Legislative Audit Committee. Current law, as enacted in 2009, requires the state transportation commission (commission) to create a standing efficiency and accountability committee (committee) and requires the committee to seek ways to maximize the efficiency of the department of transportation (CDOT) and periodically report to the commission and the executive director of CDOT regarding means by which they may execute their respective duties more efficiently. The commission established the committee as required, but in 2011 CDOT also established an internal office of process improvement (office) to improve the efficiency of its processes. The committee was disbanded in 2013 because, according to CDOT, the office's efforts to improve CDOT's efficiency were "significant and successful" and committee members did not believe that any further committee recommendations were necessary.

The bill requires the commission to reestablish the committee and expands the membership of the committee to include 4 state legislators and representatives of counties, municipalities, and nonpartisan good governance organizations. The commission may also appoint additional representatives of other industries or groups, or individuals or representatives of informally constituted groups of individuals, as it deems appropriate. The responsibilities of the committee are clarified and expanded to ensure that the committee addresses commission and CDOT accountability, specifically with respect to compliance with federal and state legal requirements and actions taken in response to the August 2015 performance audit titled "Collection and Usage of the FASTER Motor Vehicle Fees", as well as efficiency.

The committee is terminated, effective July 1, 2019, unless its existence is extended through the sunset process. A committee member must disclose a personal or private interest that could reasonably be expected to be affected if the commission or the department implements a proposed committee recommendation and abstain from any committee vote to adopt or reject the recommendation.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 declares that:

4 (a) Current law, enacted in 2009, requires the transportation

1 commission (commission) to create a standing efficiency and
2 accountability committee (committee) consisting of both department of
3 transportation employees and representatives of various nongovernmental
4 transportation stakeholders;

5 (b) The commission established the committee as required by law,
6 but the committee was disbanded in 2013 because, according to the
7 department of transportation, the efforts of a separate office of process
8 improvement established by the department to improve the department's
9 efficiency were "significant and successful" and committee members did
10 not believe that any further committee recommendations were necessary;

11 (c) The disbanding of the committee was not authorized by state
12 law;

13 (d) A recent performance audit of the collection and usage of
14 motor vehicle fees collected as authorized by the "Funding Advancements
15 for Surface Transportation and Economic Recovery Act of 2009"
16 indicates that, notwithstanding some progress and successes,
17 opportunities remain to improve the efficiency and accountability of the
18 commission and the department of transportation; and

19 (e) In order to improve the efficiency and accountability of the
20 commission and the department of transportation, it is necessary and
21 appropriate to:
