The bill updates the current newborn screening program to require more timely newborn hearing screenings. The department of public health and environment is authorized to assess a fee for newborn screening and
necessary follow-up services. The bill creates the newborn hearing screening cash fund for the purpose of covering the costs of the program.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. In Colorado Revised Statutes, repeal part 8 of article 4 of title 25.

(d) Newborn screening is an appropriate public health function to provide necessary educational services to health care providers, families, and communities so that appropriate resources and information are available;

(e) Newborn screening is a public health function that identifies newborns at risk of certain conditions or hearing loss, as well as newborns who do not receive screening, and appropriately connects them to care;
AN EFFECTIVE NEWBORN SCREENING PROGRAM IS DEPENDENT UPON A STRONG SYSTEM OF EDUCATION AND COORDINATION AMONG PRIMARY CARE PROVIDERS, HOSPITALS, SPECIALTY CARE PROVIDERS, PATIENT AND FAMILY SUPPORT ORGANIZATIONS, PUBLIC HEALTH LABORATORY STAFF, AND PUBLIC HEALTH PROFESSIONALS;

(a) State policy regarding newborn screening and genetic counseling and education should be made with full public knowledge, in light of expert opinion, and should be constantly reviewed to consider changing medical knowledge and ensure full public protection;

Public and private access to individual NEWBORN patient data shall be is limited to data compiled without the individual's NEWBORN'S name. THE INFORMATION GATHERED PURSUANT TO THIS SUBSECTION (2)(e) DOES NOT RESTRICT THE DEPARTMENT FROM PERFORMING FOLLOW-UP SERVICES WITH NEWBORNS, THEIR PARENTS OR GUARDIANS, AND HEALTH CARE PROVIDERS.

SECTION 4. In Colorado Revised Statutes, 25-4-1004, amend (1)(b), (1)(c) introductory portion, and (2); and add (1.5) as follows:
25-4-1004. Newborn screening - advisory committee.

(1) (b) On or after April 1, 1989, all infants born in the state of Colorado shall be tested for the following conditions: Phenylketonuria, hypothyroidism, abnormal hemoglobins, galactosemia, cystic fibrosis, biotinidase deficiency, and such other conditions as the STATE board of health may determine meet the criteria set forth in paragraph (c) of this subsection (1). Appropriate specimens for such testing shall be forwarded by the hospital in which the child is born to the laboratory operated or designated by the department of public health and environment for such purposes SUBSECTION (1)(c) OF THIS SECTION. THE BIRTHING FACILITY WHERE THE INFANT IS BORN SHALL FORWARD ALL APPROPRIATE SPECIMENS TO THE LABORATORY OPERATED OR DESIGNATED BY THE DEPARTMENT. The physician, nurse, midwife, or other health professional attending a birth outside a hospital shall be responsible for the collection and forwarding of such specimens. The LABORATORY SHALL FORWARD THE results of the testing shall be forwarded directly to the physician, PRIMARY CARE PROVIDER, or other primary health care provider AS NEEDED for the provision of such information to the parent, or parents, OR GUARDIANS of the child. The results of any testing or follow-up testing pursuant to section 25-4-1004.5 may be sent to the immunization tracking system authorized by section 25-4-2403 and accessed by the physician or other primary health care provider. The state board of health may discontinue testing for any condition listed in this paragraph (b) SUBSECTION (1)(b) if, upon consideration of criteria set forth in paragraph (c) of this subsection (1) SUBSECTION (1)(c) OF THIS SECTION, the STATE board finds that the public health is better served by not testing infants for that condition.
(c) The state board of health shall use the following criteria to determine whether or not to test infants for conditions which are not specifically enumerated in this subsection (1):

(1.5) On or before September 1, 2018, and on or before September 1 each year thereafter, the state board shall add new conditions for which infants must be tested as deemed appropriate by the department, based on the recommended uniform screening panel as recommended by the secretary of the United States department of health and human services or its successor agency.

