety, and affordable housing for Coloradans. The budget also makes room for key investments such as a $\$ 600$ million infusion into the Unemployment Insurance Trust Fund to save businesses and workers money, relief on drivers license fees, reducing vehicle registration fees, and making it free for Coloradans to start their own businesses. It also makes room for investments in air quality, public safety, and workforce supports including childcare centers.

These priorities and more, as detailed in Attachment 1, represent a budget with the right priorities for Colorado.

Lastly, Attachment 2 to this letter sets out the Administration's interpretation of footnotes and FTE in House Bill 22-1329.

In closing, I would like to express my Administration's gratitude for the work performed by the Joint Budget Committee members, the Joint Budget Committee staff, the staff of the Office of State Planning and Budgeting, and the department budget analysts throughout Colorado's government for their dedication to a responsible and effective budget.

Sincerely, /signed/
Jared Polis
Governor
State of Colorado

## Department of Education

- The budget (including a placeholder for the School Finance Act) increases state funding for K-12 public schools by $\$ 351 \mathrm{M}$, which represents a 7\% increase over FY 2021-22 levels. This budget buys down the Budget Stabilization Factor by an additional $\$ 182 \mathrm{M}$ compared to the FY 2020-21 level of $\$ 503 \mathrm{M}$ - reaching an all-time low as a percent of Total Program funding (3.7\%). In addition, this budget maintains a robust State Education Fund reserve of $\$ 762 \mathrm{M}$ to cover the expected budget shortfall for
education in FY 2023-24 and guard against an increase in the Budget Stabilization Factor. Finally, this budget also provides more than $\$ 20 \mathrm{M}$ for critical improvement to equity and transparency in our school system, including a $77 \%$ increase to the Charter School Institute (CSI) Mill Levy Equalization Fund, assistance to charter school capital construction, funding to the School Transformation Grant Program to support schools on the accountability clock, and funding to improve the SchoolView data dashboard.

Department of Health Care Policy and Financing

The budget increases payments to providers by almost $\$ 240 \mathrm{M}$, including an across-the-board rate increase of $2.0 \%$ and targeted rate increases for specific providers such as transportation services and durable medical equipment providers; and ensures at least a $\$ 15$ per hour wage for workers providing home- and community-based services (HCBS). Additionally, the Department will direct $\$ 7.2 \mathrm{M}$ to develop value-based payment methodologies, which will create incentives for providers to improve the quality of care while controlling costs. The budget also provides more funds to counties to help them administer the Medicaid program and improve the eligibility services that Coloradans rely on. The budget also directs $\$ 11.0 \mathrm{M}$ to the Department and the Governor's Office of eHealth Innovation for a Rural Connectivity project that will increase rural health providers' access to health information records and analytic capabilities to improve the health of rural Coloradans.

Department of Higher Education

- The budget provides a $\$ 105 \mathrm{M}$ increase to operating support for institutions of higher education. State financial aid for students pursuing post-secondary education was increased by $\$ 24 \mathrm{M}$ for need-based aid. The budget also caps resident undergraduate tuition growth to $2 \%$ at all institutions except the University of Colorado - Boulder. The budget provides $\$ 0.3 \mathrm{M}$ to create the Division of Outreach and Attainment Services at the Department, which will promote higher secondary education attainment through counseling and other support services, with particular focus on increasing completion rates for financial aid applications. The budget also provides funding to Colorado's institutions of higher education to cover the cost of licenses to the Single Stop technology which would support students in accessing vital public benefits for which they are eligible.

## Department of Human Services

- The budget increases funding for a variety of critical services for the most vulnerable Coloradans. Investments include $\$ 11.7 \mathrm{M}$ to operate 44 new forensic psychiatric beds at the Colorado Mental Health Institute at Fort Logan (CMHIFL) as well as essential personnel to operationalize the Behavioral Health Administration and the behavioral health safety net. In addition, nearly $\$ 3 \mathrm{M}$ is included to advance the child welfare system through the

Collaborative Management Program, enhancing county child welfare support and an increase in state support for the Colorado Trails case management system. The budget also includes a statewide pay raise for food service and housekeeping staff.

