service serving within and between counties with a population of 70,000 or more, and **section 6** removes large-market taxicab service providers from the common carrier obligation to obtain a certificate of public convenience and necessity.

Sections 9 and 11 require large-market taxicab service providers to operate as motor carriers. As motor carriers, large-market taxicab service providers are required to obtain an annual permit (section 9) and are subject to the public utilities commission's regulations regarding safety and operational requirements, but not subject to regulations regarding times of operation, rates, or competition (section 11).

Section 4 continues to require drivers for a large-market taxicab service company to obtain a fingerprint-based criminal history record check.

Section 3 declares large-market taxicab service to be affected with a public interest. Large-market taxicab service operators are still required to indiscriminately accept and carry passengers for compensation.

Section 11 requires the public utilities commission to promulgate rules requiring taxicab service and large-market taxicab service companies to collect information about each driver's driving record and violations and periodically to provide the information to the commission. A taxicab service or large-market taxicab service company may request that the commission share with the company information about a specific driver that any other taxicab service or large-market taxicab service company has provided to the commission. The commission is required otherwise to maintain the confidentiality of the information, and the information is not subject to disclosure under the "Colorado Open Records Act".

Sections 5, 7, 8, 10, and 12 make conforming amendments.