(2) The executive director of the department of public health and environment shall assess a fee which is sufficient to cover the direct and indirect ongoing costs of such testing required by this section and to accomplish the other purposes of this part 10. Hospitals shall birthing facilities may assess a reasonable fee to be charged the parent, or parents, or guardians of the infant to cover the costs of handling the specimens, the reimbursement of laboratory costs, and the costs of providing other services, including the connection of follow-up services and care to infants identified as at risk through screening, necessary to implement the purposes of this part 10.

SECTION 5. In Colorado Revised Statutes, 25-4-1004.5, amend (2)(b), (3)(a) introductory portion, (3)(a)(v), (3)(b) introductory portion, and (3)(c); repeal (1); and add (2)(c) and (3)(b.5) as follows:

25-4-1004.5. Follow-up testing and treatment - second screening - fee - rules. (1) The general assembly finds that:

(a) Newborn screening authorized by section 25-4-1004 is
provided for every newborn in the state;

(b) Newborn testing is designed to identify metabolic disorders that cause mental retardation and other health problems unless they are diagnosed and treated early in life;

(c) In order to ensure that children with metabolic disorders are able to lead as normal a life as possible and to minimize long-term health care costs for such children, it is necessary to provide centralized follow-up testing and treatment services;

(d) For over twenty-five years the follow-up testing and treatment services were provided by a federal grant that was discontinued June 30, 1993. Since that time, follow-up testing and treatment services have been limited. If alternative sources of funding are not provided, those services will be eliminated;

(e) A nominal increase of the fee on newborn screening to cover the costs of providing follow-up and referral services would allow for those services to be continued;

(f) Over the past ten years, many children with serious health conditions have received timely diagnosis and treatment as a result of the newborn screening required by this part 10. Such screening has averted the possibility of life-long institutionalization of some children and substantial related health care costs. The general assembly further finds, however, that many infants who are screened early in life may exhibit false or inaccurate results on certain newborn screening tests. The general assembly therefore finds and declares that subsequent newborn screening will provide more accurate and reliable test results for the timely and effective diagnosis and treatment of certain health conditions in newborn infants and the best interests of children in Colorado will be served by a
new screening program that routinely tests all newborns twice.

(2) (b) On and after July 1, 1994, the executive director of the department of public health and environment shall increase the newborn screening fee as provided in section 25-4-1004 (2) so that the fee is sufficient to include the costs of providing FIRST AND SECOND SPECIMEN TESTS WITH SECOND-TIER TESTING IF NECESSITATED BY THE RESULTS OF THE SCREENING IN ORDER TO REDUCE THE NUMBER OF FALSE POSITIVE TESTS AND TO PROVIDE follow-up and referral services to families with a newborn whose test results under a newborn screening indicate a GENETIC or metabolic disorder. Follow-up services include comprehensive diagnostic testing. The increase shall not exceed five dollars; except that it may be adjusted annually to reflect any change in the Denver-Boulder consumer price index. Any fees collected shall be subject to the provisions of section 25-4-1006.

(c) The state board shall promulgate rules to establish and maintain appropriate follow-up services on positive screen cases in order that measures may be taken to prevent death or intellectual or other permanent disabilities. The follow-up services must include identification of newborns at risk for genetic and metabolic conditions, coordination among medical providers and families, connecting newborns who screen positive to timely intervention and appropriate referrals to specialists for follow-up and diagnostic testing, and additional duties as determined by the department.

(3) (a) On and after July 1, 1996, all infants born in the state of Colorado who receive newborn screening pursuant to section 25-4-1004 (1) shall have a second specimen taken to screen for the following
conditions:

(V) Such other conditions as the state board of health may determine meet the criteria set forth in section 25-4-1004 (1)(c) and require a second screening for accurate test results.

(b) The executive director of the department of public health and environment STATE BOARD is authorized to promulgate rules regulations, and standards for the implementation of the second specimen testing specified in this subsection (3), including: but not limited to the following:

(b.5) THE LABORATORY OPERATED BY THE LABORATORY SERVICES DIVISION IN THE DEPARTMENT, OR THE LABORATORY DESIGNATED BY THE DEPARTMENT, AS APPLICABLE, MUST REMAIN OPEN A MINIMUM OF SIX DAYS PER WEEK EVERY WEEK OF THE YEAR.