Department of Local Affairs

In addition, there is $\$ 0.3 \mathrm{M}$ in funding for the Mobile Home Park Oversight Program to perform ongoing administrative and technical support related to the annual registration of over 720 mobile home parks and address mobile home owner complaints.

The budget also makes an increase of $\$ 2.0 \mathrm{M}$ to increase availability of Emergency Medical and Trauma Service Provider Grants, which provide support across the state to purchase vital equipment such as ambulances, fund personnel costs for small agencies, and provide mental health services for emergency care workers.

## Department of Public Safety

- This budget includes $\$ 6.8 \mathrm{M}$ to right-size the Colorado Bureau of Investigation to better serve and support local law enforcement in investigations and forensic services. The budget also includes several increases to improve emergency preparedness and response, including $\$ 0.8 \mathrm{M}$ for state recovery and state emergency operations, $\$ 1.7 \mathrm{M}$ for state dispatcher salary increases, $\$ 0.4 \mathrm{M}$ for state cybersecurity readiness, and $\$ 0.5 \mathrm{M}$ for firefighter training and personnel support. Finally, the budget also supports evidence processing and storage by investing $\$ 1.2 \mathrm{M}$ for additional State Toxicology Lab staff and $\$ 1.3 \mathrm{M}$ for an improved central evidence facility.

Department of Revenue

- This budget includes an additional $\$ 2.6 \mathrm{M}$ to improve customer service at the Division of Motor Vehicles (DMV) by addressing a growing backlog of system enhancements and maintenance to the DRIVES software platform, which serves the state DMV, the title and registration delegates in all 64 counties, the Department's Hearings Division, the Department of Public Safety, local law enforcement, and other state and local agencies. The budget also includes an additional $\$ 0.2 \mathrm{M}$ for security guards at four DMV offices to enhance safety, providing employees and customers a safe office environment from which to work and do business.

Office of Economic Development and International Trade

- This budget includes a $\$ 5.0 \mathrm{M}$ investment in economic development in coal transition communities across the state as part of the air quality investment package, as well as an additional $\$ 1.0 \mathrm{M}$ investment in local economic development organizations, including those based in rural communities.

## Colorado Energy Office

Office of Information Technology

## Statewide

## Attachment 2: H.B. 22-1329 Footnotes and FTE

It is the Governor's constitutional obligation to review the General Appropriations Bill and exercise the line item veto when necessary. We recognize and appreciate the legitimate and reasonable expression by the General Assembly of the intent associated with certain appropriations contained in the FY 2022-23 Long Bill. In fact, many of these expressions of intent are based on information contained within the original Executive Branch budget requests. In general, we interpret most of these expressions of intent as different from attempts to administer appropriations or to pursue substantive law via the general appropriations bill. Thus, we have not vetoed any of the footnotes in H.B. 22-1329.

While the Legislature has the prerogative to express its intent, the Executive Branch maintains the clear and inherent responsibility to administer appropriations (see Colorado General Assemblyv. Owens, 136 P.3d 262 (Colo. 2006); Colorado General Assembly v. Lamm, 704 P.2d 1371 (Colo. 1985); and Anderson v. Lamm, 195 Colo. 437, 579 P.2d 620 (1978)). For this reason, we have directed Executive Branch agencies to comply with the intent of the footnotes contained in H.B. 22-1329 only to the extent practicable and appropriate.

Moreover, if operational needs dictate otherwise, the Executive Branch will not be constrained by any limitations implied within any of the Long Bill footnotes. In particular, many footnotes in H.B. 22-1329 may constitute attempts by the General Assembly to administer the appropriation, including:

- those that indicate dollar amounts for expenditure in specific programs or for specific purposes;
- those that indicate limits on dollar amounts for expenditure in specific programs or for specific purposes; and
- those that indicate specific expectations for programmatic expenditures or activities.

