- ! Requiring the unit and office within the department of human services that administers behavioral health programs (OBH), including those related to mental health and substance use, and the department of corrections to promulgate rules that require providers under each department's authority to use an agreed upon medication formulary (formulary) by mental health providers and justice system providers (providers);
- ! Requiring OBH to conduct annual and biannual reviews of the formulary to address any urgent concerns related to the formulary, update the formulary, and ensure compliance with the medicaid formulary;
- ! Requiring the department of corrections, county jails, community mental health centers, the division of youth corrections, and other providers to share patient-specific mental health care and treatment information, provided federal and state confidentiality requirements are met;
- ! Requiring OBH and relevant providers to develop a plan for electronically sharing patient-specific mental health care and treatment information across systems;
- ! Requiring OBH to encourage providers to utilize cooperative purchasing for the formulary to maximize statewide cost savings;
- ! Encouraging the pharmaceutical cooperative purchasing entity to include an ongoing drug utilization review process;
- ! Requiring OBH to investigate and develop options for collaboration with local county jails to coordinate medication purchasing. Based on that information, the behavioral health transformation council shall develop a medication purchasing plan on or before July 1, 2017; and
- ! Requiring the department of human services and the department of corrections to report progress on the implementation and use of the medication formulary and cooperative purchasing as part of each department's "State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act" hearing, beginning in January 2018 and annually thereafter.