(c) On and after July 1, 1996 2018, the executive director of the department of public health and environment may adjust the newborn screening fee set forth in section 25-4-1004 (2) so that the fee is sufficient to cover the costs associated with the second screening described in this subsection (3). Any increase shall be in addition to the fee described in subsection (2) of this section and shall not initially exceed five dollars and seventy-five cents but may be adjusted annually to reflect any actual cost increase associated with the administration of the second screening. Any fees collected pursuant to this paragraph (c) shall be subject to the provisions of section 25-4-1006 MONEY IN THE NEWBORN SCREENING AND GENETIC COUNSELING CASH FUNDS IS EXEMPT FROM SECTION 24-75-402.

SECTION 6. In Colorado Revised Statutes, 25-4-1004.7, amend (2)(a)(I) introductory portion, (2)(a)(I)(A), (2)(a)(I)(C), (2)(a)(II), (3)(a), and (5); repeal (1), (2)(a)(I)(B), (3)(b), and (4)(a); and add (7), (8), (9),
and (10) as follows:

25-4-1004.7. Newborn hearing screening - advisory committee - report - rules. (1) (a) The general assembly finds, determines, and declares:

(I) That hearing loss occurs in newborn infants more frequently than any other health condition for which newborn infant screening is required;

(II) That eighty percent of the language ability of a child is established by the time the child is eighteen months of age and that hearing is vitally important to the healthy development of such language skills;

(III) That early detection of hearing loss in a child and early intervention and treatment has been demonstrated to be highly effective in facilitating a child's healthy development in a manner consistent with the child's age and cognitive ability;

(IV) That children with hearing loss who do not receive such early intervention and treatment frequently require special educational services and that such services are publicly funded for the vast majority of children with hearing needs in the state;

(V) That appropriate testing and identification of newborn infants with hearing loss will facilitate early intervention and treatment and may therefore serve the public purposes of promoting the healthy development of children and reducing public expenditure; and

(VI) That consumers should be entitled to know whether the hospital at which they choose to deliver their infant provides newborn hearing screening.

(b) For these reasons the general assembly hereby determines that
it would be beneficial and in the best interests of the development of the
children of the state of Colorado that newborn infants' hearing be
screened:

(2) (a) (I) There is hereby established an advisory committee on

methodologies shall PRACTICES MUST be objective and physiologically
based and which shall MUST not include a requirement that the initial
newborn hearing screening be performed by an audiologist; AND

(B) The number of births sufficient to qualify a hospital or health
institution to arrange otherwise for hearing screenings; and

(C) Guidelines AND BEST PRACTICES for reporting and the means
to assure that identified children receive referral for appropriate follow-up
services.

(II) The advisory committee on hearing in newborn infants shall
MUST consist of at least SEVEN NINE members, who shall be appointed by
The executive director of the department of public health and
environment SHALL APPOINT MEMBERS TO THE ADVISORY COMMITTEE.

(3) (a) It is the intent of the general assembly that newborn hearing screening be conducted on no fewer than ninety-five percent of the infants born in hospitals. INFANTS BORN IN THE STATE BE SCREENED FOR HEARING LOSS using procedures recommended by the advisory committee on hearing in newborn infants, created in subsection (2) of this section. Toward that end, every licensed or certified hospital BIRTHING FACILITY shall educate the parents of infants born in such hospitals BIRTHING FACILITIES of the importance of screening the hearing of newborn infants and follow-up care. Education shall not be considered a substitute for the hearing screening described in this section. Every licensed or certified hospital shall report annually to the advisory committee concerning the following:

(I) The number of infants born in the hospital;

(II) The number of infants screened;

(III) The number of infants who passed the screening, if administered; and

(IV) The number of infants who did not pass the screening, if administered.

percent, the board of health shall promulgate rules requiring hearing
screening of newborn infants pursuant to section 24-4-103, C.R.S., of the
"State Administrative Procedure Act".

(5) A physician, nurse, midwife, or other health professional
attending a birth outside a hospital or institution shall ensure that the
hearing screening is performed within thirty days of the birth
and shall provide information, as established by rule of the
department, to parents regarding places where the parents may have their
infants' hearing screened and the importance of such the screening. The