As such, Executive Branch agencies may deviate from the intent expressed in any footnote as necessary.

As with past administrations, we are concerned with the General Assembly's inclusion of full-time equivalent positions (FTE) within the general appropriations act. The Colorado Supreme Court's opinion in Anderson v. Lamm, 195 Colo. 437, 579 P.2d 620 (1978) clearly states that "specific staffing and resource allocation decisions" in a general appropriations bill are unconstitutional. The Supreme Court affirmed this finding in Colorado General Assembly v. Owens, 136 P.3d 262 (Colo. 2006). Further, it remains our opinion that any predetermined prescription of FTE authorization limits the ability of state agencies to make the most resource-effective use of appropriations to accomplish critical performance objectives.

Therefore, Executive Branch agencies are instructed to manage their appropriations within the scope of the dollars appropriated in H.B. 22-1329 and without limitation by the bill's FTE authorizations.

A qualified third party, as determined by the commission, shall conduct the audit and submit the results to the commission.
(B) If the commission determines that the source currently employs best available emission control technologies for greenhouse gas emissions and best available energy efficiency practices, the commission shall not impose a direct nonadministrative cost on the source directly associated with at least ninety-five percent of the source's greenhouse gas emissions attributable to manufacturing a good in this state for a period of five years, if the source's emissions are not greater than the emissions associated with use of the best available emission control technologies as determined by the commission.
(C) The commission shall consider how program design as relevant to those sources can further mitigate the cost of reducing emissions for such manufacturers while providing an incentive to improve efficiency and reduce emissions. Specifically, the commission shall design the program as relevant to those sources such that as the sources are subject to emission reduction requirements, those sources will have, under the program, a pathway to obtain equivalent lower-cost emission reductions at other regulated sources to satisfy their compliance obligations.

(B) "Trade-EXPOSED" MEANS THAT AN ENTITY THAT MANUFACTURES GOODS IN THE INDUSTRIAL AND MANUFACTURING SECTOR INCURS COSTS TO COMPLY WITH STATE RULES TO WHICH OUT-OF-STATE COMPETITORS ARE NOT SUBJECT OR THAT SUCH ENTITY WOULD OTHERWISE BE DISADVANTAGED COMPETITIVELY IF REQUIRED TO COMPLY WITH THE RULES THAT THE COMMISSION ADOPTS PURSUANT TO SUBSECTION (1)(e)(XIII) OF THIS SECTION.
(IX.7) On or before August 1, 2023, THE COMMISSION SHALL MODIFY ANY RULES ADOPTED PURSUANT TO SUBSECTION (1)(e)(IX) OF THIS SECTION TO REFLECT THE DEFINITIONS SET FORTH IN SUBSECTION (1)(e)(IX.5) OF THIS SECTION.

May 18, 2022
The Honorable Colorado General Assembly
The 73rd General Assembly
Second Regular Session
State Capitol
200 E. Colfax Ave.
Denver, CO 80203
Dear Honorable Members of the Colorado General Assembly:
Today I signed into law HB22-1401, "Hospital Nursing Staff Standards." This bill ensures our hospitals are prepared and our nursing workforce is supported in order to respond to emergencies so that a lack of staffed bed capacity doesn't threaten the state economy. The Polis-Primavera Administration is focused on saving people money on health care and improving access to care across the state. Maintaining access to hospital care throughout the state, and especially in small, rural, and frontier areas is crucial to furthering this goal.

I understand the impacts fees can have on businesses, especially during times of high inflation, including on hospitals. I therefore ask the Colorado Department of Public Health and Environment, in the implementation of this bill, to direct the State Board of Health to ideally not implement fees, or at least minimize fees to a negligible amount and avoid fines in particular on small, rural, and frontier hospitals.

HB22-1401 keeps Coloradans safe and healthy while protecting the financial security of small, rural facilities by ensuring:

Surge-capacity readiness standards only apply to hospitals with more than 25 beds;

All hospitals can submit a request for a hardship waiver articulating why they are unable to meet the required staffed bed capacity of $80 \%$ of their baseline to ensure they are not financially burdened if local circumstances prevent compliance. These waiver processes must account for factors such as hospital size, geography, local labor and population dynamics, local challenges and costs of providing care, among other local factors that make it difficult for hospitals to meet the required staffed bed capacity. If they are granted a waiver, they will not be fined. It is not the intent of this bill to fine hospitals that are struggling to hire staff or have increased costs and small margins. It is a shared goal to ensure Coloradans maintain access to hospital care;

No fees will be levied against hospitals in FY22-23. The Board of Health has rulemaking authority to implement fees, but it is the Administration's intent that they be avoided or minimized to the extent required for hospital preparedness and safety, and if they ever occur, should be levied equitably among hospitals. The Board of Health should take into account geography, rurality, facility size, and other factors that generally act as proxies for hospital financial wellbeing when determining the formula for how fees are levied to fund inspections; and

Hospitals will never be penalized for not providing testing \& vaccines in hospitals and hospital-owned primary care sites if those supplies are not available.

I thank the sponsors and proponents for passing HB 22-1401 which will protect Coloradans, support our workforce, and ensure the State is prepared for future emergencies.

Sincerely,
Jared Polis

Dear Honorable Members of the Colorado State House of Representatives:

Today I vetoed House Bill 22-1221, "Concerning the creation of the County Coroner and Mortuary Mental Health and Wellness Program" at 2:30 p.m.

House Bill 22-1221 ("HB 22-1221") adds the County Coroner and Mortuary Wellness Program ("Program") to the Behavioral Health Administration ("BHA"). The Program is required to provide primarily individual, in-person counseling by specialists who have experience working with county coroners and/or other mortuary professionals.

I deeply appreciate the extremely hard work of Colorado's County Coroners, their staff, Funeral Directors and Mortuary Science Technicians. I further thank the sponsors of HB 22-1221 for heeding the calls to better support those included in this bill. We rely on our County Coroners, their staff, Funeral Directors and Mortuary Science Technicians during our times of greatest sorrow. I want to thank them for their extraordinary efforts during the pandemic and other mass casualty events. There is no doubt in my mind that this is a stressful time to be in this profession and that these professionals need support and trauma-informed behavioral health counseling.

I am concerned, however, about establishing a program in the BHA solely for the benefit of a particular group of professionals. The BHA was established to better coordinate behavioral health services and serve all the people of Colorado. The new BHA has a monumental task ahead of it to accomplish that goal. Whether the BHA contracts with an entity or directly with providers, it is going to have to dedicate staff to running this program, establish contracts, determine who qualifies to have their bills paid by the Program, and pay for services for persons who are underinsured or without insurance. While it may be possible to do this for one group or program, and certainly Colorado's coroners and funeral directors are worthy, this is not, in my opinion, a positive precedent for the new Behavioral Health Administration nor the role or responsibility of the BHA. If we assign this task to the BHA, it risks becoming a repository for small programs for many important occupations which will dilute its resources and mission from serving everyone. Many professionals, including those included in this bill, have experienced deep trauma over these past several years. We need to ensure that all of them have access to appropriate levels of care whether through their own insurance or through our public programs.

I am committed to meeting with the proponents, Dr. Medlock, Commissioner of the Behavioral Health Administration, and the Commissioner of Insurance to find resources and better solutions for this profession and others that need specialized care and resources.

For the above reasons, HB 22-1221 is disapproved and vetoed.
Sincerely,

Dear Honorable Members of the Colorado State House of Representatives:

Today I vetoed House Bill 22-1387, "Concerning measures to ensure that a common interest community has adequate reserve funds" at 2:30 p.m.

