BILL TOPIC: REQUIRE NOTICE FROM FEDERAL AGENCIES

NOTE: This bill was not enacted into law; therefore, the impacts identified in this analysis do not take effect.

Summary of Legislation

The bill requires that certain federal regulatory agencies inform municipal and local law enforcement at least 24 hours in advance of any specialized operation that will take place in its jurisdiction. Federal regulatory agencies are barred from using specialized units to conduct operations in the state without first providing this advance notice, which must include a court order authorizing the operation.

Federal regulatory agencies exempt from the requirements of this bill include the Department of Defense, the Department of Justice, the Department of Homeland Security, the Nuclear Regulatory Commission, the United States Capitol Police, the Bureau of Diplomatic Security, and military departments.

Local Government Impact

To the extent that federal regulatory agencies do conduct specialized operations in the state, and to the extent that they do inform law enforcement 24 hours in advance, workload may increase for local law enforcement officers involved in communications with federal agents. Any increase is expected to be minimal.

Effective Date

The bill was postponed indefinitely by the House State, Veterans, and Military Affairs Committee on April 6, 2016.