House Bill 22-1387 ("HB 22-1387") requires mandatory reserve studies for common interest communities that have major shared components. The bill outlines the necessary elements of a reserve study and establishes a timeline for conducting these studies.

Very simply, this bill would lead to higher HOA fees for some Coloradans at exactly the wrong time, as Coloradans are facing increased prices and greater uncertainty. While I believe that there should be oversight of common interest communities, including homeowners associations (HOA) to ensure the safety of these communities, this bill is not the solution. By requiring these reserve studies, many communities would be forced to raise monthly fees. Smaller communities especially could face significant fee increases and administrative burdens. I deeply care about the long-term viability of these communities, but with rising costs in Colorado, I am focused on the next several years ahead of us and the very serious need to maintain affordability for residents in our state.

I am in full support of some of the provisions of this bill, specifically those requiring increased disclosures on shared components to buyers and new governing boards, which would not contribute to higher HOA fees. I also agree with the need to require developers to provide the most detailed type of information to a new governing board or prospective homebuyer when they turn over the development to an association. These new governing boards need to have a full understanding of issues and not ignore them until there is a public safety or health hazard.

Reducing housing costs for all Coloradans is one of my top priorities, and I take saving Coloradans money very seriously. I am concerned about additional fees that homeowners, particularly those in smaller HOA communities, may face during these times of pandemic induced inflation as a result of this bill. While I appreciate the work of the sponsors on HB 22-1387, now is not the time to increase fees for homeowners. I urge the sponsors to consider legislation next year that addresses disclosure and other provisions but does not significantly increase financial and administrative burdens.

Therefore, HB 22-1387 is disapproved and vetoed.
Sincerely,

Dear Honorable Members of the Colorado State House of Representatives:

Today I vetoed House Bill 22-1399, "Concerning consumer protection relating to music therapy services" at 2:30 p.m.

House Bill 22-1399 ("HB 22-1399") would make it a deceptive trade practice under the Colorado Consumer Protection Act if a person without an active music therapist board-certified credential from the Certification Board of Music Therapists claims to be a music therapist in their title, or implies that they are a music therapist. The bill would also create a criminal penalty for any person who unlawfully claims to be a music therapist by establishing a class 2 misdemeanor for the offense.

I thank Colorado's music therapists, who, along with many different therapy modalities, can offer improvements in emotional, social, and cognitive well being. However, absent extraordinary circumstances, any new criminal penalties pertaining to an occupation or a profession should be first examined by the Colorado Commission on Criminal and Juvenile Justice (CCJJ). I have noted previously in my signing statement for HB 21-1209 that when making changes relating to criminal penalties, we should seek out the expertise of the CCJJ. The CCJJ is uniquely equipped to analyze the merits of new criminal penalties, whether it be for title protection in music therapy or otherwise. In fact, one of the stated purposes of the CCJJ is to conduct analysis on the "effectiveness of the criminal code and sentencing laws in securing public safety."

As one example, I signed House Bill 22-1257 into law this year, which made several changes to criminal penalties for those who unlawfully practice certain professions without a license, registration, or certification. This bill exemplifies the appropriate way in which new criminal penalties pertaining to the practice of professions or occupations should be examined and presented for potential codification in law.

Rather than creating a new criminal penalty with regard to title claims for music therapists, I believe it would have been appropriate to consider and study whether civil penalties would have been the proper consequence for those claiming to be a music therapist without the proper credential, similar to other civil penalties that are imposed on those who violate the Consumer Protection Act.

In addition, I am reluctant to add title protection to any profession when DORA has conducted two Sunrise Reviews, the last in 2019, and determined that the occupation should not be a regulated profession. In addition, in 2014, DORA concluded in a Sunrise review that neither was there a need for title protection for music therapists given existing statutory prohibitions against persons claiming to have a degree or training they do not possess. The legislature established the Sunrise process for an important reason, and further improvements were made to the process this very session with the signing of HB22-1291. While of course the legislature and the Governor reserve the right to depart from the findings of the Sunrise Review, I take the Sunrise review process into strong consideration with regards to my signature on bills.

We appreciate the work of the sponsors on HB 22-1399. Music therapists offer Coloradans important services that benefit mental and physical health, and will continue to do so. We are grateful for the music therapists of Colorado and their important work.

Therefore, HB 22-1399 is disapproved and vetoed.

Mr. Robin Jones
Chief Clerk of the House

Denver, Colorado 80203
Dear Robin,
Effective June 13, 2022, at 12:01a.m., I am resigning my position as State Representative for Douglas County's House District 43. I have been chosen to complete the term of the honorable Chris Holbert, in service to the great people of Senate District 30 in Douglas County.

I am incredibly grateful to my community and family which made it possible to serve, and it has been an honor and privilege unlike any other to represent the people of House District 43. I am also grateful to work with each of you over the last eight years. Through historic and trying times, both within the House and outside, your leadership, and the dedication of the outstanding non-partisan staff, the State Patrol and others, kept the members of the House safe, and its dignity above reproach. I hold you all in the highest regard and I thank you.

May God bless you, this House of Representatives, and the people of Colorado.

Nil sine numine,

Representative Kevin Van Winkle
House District 43 - Douglas County

## MESSAGES FROM THE GOVERNOR

I certify I received the following on the 7th day of June, 2022, at 6:32 p.m. The originals are on file in the records of the House of Representatives of the General Assembly.

The Honorable Members of the Colorado General Assembly

Dear Honorable Members of the Colorado General Assembly,
HB22-1050 outlines a path forward to utilize our healthcare providers who are internationally trained to become licensed in the U.S. and Colorado. This bill supports skills reviews to determine where there are gaps in an individual 's training to more fully utilize our available skilled talent in healthcare. The bill includes two programs that would provided needed additions to our healthcare workforce by facilitating the integration of International Medical Graduates (IMGs) into Colorado's healthcare workforce:

- The IMG assistance program, the purpose of which is to provide direct services to IMGs, including a review of an IMG's education, training, and experience to recommend appropriate next steps for integrating IMGs into the state's health-care workforce; technical support through the credential evaluation process; and scholarships to assist in defraying the medical licensure process; and
- The clinical readiness program, the purpose of which is to provide curriculum for, and assessments of, IMGs to help them build the skills necessary to enter a medical residency program.

The bill also authorizes the General Assembly to appropriate money from the General Fund or other sources, and authorizes the CDLE to seek, accept, and expend gifts, grants, and donations from private and public sources to fund the programs. The bill precludes CDLE from implementing the programs unless sufficient amounts are received to fund the costs of the programs.

I am signing HB22-1050 to support our healthcare workforce and leverage all potential talent across our state, but also want to express my position that gifts, grants and donations are a poor substitute for state funding when starting a new state program. On this occasion, our team is optimistic that we will be able to leverage federal funds for the first two years of funding for HB22-1050, to ensure we maximize the full talent of individuals across our state and country to best serve Coloradans. Saving people money on healthcare and making sure that every Coloradan has access to healthcare are a priority for my administration.

Sincerely,

Dear Members of the General Assembly,

Today I signed HB22-1131, Reduce Juvenile Justice Involvement for Young Children. This bill creates a "pre-adolescent services taskforce," which will examine gaps in services for juveniles who are ten to thirteen years of age if the minimum age of prosecution of juveniles were to be increased from ten years old to thirteen years old.

I deeply appreciate the sponsors' collaborative work on this bill, which was pared down from policy changes to a taskforce after hearing concerns from stakeholders. This taskforce will help to identify services that are currently provided by the juvenile justice system for this population and how services may be provided outside of the juvenile justice system in the event that the age of prosecution was changed to thirteen.

During the legislative process, stakeholders raised concerns that the taskforce created under this bill will be duplicative of the Colorado Commission on Criminal and Juvenile Justice (CCJJ). I fully respect the CCJJ and believe that this group is doing important work regarding sentencing reform, as well as identifying other changes that must be made to improve our criminal and juvenile justice systems and have previously and continue to encourage criminal justice reform policies to move through CCJJ.

It is important to me that the purview of the pre-adolescent services taskforce is to review services that are currently and could be provided to the ten to thirteen year old population. My understanding and intent is that this taskforce does not make recommendations regarding whether ten to thirteen year olds should be charged, but should instead do the important work of identifying services related to this population. This information will be helpful to the CCJJ as it completes its work.

To that end, I strongly encourage the CCJJ to invite the pre-adolescent services taskforce to present to the CCJJ to inform the Commission's important work regarding juvenile justice.

Sincerely,

Dear Honorable Members of the Colorado General Assembly:
I deeply appreciate the need to get Colorado ready for electric vehicles (EVS) and to help bring the option of owning an EV to more Coloradans. My administration has developed a comprehensive plan to achieve at least one million light-duty EVs on the road by 2030, a framework for significantly expanding access to electric and zero-emission trucks, and has, in partnership with the General Assembly, delivered unprecedented
investments in the electrification of school buses and increased access to public transit in addition to investing nearly $\$ 1 \mathrm{~B}$ in EVs and charging through the Clean Fleet, Clean Transit, and Community Access Enterprises. Among other EV investments through the federal Infrastructure Investment and Jobs Act (IIJA), Colorado is expected to also receive an additional $\$ 57$ million over the next five years to further deploy EV charging across the State.

Unfortunately, HB22-1218 does not include enough flexibility to adapt to changing infrastructure and is likely to increase housing costs at a time in which Coloradans are struggling with the high cost of housing. During my time in office, I have strongly encouraged local governments to reduce their parking requirements to support higher density near transit in order to reduce costs and allow for more flexible zoning. Saving people money on housing is a goal I take extremely seriously, and is furthered by the passage and my signature on HB22-1304, HB22-1282, SB22-159, and other actions I've taken around development and zoning reform.

I fully understand that with current technology, installing EV charging up front can be less expensive over the long run than subsequent adaptation. However, requiring EV installation up front also leads to greater costs now, at the very time that Coloradans are struggling with increased housing costs. We also need an approach to charging infrastructure that recognizes the different uses and needs of different buildings and communities across the state. HB22-1362, which I have signed into law, establishes a process to develop EV charging standards and pre-wiring requirements with the flexibility to update those codes over time as technology changes and EV adoption continues to increase. Unfortunately, HB22-1218 does not have similar flexibility built into the statute and locks in the precise requirements regardless of changing technology.

Furthermore, investments in charging should be in areas with the most usage, not just new buildings. My administration's strategy expands access to EV charging where it will have the highest use, including public charging, charging at state parks, along Scenic \& Historic Byways, and supporting charging at both existing and new buildings and parking lots, with a goal of having EV fast charging available within 30 miles of any location in Colorado.

Put simply, this bill would make new housing development and commercial remodels more expensive up front, and while it may or may not save money in the long run, potential savings are uncertain and further out. It is also possible future savings will never manifest as new technology is brought to scale that allows for less expensive installation of charging readiness and stations or charging or vehicular technology changes over time.

This bill's inflexible mandates would unfortunately require legislative changes to update the requirements. This is challenging both in the cases where the mandates are too burdensome, but also in the case, as history suggests, that EV adoption and new technology will continue to surprise us. I do not want to lock future administrations into pre-wiring and charging requirements that may be excessive today and inadequate in the future. Therefore I am vetoing HB22-1218.

That being said, I would like to work with the General Assembly next session to provide for a future variation on this bill that would provide more flexibility for changing technologies and that we could be clear with research would save people money. Flexibilities need to include an ability for builders to substitute a smaller number of spaces for fast chargers for a larger number of level 2 spaces; ability for local agencies to reduce the wiring and service requirements and simply require conduit in areas with low EV adoption; providing additional granularity and options on requirements for commercial buildings with different parking patterns and uses; waiver authority including for new housing in transit corridors; and critically, the ability for an entity such as the Energy Code Board established in HB22 1362 to dynamically modify the requirements to save people money based on new technology or otherwise adapt to new standards over time rather than requiring statutory action for further changes.

I would further welcome a commitment from manufacturers or utilities to cost-share up-front conduit and pre-wiring construction costs with developers in exchange for some combination of discounted future charger installation based on EV adoption, distribution of vehicle rebates and advertising to future building tenants, manufacturer financing for future charging infrastructure, and/or vehicle manufacturers providing shared EVs as amenity for multifamily buildings.

I further direct the Colorado Energy Office to work with stakeholders from communities, builders and building owners, nonprofit and research organizations, auto manufacturers, EV infrastructure providers, and other stakeholders, starting with this legislation as a foundation, to return in the 2023 legislative session with a bill that would addresses the unintended consequences of this bill and save people money.

Dear Honorable Members of the Colorado General Assembly,
Today I am signing HB22-1233 "Sunset Continue Regulation Of Optometry" concerning the continuation of the regulation of optometry in Colorado. I am supportive of the continuation of regulation of the practice of optometry to ensure the safety and health of the residents of Colorado. I am concerned, however, that while the bill recognizes and authorizes several areas of advancement for optometrists, it does so in a manner that is not entirely consistent with the recommendation in the sunset report from the Department of Regulatory Agencies (DORA).

While I do not often approve of going outside of the scope of a sunset review, in this case doing so establishes a rigid statutory framework for the practice of optometry, which will likely stay in place until the next sunset review in 2033. In the future, I encourage the General Assembly to find opportunities to streamline reforms to allow for a nimble regulatory environment that allows all of our regulated populations to practice to their full potential while ensuring consumer safety.

Despite these issues, I will sign HB22-1233 in order to renew the regulation of the profession and permit optometrists to continue serving as critical providers in all of our Colorado communities.

Sincerely,

Dear Honorable Members of the Colorado House of Representatives,
Today, I am signing HB22-1393, which provides one-time funding support for the Displaced Aurarian Scholarship at the University of Colorado Denver (CU Denver), Metropolitan State University (MSU), and the Community College of Denver (CCD).

HB22-1393 references lineal descendants of people who lived in the Auraria neighborhood from 1955 to 1973 as eligible for scholarships. When the Auraria Campus was built in the 1960s and 1970s, a community of more than 300 households was displaced through eminent domain in the name of urban renewal. As part of their relocation these residents were compensated for their homes and verbally promised free education.

The first written documentation of the scholarship that Auraria researchers can confirm is from the Auraria Executives Council meeting minutes from October 1993. HB94-1177 attempted to codify these efforts during the 1994 legislative session and a variety of news articles from the Denver Post, Rocky Mountain News, El Semanario and Westword have written articles referencing the program over the past 30 years. According to Auraria campus institutions of higher education, the scholarship program began in the 1990s and was designed to provide funds for tuition and fees for former residents of the Auraria neighborhood, their children, and grandchildren. Anecdotally, the three colleges have used their resources to cover scholarships in the following amounts, $\$ 3.4$ million in financial aid to roughly 600 students at CU Denver; $\$ 1.4$ million in aid for 305 students at MSU; and more than $\$ 627,000$ to 136 students at CCD.

The state's investment is one-time. The three institutions of higher education will support long-term funding beyond the one-time state fund of $\$ 2$ million split evenly between the three campuses. As stated above, in the past, CCD, Metro and CU Denver have used their resources to fund these scholarships, therefore the state has met these financial expectations with no further or future investments needed. I am signing HB22-1393 to ensure displaced Aurarians can receive these scholarship funds and want to express that the $\$ 2$ million funds from the state is a one-time investment without further obligations to the State of Colorado.
